

MAY CONTEST NORTH BEND

In view of the fact there is a question about the manner in which North Bend won the game from Bandon last Sunday and following the game, the exposures in the City by the sea, it is the proper thing to throw the game out of the percentage standing. Bandon is not asking for this action, but it is only fair to the remainder of the league to see that it does not count. While Bandon is willing to let the game stand as it does, the other teams have deposited \$50 each to warrant a fund for first and second prizes and will look upon the game as a mere gift to North Bend. It places them one game to the good. The Marshall, Myrtle Point and Coquille managers have a perfect and proper right to demand the game be played over and not be counted until it is settled in a manner where there is no question of the validity of the win. North Bend is not blamed for the termination of the contest, but the other teams have rights in the premises which will be urged as competent and according to procedure in the big leagues.—Marsh field Record.

The Growing Budgets of Cities.

In the year of the Spanish war—still remembered by even the young—the annual budget of the present city of New York was about \$77,000,000. By 1909 it had reached double that figure, and is now well toward three times that sum. More accurately, the current budget stands at \$1,920,000,000. The population of the city was 3,000,000 in the year first quoted, 4,500,000 in the second case, and is now slightly above 5,000,000.

Real estate, according to the New York Sun's study of the situation for which we are indebted for these figures, "has ceased, for the present, at least, to increase in taxable value." It adds that many parcels pay taxes much in excess of the sums for which they would sell. Mayor Gaynor recently told the board of estimate that not in five years would real estate emerge from the taxation cloud by which it is shadowed. And personal property assessed for taxation is actually less in volume today than it was in 1898, and only half as much as it has been recently as 1905. New York confesses to the folly of attempting that form of double taxation involved in the assessment at full rates on personal property.

The Sun says that "the brakes must be put on." This is what the Herald has for several years been preaching here with painful reiteration. New York's experience is by no means exceptional. It is that of every American community, city, state and nation. We are becoming the most tax-ridden people on earth. An extraordinary large fraction of the productive energy of the community is assigned to pay for our being governed. This is the one fundamental issue on which sustained prosperity hinges. Big crops cannot save us. Tariff revision will not alone give us a low cost of living. Industrial conditions cannot be permanently wholesome until we check the skyward movement of public expenditures.

Christian Union Commission.

The Protestant Episcopal Church in October, 1910, appointed a Commission to bring about a Conference for the consideration of questions as to the faith and order of the Christian church, in the hope that such a conference will promote the cause of Christian Unity. That Commission is inviting all Christian communions throughout the world which confess our Lord Jesus Christ as God and Saviour to unite with the Episcopal Church in arranging for and conducting such a conference. More than twenty such co-operating commissions have been appointed, including all the leading communions in the United States States and the Church of England in England and Canada. Invitations are now being sent to other leading communions outside the United States as fast as the names and addresses of their officers can be obtained. The Episcopal Commission is publishing leaflets, explaining the scope and methods of the conference, and giving a list of books on Christian Unity, and those leaflets have been circulated all over the world. The Commission is glad to send them free to any one who will apply for them to the Secretary Robert H. Gardiner, Gardiner, Maine. He has received probably ten thousand, or more, letters on the subject, coming from every part of the world and from members of every Communion, Protestant and Catholic. Persons applying are entered on a permanent mailing list, so that they will receive all future publications.

The Episcopal Commission is trying to carry on the undertaking in the spirit of Bishop Brent, who urged, at the meeting when the commission was organized, that the side of organization shall not be made too prominent, but that we shall seek spiritual power. The first step shall be, in a new and full deep way, to rededicate ourselves to God, free from past prejudices, in order that, so losing ourselves, we may have a spiritual power simply compelling.

Ministers and lay men and women in Oregon to the number of 67 have already been brought together, at least to the extent of enrollment on the list, which is arranged geographically so that those who are interested enough in Christian Unity to apply to be placed on the list may obtain the names of others in their neighborhood also interested, with whom they can meet for united prayer for the reunion of Christians and for conference as to how it can best be brought about. The list includes Disciples of Christ, Congregationalists, Baptists, Episcopalians, Presbyterians, Methodists and the reformed Church in the United States. The executive Committee of the Commission of the Episcopal Church, of which the Rev. W. T. Manning, D. D., Rector of Trinity Church, New York, is Chairman, has recently issued a circular letter urging such local conferences. The World Conference may not be held for a number of years, for it will be a long undertaking to get the approval of all the leading Communions all over the world, though the project is being received with great cordiality.

Surprising cure of Stomach Trouble.

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stengle, Plainfield, N. J., writes, "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything I want." For sale by all dealers.
