"The Only Way" at the Orpheum September 5.

When Manager Hartman of the Orpheum Theatre booked Jos. Howards latest musical farce comedy, success, "The Only Way," he secured for his patrons the laughing hit of the season, this funniest of all funny comedies written for the purpose of laughter. It is one long laugh from the beginning to the end. This comedy is clean and moral; nothing to offend the most refined audience. Each and every role is in the hands of an artist, who has been selected with the greatest of care. The performers are noted for their ability to make people laugh.

Ben Bernard, known as "The Emperor of Mirth" who plays the leading comedy role, is good for a laugh a minute. With his many love affairs and mix-ups are so funny that the audience is kept in a convulsion of laughter from start to finish.

Jack Houson, "The Laugh Merchant," is not only a comedian, but a singer of note, having appeared as soloist on most of the leading vaudeville circuits, as well as with some of the largest musical comedies on the road.

Arthur Harper, that croll comedian, talks and talks and the more he talks the more you laugh. He is also noted for his great singing ability.

Miss Frances Ellen Holman, who is known from the eastern to the western coast as one of the cleverest fun makers on the stage, has been a great favorite wherever she has appeared, and has been praised by both press and public.

Marie Travel, the singing and dancing soubrette, has been the talk of the public.

Winnie Oliver, the character woman, is a "scream" in this play.

The above mentioned performers handle the principal parts in this musical farce comedy, "The Only Way" and will appear in our city on Friday, Sept. 5.

Dr. L. P. Sorensen left on the Fifield for a ten days trip to San Pedro, San Diego and other Southern California points.

MUST APPOINT COMMISSIONERS

Five Members Will Be Designated By Governor West in Near Future

The next thing in line for the Port Commission, is to have the County Court declare the port election carried. This will probably be done tomorrow, as the court meets then.

After this the next step is for the governor to appoint five commissioners and suggestions of names have already been made to the Recorder and others may possibly be made in the near future.

Names that have so far been suggested from Bandon are: J. L. Kronenberg, F. J. Chatburn, R. H. Rosa, Elbert Dyer, C. R. Moore, A. D. Mills, and Steve Gallier. Names from the middle river that have been mentioned are, J. R. McGee of Riverton, T. P. Hanly

of Lampa, and Ed Fahy of Bullards.

From Coquille we have had the following names are suggested to us: W. G. Chase, A. T. Morrison, E. F. Johnson and Mr. Knowlton.

The probabilities are that two commissioners will be appointed from Bandon, two from Coquille and one from the middle river. This would seem to be a just and equitable way of distributing the honors and at the same time would insure fairness for all parts of the port.

In the appointment of the commissioners Governor West will no doubt be largely influenced by the recommendations that come to him from the people interested, and it is more than likely that the Commercial Clubs of Bandon and Coquille will send in recommendations.

Suit Against Southern Oregon Co.

A suit in equity to compel the Southern Oregon company to sell to land embraced in the original Coos Bay Wagon Road grant to settlers for \$2.50 per acre, as provided for in congress' grant of 1869, hrs been filed with the clerk of the United States district court by E. J. Barnes and 58 others.

The suit is directed against the Southern Oregon company and Governor West and Attorney-General Crawford, as officials of the state of Oregon.

The state is involved for the reason that congress first granted the lands to Oregon, and the state subsequently donated its rights to private parties.

Summons have been served on West and Crawford already, ordering them to appear in court September 16, to answer allegations set forth in the complaint.

The 59 complainants are people who desire that the lands be sold according to the terms of the original grant, and they allege that they have offered the proper sums of money required for the purchase of the proper sums of money required for the purchase of the lands, and have met with a refusal on the part of company. They they allege, is contrary to the provisions under which the government relinquished possession.

The original grant was made to the state in 1869 and provisions were made that alternate sections of land should come into the posses-

WILD WEST
MAKE GOOD

The exhibition of cowboy sports at the ball park on Saturday August 30th was a success. On every hand we heard expressions of satisfaction from people among the large crowd who witnessed the sports. The cowboys found some difficulty in riding a bull, several riders being thrown before the animal was finally conquered.

After the cowboy sports an exciting automobile race was held. Charles Grider in his Ford beat Clinton Malehorn who drove Billy McCloud's car. On Sunday afternoon Malehorn tried his luck again in the same car but broke down soon after the start. Charles Grider showed his sportsmanship by telling Malehorn to get another car and he would race again for the stakes. In the second race Grider had trouble with his car some forty minutes after the race started and he lost his lead and was quickly passed by Moon driving a Hub automobile.

The Bandon Carnival Committee state that they have found Grider square and above board in his dealings with them. His generous action in the automobile race showed a good sport and game loser.

Output of Sawmills Cut.

Aberdeen, Wash., Aug. 30.—The West Coast Lumberman's Association yesterday ordered a curtailment of one third in the output of the mills, beginning September 1, owing to dullness in the lumber market. Thirty mills were represented, situated in Western Washington and Portland and it is said that all the large mills in the Northwest will co-operate. The method of decreasing the output was not decided on. Most of the mills will work only four days a week, it is said. The output will be reduced 30,000,000 feet a day. Members at the meeting thought a reduction of time for 60 days would remedy the situation.
