Recorder Philosophy

A real man never wants anyone's pity.

The superstitious fanatic defies the ignorant dead.

There is one thing we refuse to worry about—the income tax.

A bigot has ears but hears not, excepting the sound of his own voice.

As time elapses army officers find it increasingly difficult to command—respect.

A prejudiced reporter is an enemy of mankind—and there are plenty of them.

Build a woman a nice house and she will demand an out building to do the work in.

When you submit to imposition people will say you are "getting what's coming to you."

Some newspaper men as well as other mortals loudly proclaim their independence but it is all a bluff.

A preacher is a wage slave; so is a reporter. This accounts for some that otherwise would not have to be accounted for.

Rush Railroad Work.

Eugene, Or., Sept. 16.—The work on the Eugene-Coos Bay line is progressing rapidly and the camps which were somewhat depleted by the recent rains, are now filling up with men. A steady stream of laborers is being sent out from Eugene to keep the camps running full blast. The weather conditions control the situation largely, but if the fall rains hold off for any considerable time great strides toward tide-water will be made yet this year.

There are sixteen bridges to be constructed on the other side of the Noti tunnel and this bridge work will naturally regulate the speed with which the work progresses. The bridge work depends upon the contractors who are putting in the concrete work preparatory to the arrival of the bridge steel, which is assembled in the yards in Eugene and shipped out as fast as the track is laid up to the bridge sites.

"The coast line to California will be the scenic line," says Mr. Hoey. "but it will probably not be the main line. Although the grades are less than over the Natron line, the curves are such that it will not be adapted to speed. It might be the route of such trains as the Shasta Limited but as the main line, it does not look feasible to me."

The status of the coast line from Eugene to Marshfield is a maximum eight degree curve, and 0.6 per cent grade. There is but one eight degree curve and this is such that it can be reduced, and with the exception of it and several "sixes" the maximum is a four degree curve. Four-tenths of one per cent is likewise virtually the maximum grade.

The maximum grade over the Natron line at Odell Lake will be 1.5 per cent. The maximum on this and the coast line is to be contrasted with the 3.3 per cent grade on the present main line over the Siskiyou where two, three and sometimes four engines are added to the trains. These helper engines cost from \$18,000 to \$20,000 a year to maintain. A feature of the coast line is the absence of snow.

Mr. Hoey, who with Assistant Engineer W. R. Fountaine, has just returned from the inspection trip, reports difficulties because of the rains. Four hundred quit during the past week, making all crews short handed. He states that three inches of rain fell in the Siuslaw

valley over Tuesday, Wednesday and Thursday of last week. Men are being rushed in as rapidly as possible. At present 1854 are working and 564 horse are being used. He states that the grade to Acme will be completed in 30 days.

Notice of Street Work.

Notice is hereby given that the Common Council of the city of Bandon, Coos County, Oregon, deems it expedient and necessary to improve June Avenue from the North line of Third Street East to the South line of Second Street North, in Bandon, Coos County, Oregon, at the cost and expense of the owners of the lots and parts of lots and tracts of land included in the improvement district to be known as Local Improvement District No. 16 of June Avenue, which district embraces all property on either side of said street and abutting thereon between the North line of Third Street East and the south line of Second Street North, from the marginal line of said June Avenue back to the center of the block or blocks abutting thereon. Said improvement is to consist substantially of grading the street, building wooden curbs, wooden sidewalks and crosswalks, all of said improvements to be built upon the established grade of June Avenue and in accordance with the plans and specifications thereof prepared by the city engineer filed in the office of the city recorder and there open to the inspection of all persons interested therein.

The total cost of said improvement is estimated to be \$1,548.55.
Any objection to the said improvement must be filed in writing with the city recorder by the owners of Two-Thirds in the area of the property within the above described improvement district on or before October 1, 1913.
This notice is given in accordance with a resolution passed by the Common Council on the 30th day of July, 1913, and provides for the improvement of said June Avenue.

for your boy at this bank. It will take only \$5.00 to do it and it will be the making of him. When he sees how money deposited in the bank makes more money in the shape of interest he will be very apt to save where he now spends—often foolishly. You can do your boy no better service than to teach him the habit of saving.
