SOME people buy jewelry without regard to self protection.

To The School Patrons.

There seems to be some misapprehension regarding the change of school books. The school books are revised or changed every six years by the State Text Book Commission. This commission is appointed by the governor of Oregon, according to law. The school board and other local officers therefore have nothing to do with the change except to see that the books adopted by the State Text Book Commission are put into our schools within the time prescribed by law. Your school board desires your hearty co-operation with the board and the teachers in making this the best year that our school has ever had. Every thing that can be done will be done to secure or promote the best interest of every pupil. Let's all work and pull together to encourage our boys and girls to make the best of this their great opportunity to prepare for the realities of mature life. We have a splendid corps of teachers—capable, earnest, enthusiastic. It lies with us to encourage them with due sympathy and appreciation.

ADOLPH HABERLY
Chairman Dist. School Board.
