SEMI-WEEKLY

Bandon Recorder

VOLUME XXIX

BANDON, OREGON, FRIDAY, OCTOBER 17, 1913

NUMBER 82

"The Man With the Smile is the Man Worth While." He Makes People Happy.

THE PORT COMMISSIONERS GET DOWN TO BUSINESS

Many Matters of Importance Are Taken up at Meeting Wednesday. Was Lively Session.

The port commissioners of the Port of Bandon met in the Bandon Commercial club hall at 10:30 a. m. Wednesday October 15th. All commissioners were present.

E. E. Johnson who had been elected president at a former meeting, tendered his resignation, asking that Col. R. H. Rosa, the senior member of the commission be given the honor. Mr. Johnson's resignation was accepted and Col. Rosa was duly elected president after having resigned as vice president.

Mr. Johnson was then elected vice president, J. E. Norton was elected secretary and T. P. Hanly was chosen treasurer. The other member of the commission is R. E. L. Bedillion of this city.

After election of officers the president called for the reading of minutes of previous sessions. The minutes were approved as read.

A draft of laws was then submitted, by the port attorney, G. T. Treadgold, for the consideration of the board. The draft as rendered was examined and minor changes were suggested after which the by-laws were adopted.

The chair then appointed the following committees:

Finance committee, Commissioners Hanly, Bedillion and Johnson. Committee on Police Regulations; Commissioners Bedillion, Johnson and Norton.

Committee on Dredging and Harbor Improvements; Commissioners, Johnson, Norton and Hanly.

Committee on Harbor Lines, Public Wharves and Warehouses; Commissioners, Norton, Bedillion and Hanly.

An ordinance levying a three mill tax for 1913 was introduced and read in full for the first time. This was then laid on the table to be read again and passed at a subsequent meeting.

An emergency ordinance was then read, regulating the building and constructing of wharves, docks, and other structures within the waters of the Port of Bandon and prescribing fines and punishments for violation of the same. The ordinance was then passed to a second and final reading. An aye and nay vote was called and all commissioners voted aye.

The commission then adjourned.

taking the collection of said cost governor's office is in position to see the taxpayers reimbursed.

Upon receipt of the letter, Governor West this morning addressed the following letter to Hon. J. F. Hall, the county judge of Coos county, at Coquille:

"Your letter of the 11th instant received. Your office was asked for information, not for advice or instructions. We are desirous of obtaining the information sought, from those, who in our opinion, were responsible for the troubles. We may prove better collectors than you imagine."

Married.

Willis Tracy White Jr. and Miss Susie Effie Neer were married at Port Orford Wednesday. Mr. White is well known here and is a young man of excellent qualities. The bride is not so well known in Bandon but is an accomplished young lady and has many friends in her locality.

The young couple will be at home to their friends at Wedderburn after November 15.

CALVIN WANTS TO SEE LINE

Southern Pacific Official May Make Trip Over Coos Bay Road—in Portland.

Portland, Or., Oct. 15.—E. F. Calvin, vice president of the Southern Pacific, in charge of operation, has arrived in Portland for a brief business visit in the city. He is accompanied by Mrs. Calvin and their daughters. All are staying at the Portland Hotel.

Mr. Calvin is much interested in the progress being made on the Willamette-Pacific, which the Southern Pacific is building from Eugene to Coos Bay. If time permits he will take a trip over the completed portion of the line before returning to San Francisco.

He is well pleased also, with the development of the Willamette Valley by the Portland, Eugene & Eastern—another Southern Pacific subsidiary. He saw part of the work being done on this line while traveling to Portland. As soon as this road is finished and electrified, it will pass out of the hands of the Southern Pacific, so far as its operating is concerned.

Neither Mr. Calvin nor any of the Southern Pacific officials hold out any immediate hope for resumption of construction activity on the Natron-Klamath line, although several new surveys of that road have been ordered. An effort is being made to secure a way over the Siskiyou at a lower elevation than originally established.

Spruce Valley Items.

Mr. and Mrs. Harry Hattfield spent Saturday visiting at Henry Neals.

A birthday surprise was given Saturday evening to Mrs. Stella James and Miss Florence E. Reese by a number of friends. They received many remembrances.

B. F. Shields has not been able to work for a week on account of a carbuncle.—Chicken.

Ray Martin left on the Brooklyn for California where he will look up the possibilities of a cross country run for his automobile for the winter. He was accompanied by Mrs. Martin.

A GOLD MINE ON THE SIXES

The Sixes Mines Company Preparing for Extensive Operations.

The Sixes Mining Co., organized under the laws Utah have incorporated for the purpose of doing extensive mining for gold, platinum and other precious metals on the Sixes river in Curry county. The company is made up of some of the most prominent and wealthy men of the state of Utah. The secretary-treasurer being president of a Salt Lake bank.

The company's holdings consist of 300 acres of land on the Sixes river, about five miles above the county road, and near the mouth of dry creek.

The company has bought the land, the titles have been passed upon and they are now in possession of the property. The canal system, about four and one-half miles long is being constructed from Edson creek. This canal has a capacity of 3000 miners' inches, 75 cubic feet per second. A steam shovel for digging ditch has been shipped from Portland and the work is now being rushed. The company will also build a saw mill with 10,000 feet daily capacity, at the head of the ditch on Edson creek, which will be utilized for the purpose of sawing lumber for mines, flumes and buildings needed. The lumber is now being hauled from Port Orford, for building the temporary camp until the saw mill is completed.

The hydraulics will consist of two lines, one 30 and one 24 inch riveted steel pipe, guaranteed to stand a pressure of 125 pounds to the square inch.

The mining equipment consisting of giants, donkey engines for removing stumps, heavy boulders etc., with the latest gold saving apparatus will be installed.

Much prospecting has been done on the ground and it is found the values run high in platinum and others of the precious metals besides gold. It is estimated there are 14 to 15 million cubic yards of this high grade material.

The latest electric amalgamator of the James type will be put in use for the purpose of separating.

The camp is to be modern in every way, buildings to be provided with hot and cold water and a special effort will be made to provide for the comfort of miners.

A petition will be sent to Washington at once for a post office.

When our press agent saw Mr. Inman, who by the way is one of the company and acting superintendent, he said: "Yes we have bought the Sixes mines from the Divilbiss' and expect to equip them with the most modern machinery which can be bought. We propose to hire all our help as far as possible among local people and also will buy all supplies from local merchants that we possibly can, thus giving the local people the benefit of every dollar possible."

These mines on the Sixes have been passed upon by four of the best engineers in the mining business: W. A. Page of Salt Lake City; F. R. Kelsey of San Francisco; U. P. Kaler and C. Septon, and in the words of Mr. Page "It is a bonanza."

The operation of these mines means the opening of a new gold district which bids fair to rival any

in the country. Mr. Inman stated further: "It has taken me five years to convince outside mining men that Curry County, Oregon, has mines of merit and now that we have bought the mines and decided to go ahead we believe we are entitled to, and expect the cooperation and assistance of everyone in this district and we ask only that we be treated as well as we treat others."

The gold is of the nugget type and very easily saved by the common Hungarian rifle. The electric power plant will be installed on the ground, 5000 candle power capacity. This is for the purpose of lighting buildings as well as the mine which will be operated day and night. A deal for constructing a telephone system is now being negotiated, said line to be a cooperative line between miners and farmers and to connect with the main line at Langlois.

Mr. C. C. Inman who has charge at the Sixes Mines belongs to San Francisco. He is a mining man of life long experience and is one of the best known mining men in the west. Mr. Inman built the first house at Goldfield and was on the first school board of that place, and was active in causing the first school house to be erected there. He was first chief of the fire department and was chief of police acting in that capacity during the big strike at Goldfield.

It was C. C. Inman who first discovered the Gold Crater which proved one of the richest strikes ever made in the Goldfield country.

BLUE SKY LAW TO BE FOUGHT

Plan Also Broached to Repeal Act by Use of Initiative.

Salem, Or., Oct. 16.—According to advices received by Corporation Commissioner Watson, a movement has already been launched to test the constitutionality of the blue sky law in the courts, and also to initiate a law for its repeal, and he stated today that he welcomed both.

"If the law is unconstitutional, the sooner I find it out the better, and if the people do not want it then the sooner I find that out the better," stated Corporation Commissioner Watson in discussing the movement. "My understanding is that about \$2000 has been raised to canvass the state and create sentiment against the law. Luther E. Mahone has been selected for this task, and I am glad of his selection. So far I have not had a single complaint against the law from solvent corporations, and the only objection I have had are from certain brokers in Portland who handle all kinds of stock save standard securities."

Coming

To your city for a brief engagement only, the oriental wonder Ali Zada in a marvelous, meritorious exhibition of Hindoo mysteries, also the original Punch and Judy show, something never seen in Bandon before. The above act will open at the Orpheum Thursday Oct. 23rd. A treat for young and old.

Real estate dealers in Bandon report that there is a good outlook for the moving of property in Bandon this winter and in the early spring as they are getting many inquiries from interested parties on the outside.

CASES ARE SET FOR HEARING

Judge Coke Opens Equity Term of Court, Some to Be Heard in Marshfield.

Coquille, Ore., Oct. 16.—The case of the First National Bank of Bandon vs. Manassa is on trial at the equity session of the September term of circuit court today. The calendar was called yesterday and the cases set for trial. The cases are set for trial in the following order:

- Arthur McKeown vs. Walter Condron.
- Hite vs. McCloskey.
- Walker vs. City of Bandon.
- Youam vs. Scott.
- Hemple vs. Hemple.
- Endicott vs. Dekeater.
- North Bend Hardware Co. vs. Mrs. Henry Holm.
- Perkins vs. Perkins, divorce case from Bandon.
- Holland vs. Holland.
- Nelson vs. McNeil.
- Barnes vs. Mast.

Yesterday, the Siestrem divorce case from Ten Mile was ended, Mrs. Siestrem being given a divorce without opposition.

The injunction case of the Southern Pacific vs. the City of Marshfield involving the extension of Fourth street through the race track, will be heard by Judge Coke in the Chambers at Marshfield.

Other cases to be heard by him in chambers at Marshfield are:

- Wall vs. Gonboy.
- Wasson vs. Smith.
- Olson vs. Wilcox.

Maydene and Ethel Please Large Audience.

This clever sister team now appearing at the Grand certainly made good in their songs and dances. The girls are equipped with a large wardrobe of dainty dresses enabling them to appear in new costumes every night; their repertoire consists of eight different acts, an entire change each night. Tonight they appear in new dances and songs featuring a novelty stunt, Manager Selmer's New Ushers. Saturday night the girls feature their own original "Orphan Act" with special electrical effects, and additional feature by Ethel presenting a symbolic dance, "The Burning of Rome." Sunday night new songs and dances presenting New York's latest craze, The Society Tango Dance.

A select bill of pictures every night. Admission 15c and 10c.

BIG SALMON RUN THIS YEAR

There is a big salmon run in the Coquille river this year, Wednesday A. J. Barre pulled in 1427 fish, and on a former day caught over 1000. The haul Wednesday was the biggest Mr. Barre has made for five years.

Frank Holman has also been making some big catches this year, having hauled in over 1300 one day, and others are doing well too. The only draw back on the fishing business this year is the low price of fish but with the big run the fishermen will make a good season of it and the canneries will undoubtedly get a capacity pack.

The Art Club met yesterday afternoon with Mrs. C. Timmons. A delightful afternoon was spent and Mrs. Timmons served elegant refreshments.

WEST AFTER JUDGE HALL

Containing a veiled threat a letter has been sent by Governor West to County Judge J. F. Hall. As usual the letter was first published in the newspapers. The Salem Journal reproducing the letter says:

The county judge of Coos county instead of furnishing the information recently asked as to the expense of conducting the grand jury investigation in the deportation cases, advises that he does not think the and for the purposes indicated.

"No one who took part in, or sympathized with mob violence, is in position to criticize this office should it attempt, and in what may to them seem a peculiar manner, to have the taxpayers of your county reimbursed for the expense incurred on account of the recent deportation investigations.

"We can see no crime in under

"Naydene and Ethel", clever sister team at the Grand.

Ali Zada, Hindu performer, at the Orpheum Oct. 23rd.
