prove that it pays to

Pay Cash

We have always figured that it is not justice to the man who PAYS CASH, to charge him such a price as will leave a large margin of profit to offset the losses incurred by giving credit to those who are unable to pay their bills.

We also figure that it is not good business policy for a man to pay 10 to 25 per cent interest per month on his money—merely for the privilege of saying to the merchant—"charge it."

Then again—cash has a big purchasing value for us—with cash in hand we can buy closer.

Altogether It Pays

everyone to do business on a cash basis—STRICTLY CASH.

YELLOWSTONE IN DISTRESS

The Marshfield Record says: With her rudder gone fires out, main and mizzen masts torn away, deck load washed off and helpless with a crew of 23 men aboard the steam schooner Yellowstone was dashed about on a heavy sea eighteen miles off Coos Bay all last night. She was damaged in the gale of Saturday morning. The steamer Fair Oaks worked for twenty four hours but after breaking several lines was forced to come into Coos Bay for oil.

The steamer Breakwater had lines on the Yellowstone twice last night but both times they broke and the Breakwater proceeded north after the arrival of the Cantania, a big steam schooner which laid by all night.

This morning at 8 o'clock the Yellowstone refused to take a line from the Cantania and the latter schooner left.

The steam Schooner W. M. Chatham of the Loop Lumber company fleet arrived and stood by till 10 a. m. when she got a line aboard the Yellowstone and started south with her in tow. It was expected that the owners would send orders as to whether the disabled schooner should be taken to San Francisco or north.

Patron Teachers Meeting.

The Patron Teachers meeting will be held at the high school building Friday evening, Jan. 30.

An effort is being made to secure Mr. Hildebrand, manual training teacher at Marshfield to talk on the subject of manual training in the schools and it is hoped the parents of Bandon will be present to hear the subject discussed from the viewpoint of an expert. The program follows.

Vocal solo Mrs. Geisendorfer

Paper on Industrial training Miss Morgan

Manual Training in Schools Mr. Hildebrand

Violin solo Mr. Haggerty

Domestic Science Miss Abbott

One of the pleasant features of the meetings is the social cup of coffee and sandwiches or cake, but the committees are handicapped by the lack of dishes which always necessitates borrowing. It is therefore proposed that this meeting be of the nature of a "shower" and each one bring a cup and saucer or small plate.

Program committee: Miss Belle Witcher, Miss Abbott, Mr. Sidwell.
Refreshment committee: Mrs. Harrington, Mrs. Holman, Mrs. Perry.

Judge Dashes Thaw's Hopes of Release.

Concord, N. H., Jan. 16.—Federal Judge Aldrich today ordered consideration of the question of Harry Thaw's admission to bail postponed until conclusion of the pending habeas corpus proceeding. The order was a distinct defeat for the Thawites who had expected Harry would be out on bail within a week.

"All questions under the motion to admit Thaw to bail and all questions respecting the report of the commission charged with investigation his present mental condition," Judge Aldrich's order read, "are postponed until after the final hearing of the question involved in the habeas corpus and extradition proceedings."

The judge also overruled Thaw's request for a 30 days extension of time within which the defense may file habeas corpus briefs. This meant that the briefs must be filed by January 26. In view of these orders, it was believed the cases would all be disposed of early in February, either freeing Thaw or sending him back to Mattewan.

Dr. Hodge Comming.

Dr. C. F. Hodge, extension lecturer of the University of Oregon who is to lecture here next week is said to be one of the strongest men in his line on the coast.

It is not certain what date he will be here, but the Library Association under whose auspices he is coming is trying to arrange for Thursday, January 29th, as the Coos county Grange is to meet here on that date and they are desirous of having Dr. Hodge speak before them. He will also talk to the school children while here.

The evening lecture will probably be in the Commercial Club hall.

H. F. Morton, of the jewelry firm of Morton & Whalen has gone to Portland where he will take unto himself a bride. Mr. Morton rather gave his friends the slip here, not even telling them the name of the fortunate young lady, but it is said she is a very prominent young lady in Portland social circles. Mr. Morton will return to Bandon with his bride in about ten days.

AUTO PARTY GETS DUCKED

An auto party en route to Florence via Ten Mile were the victims of a mishap at Ten mile creek on Friday evening resulting in the overturning of their machine and a severe drenching to Vernon Gorst, Jerry Kinney and Percy Phillips who composed the party.

The party left the Bay Friday en route to Florence. Kinney who was driving suggested a few minutes before the accident that the party stop for the night, Gorst suggested that they continue until they had passed Ten Mile creek and Kinney proceeded.

"A dense fog was hanging over the beach," said Kinney in speaking of the mishap, "and I could not see where I was driving. I suggested to Mr. Gorst that he tell me which way to go, which he did. When we reached Ten mile creek, I started to cross, when we were hit by a large wave which covered the car. I kept right on going till we were hit by another wave, larger than the first, which overturned the machine. The fog was so thick at this time that Percy Phillips made a run for the ocean, thinking he was headed for the beach and received a double duck-

ing."

Kinney returned to the Bay Sunday morning.—Coos Bay Times.
