### Income Tax Recognizes Forestry

Washington, Jan. 21.—Foresters and lumbermen see in a decision of the Treasury Department in regard to the administration of the income tax a strong argument for forestry. As they interpret the opinion of the Treasury officials they understand that no timberlands shall be subject to tax until the timber is cut and marketed and that then the profit only will be subject to an income tax assessment. In other words, all costs will be deducted before the tax is levied, and these will cover the cost of growing the timber, including the cost of planting where necessary and of protecting the growing crop from fire and other depredation.

This decision was based upon a request for information made by P. S. Risdale, secretary of the American Forestry association. He asked if there would be a tax on the value of the yearly growth of timber whether it was cut or not and also whether an income tax would be assessed on the value of timberland. In reply the Treasury Department said that "the gain from the cutting and disposal of stumpage is realized in the year during which the timber is cut is disposed of, and that amount received in excess of such timber is profit, and should be so accounted for as income for that year."

The pictures have been boiled down to three reels eliminating all events that are not of especial interest to the public. This gives you the assurance of seeing that which is really worth while. The pictures are a whirlwind of action from start to finish, the photoplay is brilliant and absolutely clear. Hippodrome and chariot races, bucking and roping contests for the championship of the world. See the boys trying to ride a donkey, a laughable mirth provoking performance.—"we've been over the trail and we can throw the rawhide, there ain't ne'er a durn bronco but what we can ride—but the donkey threw the whole cow outfit. Its a great picture. Don't miss it. Admission to and 20c.

Washington, D. C. Jan. 21.—Congressional investigation of the Michigan copper strike and the Colorado coal strike was urged on the members of the House today by Samuel Gompers, president of the American Federation of Labor, in a circular letter authorized by the executive council of the Federation. Gompers' letters cited the west Virginia coal strike Senate investigation and the Homestead strike investigation as precedents justifying the action by Congress in the present circumstances. ## POLITICS IS PICKING UP

Portland, Jan. 23.—This will indeed be a lively political year in Oregon. Fifteen officials are to be elected by the voters of the state at the general election next November.

Candidates for all these offices, both state and county will compete for nomination at the primary election next May 15. That explains the sudden activity of the politically ambitious in getting into line.

Here is a list of the officials to be elected from the state at large this year and the salary of each.

United States Senator, at \$7500 a year.

Governor, at \$5000 a year, Members of congress from first, second and third districts at \$7500 a year.

State Treasurer, at \$4500 a year.

Attorney-General, at \$3600 a year.

Four Justices of Supreme Court, at \$4500 a year.

State Superintendent of public instruction at \$3000 a year.

State Labor Commissioner at \$5000 a year.

State Engineer at \$3000 a year.

One Railroad Commissioner at \$4000 a year.

Sixty members of the lower house and 15 senators must also be chosen.

Judge J. S. Coke has adjourned circuit court at Coquille until he can secure a new court reporter, Ira N. Riddle, who has been reporter in this district for many years was compelled to resign on account of threatened paralysis and will engage in the practice of law at Roseburg. Mr. Loud formerly reporter in the U. S. district court but recently with Porter Bros. at Florence, has applied for the position and will probably be appointed by Judge Coke for Coos and Curry counties.

### Railway Work Stopped.

Willett and Burr, the contractors who are building the Smith-Powers logging railroad out of Myrtle Point on the south Fork of the Coquille river have closed down for a time as the mud is so heavy it is impossible for them to continue construction. The work will be resumed as soon the weather will permit. About 150 men are let out of work but they are mostly the foreigners who come here from the outside and have been working as common laborers.—Marshfield Record.

### Dog Values Vary.

Salem, Or., Jan. 19.—If you are a resident of Union County, and if you own a dog, and if it is an average Union County dog, that dog is worth \$50.83.

But if you live in Clatsop County and own an average dog there, your canine property is worth only \$2.

These respective valuations are set by the respective assessors of the two counties named and equalized by their respective Board of Equalization. The figures are taken from the summaries of assessment rolls of Oregon counties, as compiled by the State Tax Commission. They represent the two extreme of highest and lowest there are a lot of interesting highs, lows and intermediates.

Average value of a dog in Multnomah County, for instance, is \$11.58; in Tillamook, \$22.65; in Washington, \$6.25; in Yamhill,

\$502; in Marion, \$29.05; in Lincoln, \$28.57; in Malheur, \$4.06; in Curry, \$50; in Lane, \$16.82.

According to the Assessor there are more dogs in Yamhill than in any other county of the state. They number 1828. Union county pays taxes on the fewest—six. Multnomah pays property taxes on but 76 dogs, while Curry, the most sparsely populated county pays taxes on 312 dogs. Clackamas, which ad-

joins Multnomah on one side, pays taxes on 1756 dogs, and Hood River, which adjoins Multnomah on another side, pays taxes on but 108. Next to Yamhill and Clackamas, Linn pays taxes on the greatest number of dogs—1141.

In all Oregon, to the best of official knowledge and belief of the assessors, there are 13,529 dogs and they are worth \$117,190, an average of \$8.51 each.
