BANDON, OREGON, FRIDAY, FEBRUARY 13, 1914

NUMBER 14

## NO ACTION ON ELECTION

The County Court Adjourns  
Without Taking Any  
Definite Steps.

WILL CONVENE  
AGAIN MONDAY

Will Use Care That No Ir-  
regularity Occurs to  
Mar Bond Issue.

County Commissioner G. J. Arm-  
strong returned from Coquille yester-  
day, the County Court having ad-  
journed until next Monday, as yester-  
day was a legal holiday.

Mr. Armstrong informed The Rec-  
order that no definite action had yet  
been taken on the good roads bond-  
ing proposition as the court still had  
the matter under consideration and  
would decide on the date for the special  
election next week.

There is considerable difference of  
opinion on the proposition, some ask-  
ing the county court to call the elec-  
tion within the next thirty days,  
while others want it held over until  
the regular primary on May 15th,  
in the interests of economy.

The attitude of the County Court  
according to Mr. Armstrong is to  
have everything about the election  
done correctly so there will  
be no danger of knocking out the  
special election or the bond issue at  
any future time because of any tech-  
nical error.

cisco.

Study in Scarlet and Beaton's Barg-  
ain. These gifts of books are al-  
ways very welcome.

### Bandon Property Change.

The Merchant Land company and  
Eugene O'Connell have united in  
purchasing the one-third interest  
which A. M. Crawford, attorney gen-  
eral of Oregon, held with them in the  
West Bandon Addition. The part-  
nership was formed a number of  
years ago, a large tract being bought  
The bulk of this has been sold and  
only about 140 lots remain.—Coos  
Bay Times.

### Basket Ball Tonight.

The Bandon High School Basket  
Ball team will play a game at Bank  
Hall tonight with the Myrtle Point  
High and a good game is assured. At  
Myrtle Point recently, the game stood  
a tie at the call of time and it was  
necessary to play longer in order to  
decide the game, which was won by  
Myrtle Point.

The game tonight promises to be  
fully as exciting and everybody should  
be out to root for the home team.

### Candidate for Commissioner.

In this issue appears the announce-  
ment of Geo. J. Armstrong for renom-  
ination to the office of county com-  
missioner. Mr. Armstrong has filled  
the office for the past term and has  
made a good record, which should be  
given due consideration at the hands  
of the voters at the primaries May  
15th.

### Moose Ball Tomorrow Night.

The Bandon Lodge, Loyal Order of  
Moose, will give their third annual  
ball, at Bank Hall, tomorrow night,  
and judging from the preparations  
being made, it will be one of the big-  
gest social events of the season. Kau-  
rud's orchestra will furnish the music  
and the dance will continue from  
9:30 p. m. to 2:00 a. m.

### Water Front Notes.

The Elizabeth sailed Wednesday  
with 275,000 feet of lumber, 64 tons  
of freight and seven passengers as  
follows: Max Quilliam, J. L. Smith,  
Ceresa Feinda, C. L. Williams, H. S.  
Sherman, H. P. Elwell, and wife. The  
Elizabeth will leave San Francisco for  
Bandon tomorrow.

The Fifield will arrive from San-  
Francisco Sunday morning and will  
sail again Tuesday morning. The  
Speedwell will also arrive Sunday.

The Tillamook sailed for Portland  
Wednesday with 1758 railroad ties  
and five tons of miscellaneous freight.

### Newspaper advertising.

The day has long gone, says an ex-  
change; when the newspaper asks for  
advertising patronage on the plea  
that the business man ought to sup-  
port their local paper. No self-re-  
specting newspaper today wants  
any advertising patronage as a mere  
gift of charity, or from any gener-  
ous or mistaken sense of pride.  
Newspapers of today solicit ad-  
vertising on a business basis only and  
with the distinct understanding that  
they can and will give value received  
for every dollar paid them by adver-  
tisers, if—and there is the rub of the  
matter—the advertiser pay as much  
attention to the preparation of his  
advertisement as the newspaper does  
to the display and circulation of it  
afterward. Advertising is no longer  
an experiment, a device external to  
one's business, a mere something to  
be trifled with in chance, a means of  
helping the business a little at times.  
In this day advertising is just as  
much a part of the business as buying  
or selling the stock. It is an incipient  
part of the process of selling and a  
most important one. If the mer-  
chant will give one-tenth part of the  
careful thought to his advertising  
that he does to the selection of the  
goods he wants to sell, he will find  
that advertising does most certainly  
pay.

The Pythian Sisters will give their  
third annual Grand Ball at the Wig-  
wam Saturday evening, February 21.  
In the earlier part of the evening,  
children from six to fifteen years of  
age dressed in colonial styles, in hon-  
or of Washington's birthday, will  
dance, admission being 15c, specta-  
tors 10c and mothers free. Admission  
for gentlemen will be 50c.

M. I. Randall has his new house  
completed and is moving into it today.  
Steve Gallier, son, Lentner, were

## \$90,000.00 FOR COQUILLE RIVER IMPROVEMENTS

RECORDER RECEIVES TELEGRAM FROM CON-  
GRESSMAN HAWLEY ANNOUNCING BIG  
RIVER APPROPRIATION.

This Is the Largest Single Appropriation Ever Made For  
This River.—1st Congressional District  
Gets \$1,775,000 in All.

The Recorder received the following telegram  
from Congressman Hawley yesterday afternoon  
which will be good news to the people of the Co-  
quille River valley. The telegram was dated at  
Roseburg Feb. 12, 1914, and reads as follows:

"I have just been officially informed by commit-  
tee on Rivers and Harbors, of the House, that I  
will have in bill reported next week, one million,  
seven hundred and seventy-five thousand dollars  
for the First Congressional District, ninety thou-  
sand dollars of which is for the improvement of  
Coquille water way."

W. C. HAWLEY, M. C.

## WEATHER BUREAU

UNCLE SAM GATHERS DATA IN  
VERY MATTER-OF-FACT  
MANNER.

Many people have an idea that there  
is something mysterious and occult  
about the work of the Weather Bureau  
in forecasting the coming of  
storms, frosts, and floods. Not a few  
think that the observers must necessar-  
ily get their data by reading the  
planets, the stars, and the moon.  
As a matter of fact, the forecaster of  
the bureau foretells the coming of dis-  
turbances in a businesslike way, very  
similar to that in which a man who  
has ordered a shipment of goods  
would estimate the date of its arrival.

Suppose a business man had order-  
ed a carload of pineapples from the  
Hawaiian Islands. He would know  
the average time it would take the  
steamer to make the trip to the Pacific  
port, the average time for unloading  
and loading into refrigerator cars,  
and the average number of days to be  
allowed these cars for their trip  
across the continent to New York.  
His estimate, however, would be sub-  
ject to error, because the steamship  
might meet with an accident.

Storms, like pineapples, as a rule  
do not originate in the United States.  
They come to us, some from the  
Philippines, Japan, Siberia, Alaska,  
Canada, or the Gulf of Mexico. The  
Weather Bureau gets cable, tele-  
graphic, or wireless notice of a fore-  
ign storm. Station after station or  
vessel after vessel reports the storm's  
arrival in its neighborhood, so that  
the general direction and rate of pro-  
gress can be determined very early.  
In fact, the arrival of some storms  
can be foretold ten days in advance.

The forecasters watch for the re-  
gion of low barometer which is the  
storm center around which the winds  
blow. This whirl or eddy moves bod-  
ily forward with the general east-  
ward drift of about 650 miles a day  
in our latitudes. The forecaster de-  
termines the direction of movement  
of the storm and its velocity.

When weather disturbances are re-  
ported the forecaster knows from ex-  
perience about how long it takes  
them to reach our Pacific coast, and  
then how long after they will reach  
the Atlantic coast. For example, if  
a storm coming from Siberia drifts  
eastward around the North Pole  
and reappears in Alaska it should ap-

## WILL MOVE LARGE STORE

BANDON DRY GOODS CO. WILL  
OCCUPY NEW ELLINGTON  
BUILDING.

The Recorder announced Tuesday  
that H. A. Murphy had bought the  
Bandon Dry Goods Company store,  
and since that time F. E. Westerberg,  
his partner in the Bandon, Marsh-  
field and Myrtle Point 5-10-15c stores  
has taken a half interest in the busi-  
ness and the two gentlemen are now  
equal partners in all of the four  
stores.

The Bandon Dry Goods Co.'s stock  
will be moved into the new Ellington  
building as soon as it is completed,  
and will occupy the entire first floor  
with the exception of the corner,  
which will be occupied by Walter H.  
Wells with the Orange Pharmacy.

This popular store will hold a big  
removal sale before moving, the an-  
nouncement of which will appear in  
Tuesday's Recorder.

pear in Washington and Oregon in  
Great Lakes in six days and to the  
Atlantic coast in seven or eight days.  
Unexpected conditions may delay  
storms or divert them from the  
straight track, just as a refrigera-  
tor car may be thrown off its sched-  
ule or be shipped by accident on a  
wrong road. Some of these storms  
deplete themselves by running into  
regions of high barometer which are of  
greater magnitude and extent than  
the storm itself. Some of them, how-  
ever, travel completely around the  
world.

To keep tab on cold waves that  
come into the United States from Can-  
ada and Alaska, the Weather Bureau  
studies the Canadian weather reports.  
England sends reports from Iceland,  
the British Islands and Continental  
Europe, and daily reports come from  
St. Petersburg on the conditions in  
Russia and Siberia.

### D. M. Averill Returns

D. M. Averill returned yesterday  
from his eastern trip, having been  
as far as Chicago and laid in his  
season's stock of goods. Mr. Aver-  
ill says the people of the section vis-  
ited are doing a lot of talking but  
that business is not opening up as  
rapidly as it might. However, the  
general outlook, he says, is very good  
for the future.

### Past Matrons Meet.

The Past Matrons Association of  
Occidental Chapter No. 45, Eastern  
Star, met at the residence of Mrs.  
Steve Gallier Wednesday afternoon  
After the regular meeting adjourned  
all were invited to the dining room  
where an elegant luncheon was  
served. The long table was beauti-  
fully decorated with flowers, the  
place cards being red hearts, sug-  
gestive of St. Valentine's day.

Mrs. Gallier was assisted in serving  
by her daughters, Misses Edna and  
Gladys, and niece, Miss Alice Gallier.

After refreshments, Misses Edna  
and Gladys Gallier rendered several  
beautiful selections on the piano,  
which were greatly enjoyed by all.  
The afternoon was pronounced one  
of the most enjoyable affairs of the  
year by those in attendance.

Those present were: Mesdames R.  
H. Rosa, E. M. Gallier, Matt Smith,  
Will Craine, Robt. W. Boyle, Fred  
Mehl, Steve Gallier, J. C. Slagle, and  
Misses Kate Rosa and Mary D. Ritchie.  
Other members were unable to be  
present.

The next meeting will be held at the  
home of Mrs. W. E. Craine on the cor-  
ner of Edison Avenue and Fourth St.  
West.

### Hawley For Congress.

The Recorder is in receipt of a com-  
munication from Congressman W. C.  
Hawley stating that he will again be  
a candidate for Congress from the  
First Congressional District before the  
May primaries. Mr. Hawley has made  
an excellent record in Congress and  
has certainly done good work for his  
district. His securing the \$90,000  
appropriation for the Coquille River  
will be a big feather in his cap in this  
valley, and we predict that the peo-  
ple will again rally to his support.

### James J. Corbett.

"The Man From the Golden West"  
is a thrilling four reel feature, telling  
a realistic story of the mining ex-  
citement of California. A picture  
that fairly vibrates with action and  
stirring climaxes. "Gentleman Jim"  
takes the leading part in this photo  
Drama and you will doubtless be cu-  
rious to see what sort of actor Cor-  
bett makes in pictures. All we care  
to say is that the picture makes good  
—it gets over with the big punch.  
To tell more of the story would spoil  
your anticipation. We will let you be  
the judge when you see the picture.  
At the Grand Theatre, Saturday  
night, Feb. 14. Admission 15c-10c.

### Ladies Aid Entertains.

The Ladies Aid Society of the M.  
E. church gave a Valentine social to  
the lady members of the church and  
their friends in the church parlor  
Wednesday afternoon. A delicious  
luncheon was served and the occa-  
sion was enjoyed by many.

### Creamery Has a Good Year.

A big business was done by the  
Coquille creamery during the past  
year according to the following from  
the Coquille Herald:

The annual meeting of the Co-  
quille Creamery company was held  
Feb. 5th. The election of a board  
of directors resulted in the continu-  
ance in office of the old board, viz:  
W. H. Hull, president; J. P. Clau-  
sen, C. E. McCurdy, C. C. Williams  
and D. K. Perkins. C. T. Skeels  
was selected as field manager and  
secretary to attend to the outside  
rustling for the company.

Reports of the business covering  
the period from Feb. 1, 1914, show-  
ed that the amount received for  
butter was \$81,217.59. Of this  
amount \$74,549.06 was paid to pa-  
trons, and the balance went into  
operating expense account. The  
amount of butter manufactured was  
268,901 pounds, and the average  
price paid for butter fat was 35 2-11  
cents.—Marshfield Record.

The Bandon attorneys have all re-  
turned from the county seat, court  
having adjourned until Monday of  
next week.

## BIG RALLY TONIGHT

Commercial Club Will Hold  
Big Meeting and Map  
Out Campaign.

ALL BUSINESSMEN  
SHOULD ATTEND

Will Take Up Matter of  
Woolen Mill Site and  
Other Matters.

There will be a special meeting of  
the Bandon Commercial Club at the  
Commercial Club Hall tonight at  
which time a plan for a new cam-  
paign for the revival of the club will  
be taken up and other matters dis-  
cussed.

The subject of a site for the Ban-  
don Woolen Mill will also be taken up  
and some definite action taken.  
Secretary Treadgold of the Com-  
mercial Club has received a communi-  
cation from the Marshfield Chamber  
of Commerce stating that if the mill  
was to be moved from Bandon, they  
wanted a chance to bid for it, and  
this communication will also be discus-  
sed.

Everybody interested should attend  
the rally and help to boost the town.

### See Oregon First.

Aside from the fact that Gold  
Beach is not 100 miles from the  
coast or that distance from a saw-  
mill, the following article in the  
Portland Journal is all right:

Gold Beach is crying for more  
houses. Word comes from there  
that the growth of the town is being  
seriously retarded for the want of  
houses for the people to live in.  
Everything in the shape of a house  
in the town is occupied and people  
are actually leaving for want of a  
shelter.

It is said that the nearest sawmill  
to Gold Beach is 100 miles away,  
and that every piece of lumber that  
is used there is carried inland 100  
miles on a gasoline scow. A  
resident of Gold Beach, recently in  
Portland, said that a splendid op-  
portunity to make money awaits  
the man who will build a small saw-  
mill in the vicinity of that town.

"There is a fine market at Gold  
Beach and vicinity for lumber," said  
he, "and some practical sawmill  
man with small capital could make  
a fortune out of a mill in our  
section."

### For County Commissioner.

I hereby announce myself a candi-  
date for renomination for county  
commissioner before the primaries, May  
15th.

Marshfield on business Wednesday.

Elks lodge.

given to the public.—W. B. Smith,  
pastor.
