Mechanic Maintenance

We are putting up and specifications and if you are going

to build anything anything, no matter how large or how small, we can save you

money. Let us figure on your building.

To say must be corrected.

The city elections this year will be in June. It may or may not be held; but the result can be so often in-

voked without due cause or consideration there is some-
thing the law and should be corrected. Wrongfully used, the recall will defeat the very purpose for which it was put in operation. Let us keep the recall, but use it with common sense.

ATTEND THE COMMERCIAL CLUB.

The Bandon Commercial Club had another routine meeting last Friday night and there is every prospect now for a good turn out of this organization. This call can not be accomplished, however, if the members attend few meetings and then resume the apathetic attitude that has for so long been in existence. It was decided at the meeting Friday night that there should be some literature prepared for advertising pur-
poses, and to do this it will be necessary to raise some money. It was decided to give a dance some time within the next month for a starter, and the funds so raised will be added to until there is sufficient to get out some good advertising material.

Another movement that the people should not overlook, and that is the opportunity afforded now to get into the club.

The initiation fee has been put down to a figure that is easily within the reach of most people and if you want to help build up the town and community, this is the opportu-

ity. The Commercial Club needs you.

There will be another meeting next Friday night, and it is up to every public spirited citizen to be there. We will have a list on the list of members, you should see that it is placed there at once.

A good live commercial organization is one of the very best assets a town can have and recognizing this fact every businessman should be willing to lend a band.

CITY IMPROVEMENT.

We all want to have a beautiful city. We want good streets, fine parks, beautiful lawns, and all that; but do we always put forth the proper effort to get them? In many instances where the subject is brought up, people remonstrate because of the expense. No improvement of any consequence can be made without considerable ex-

pense, and if we want the improvements and the better conditions that will come with them we must stand the expense.

There are ways, however, that the appearance of city can be improved without heavy expense, and chief among these is that of keeping yards and alleys clean of rubbish and debris of all kinds. If each property owner would look after his own property to that extent it would help a great deal. Considerable progress has been made along this line within the past year, and most of the credit

is due the ladies of the city. The Women’s Commercial Club and this Improvement Committee have done both good work along this line, and are to be commended for it. Clean-up day last year resulted in greatly impro-

ving the appearance of our streets and alleys, and another clean-up day should be arranged for this spring. And now is the time to begin to prepare for such a day. Spring is rapidly approaching.

BILLS WON’T BOTHER YOU

In case you have the saving habit. You’ll not have to worry and fret about how you are going to save more money. If you can save a Cold Pen, the practice now. Putting off will merely mean a days internal loss.

THE BANK OF BANDON
