#### Success Never was An Accident

The marksman may accidentally hit the bull's eye once in a great while, but Hard Work, Persistence, Determination & Practice are the prime factors that eventually win success. You have only to look around you to realize this truth. Every successful man you know—those you read about in the news columns—owe their success in no small measure to their early formed habit of putting aside regularly a portion of their earnings. You start now by opening an account at this safe bank.

**FIRST NAT'L BANK**  
 Open during Noon Hour and Saturday Evenings.

*In Old Egypt.*  
 An American professor claims to have discovered that it was a crime to flirt in ancient Egypt. If the fair sex looked anything like the pictures they left behind them it was.—Toronto Star

#### CHASE'S STAND

To the People of Coos County:  
 Having consented to become a candidate for the county judgeship, of Coos county, and appreciating the fact that the voters should know the "position" of those seeking office, I desire to briefly outline the platform on which I seek the endorsement of the qualified electors. If I am nominated and elected, as I hope to be, I will faithfully, honestly and conscientiously administer the affairs of the office, applying the laws pertaining thereto impartially, at all times and under all circumstances and conditions, performing the various duties devolving upon the County Judge with firmness and prudence. During the fifteen consecutive years that I have resided in Coos county, I have familiarized myself with every phase of public activity, and hence I feel that I am peculiarly qualified to act with "an intelligence born of experience" in practically all matters of public concern, to the advantage of the taxpayers, whose servant I shall be at all times.

The future greatness of Coos county depends to no inconsiderable extent upon the development of its unrivaled natural resources, the first and most important step to which

end is the construction of good, permanent highways throughout all populous sections thereof, and I hereby favor the most laudable undertaking and believe whether the bonding proposition succeeds or fails, that the County Commissioners should indiscriminately lend every possible assistance within the bounds of good business to the creation of an extensive system of substantial and enduring roads Coos county, with its multiplicity of advantages and long list of golden opportunities must speedily attract still wider-spread attention from residents of less favored localities, and good highways and the consequent improvement in market conditions are assets that cannot be ignored, viewing the situation from any angle—our present prosperity or future greatness. The farmer who, under present conditions, is unable to reach a suitable market with his produce, is entitled to this consideration; every community must necessarily profit from it.

I am in favor of rigid economy in all departments of County government, saving money to the taxpayer wherever possible, yet not to a point that would work hardship to progress along lines of honest endeavor, or retard our industries and institutions. I fully realize the great responsibility attached to this office and shall at all times endeavor to meet conditions as they shall arise with discretion. I shall devote, if necessary, my entire time and attention to the duties of the office, taking pleasure in giving every man a hearing, no matter how seemingly trivial his claim may be.

Upon this platform I seek your support in the primary and if nominated, at the polls on election day, giving final assurance of faithful, honest service if successful.  
 (Paid Adv.) W. C. CHASE.

**FOREST NOTES.**  
 The tenth successive year without a forest fire has just been passed by the Powell national forest in south central Utah.  
 Yellow poplar, or tulip tree, the largest broad leaf tree in America, has been known to reach nearly 300 feet in height and 10 feet in diameter.  
 Pennsylvania has about seven and one-half million acres of timberland one-eighth of which is owned by the state. The total value of the state's

timber is 139 million dollars.  
 Mistletoe thrives on the western coast to an extent not approached in the east. In many places this parasitic growth is responsible, directly or indirectly, for a considerable loss of timber.

Forest officers in Washington and Oregon plan to discontinue the use of barbed wire on their forests. This will affect their own pastures and public drift fences. They say barbed wire has no advantage over smooth

wire, that it injures stock, and is more likely to be borne down by soft snow. Stockmen in the Ochoco forest, in Oregon, recently constructed drift fences of smooth wire, though with some misgivings; now they say they will never use barbed wire again.

**For Representative**  
 As a Republican I hereby announce myself as a candidate for representative from Coos county, subject to the decision of the republican voters

at the primaries on May 15th.  
 My platform is the well known statement of Abraham Lincoln, "this is a government of the people, by the people and for the people." This famous statement of "Honest Abe" covers the whole field of range of our civil government, holding the same relation to it that the Golden rule holds to the moral law.  
 C. R. BARNES  
 Coquille, April 14th
