The Recorder sees no cause for complaint with Congressman Hawley. He has worked earnestly and well for the interests of this district. He has succeeded in most of his undertakings, and where he has failed it has not been for want of conscientious effort. He is entitled to the nomination at the hands of the Republicans for his past good showing.

In discussing the business outlook in Coos county the Coos Bay Time makes the following optimistic remark: "Confidence in the future of Coos Bay and all Coos county was never greater than it is today. Considering the general condition of the country investors are indisposed to buy except at bargain counter prices; while present owners having full confidence in the future refuse to make concessions to induce sales. These features make the realty market in active but it means only a temporary marking time. The future of Coos Bay is as great as its resources are rich, and its people are as confident of its possibilities as need be. The building of the railway, the development of the harbor continues and these are the things that make conditions good here when other sections are suffering from stagnation."

Attendants at the council meeting Wednesday night were given an example of official favoritism which has no doubt been going on for some time. When the matter of printing the pamphlets for the spring election was under discussion, City Attorney Feeney gave it as his opinion that the work should go to the official city newspaper without bid; being asked from the other newspapers. Last year when The Recorder was the official newspaper, work of this class was given to the lowest bidder—excepting work in which Mr. Feeney had the giving out, such as city briefs, in which case the Recorder was not even given a chance to bid. The pamphlets for the city election last year were given to the lowest bidder, Mr. Feeney was City Attorney at that time, and The Recorder was the official paper for the city. Why this change of opinion? Can it be that the City Attorney, having a personal grievance against this newspaper, is using his official position to vent his spite?

### 6642 VOTERS REGISTERED FOR THE PRIMARIES

When the registration books closed for the primaries last week there were 6642 voters registered in Coos County. Of this number 3500 are Republicans, 1800 Democrats, 150 Progressives and 1200 Independents, Socialists, etc.

**Announcement**  
I hereby announce myself as a candidate for the nomination of sheriff by the democratic party at the primary election May 15, 1914. If nominated and elected I will conduct the office along the most economical lines possible, consistent with efficiency, and do my best to enforce all criminal laws.

W. W. Gage

**For Representative**  
As a Republican I hereby announce myself as a candidate for representative from Coos county, subject to the decision of the republican voters at the primaries on May 15th. My platform is the well known statement of Abraham Lincoln, that "this is a government of the people, by the people and for the people." This famous statement of "Honest old Abe" covers the whole field and range of our civil government, holding the same relation to it that the Golden rule holds to the moral law.

C. R. Barrow  
Coquille, April 14th.

**For County Judge**  
I hereby announce myself as a candidate for County Judge before the republican primaries on May 15, and if nominated and elected I will guarantee an economical administration of county affairs.

W. C. Chase, Coquille, Ore.

### International Harvester Oil and Gas Engines

**SUCCESSFUL** farmers are no longer asking, "Shall I buy an engine?" They have passed that point and now inquire, "Which engine shall I buy?" A little careful observation will show that International Harvester engines are the most satisfactory. No doubt is left when features like the following are studied: Detachable valve guides, offset cylinder head, fuel pump, split-hub fly-wheels, extra large intake and exhaust valves, etc. Ask the men who have used I H C engines. That is the best test. They will explain the excellence of I H C construction, simplicity, strength and durability. Study the engines yourself at the nearest dealer's where International Harvester engines are sold. They are made in all styles, and range in size from 1 1/2 to 50 H. P. They operate on low and high grade fuels.

Write for our interesting and instructive catalogues, and when we send them we will tell you where the engines may be seen. A postal will do.
