SEMI-WEEKLY

BANDON RECORDER

BANDON, OREGON, JULY 31, 1914.

NUMBER 59

VOLUME XXX

FOUR YOUNG PEOPLE WED

YOU CAN GET YOUR NUMBER

WALTER SABIN, OLAF AASEN,
AND MISSES VELMA KLEPFER
AND MARGUERIT HABERLY
CONTRACTING PARTIES.

A pretty double wedding took place at Haberly, the suburban home of Rev. and Mrs. A. Haberly, last Wednesday evening, when four of Bandon and Coos counties' well-known young people were married. The contracting parties were Walter J. Sabin and Miss Velma Klepfér, and Olaf H. Aasen and Miss Anna Marguerit Haberly.

Mr. Sabin is the genial feed man at the Central Warehouse, and is an elder in the Presbyterian Church of this place.

Mr. Aasen is a successful farmer and dairymen of Arago, this county and a prominent officer in the Coos County Farmers' Union.

The brides are both residents of Bandon, Miss Klepfér having graduated from the Bandon High School in June last, while Miss Haberly was a teacher in the East school of Bandon last year.

Rev. A. Haberly, father of one of the brides, performed the ceremony, using the beautiful Presbyterian service and ring ceremony. Only intimate relatives of the contracting parties and one or two close friends were present.

After the ceremony the newly married couples left for a month's camping trip in Curry county. The congratulations and good wishes of a host of friends go with them.

DRS. LEEP AND MANN IN NEW ELLINGSON BUILDING

Drs. Leep and Mann have just moved into their new suite of office rooms in the Ellingson building and are equipping their office with a modern x-ray machine and a complete electrical outfit, also an operating room fitted with the most modern appliances.

They have a community waiting room and each doctor has two private rooms in addition to their operating room.

When their new equipment is all installed they will have as fine an office as can be found anywhere in Southern Oregon.

ANTI-PROHIBITION POSTERS ARE DECLARED ILLEGAL.

The following will be of interest here, as many of the posters referred to are posted in the local saloons:

"Further violations of the corrupt practices act, regulating campaign literature, will bring prosecution by District Attorney Evans, following the receipt of an opinion from Attorney-General Crawford that the provisions of the measure apply to publications in regard to issues as well as to those affecting candidates only."

Following the posting of numbers of anti-prohibition posters, which were unsigned, in the saloons of this city, Evans warned the Hop-growers' Association that the publications were illegal and that he would prosecute any violators of the act. Believing that the signature requirement did not apply to discussion of an issue, the anti-prohibitionists persisted in their course. Acting upon advice received this morning, the District Attorney's office will prosecute the Saloon League unless the practice is discontinued."—Coos Bay Times.

COMMERCIAL CLUB MEETS EVERY FRIDAY NIGHT.

Citizens and business men should not overlook the fact that the Bandon Commercial Club meets every Friday night and everybody interested in the development of the city is cordially invited to be in attendance whether members or not.

Until further notice the club will meet in the city hall, at least until the club rooms, recently damaged by fire are repaired.

THE CITY ENGINEER HAS FINISHED NUMBERING BANDON STREETS AND HOUSE NUMBERS ARE READY.

City Engineer J. S. Sawyer now has the official house numbers for the entire city and you can get your number by calling on him for the same.

Every house and business place in the city should have a number as it will be much more convenient in directing strangers in the city and, again, it will not be long if the present rate of increase in postal receipts continues, until we will have free delivery of mails, and then it will be necessary to have the numbers posted on the houses. So now is the time to call on Mr. Sawyer and get your number.

MAKING BIG PREPARATIONS

PORT ORFORD PEOPLE PLANNING A ROYAL ENTERTAINMENT FOR VISITORS TO THE AGATE CARNIVAL.

Port Orford, July 29.—(Special)—

The people of Port Orford have settled down to carnival promotion as a permanent business.

As a first step they have set up a "come agin" policy. To effect this the carnival committee are making such arrangements as will assure the comfort of visitors. As a start they have built a new road for automobiles to the beach. They have had wells dug for campers. Have erected free bathing pavilions on Garrison Lake and on the beach near Battle Rock for the convenience of bathers.

The events of the carnival will be held on the southern bank of Garrison's Lake near Agate Beach. A large dancing pavilion is being built here. To further assure the comfort of visitors a large ten, 60x90, has been purchased.

On the first day of the carnival, Thursday, August 6th, a big free dinner will be among the attractions. On the second day there will be contests of many kinds, including a tie-making contest. The Redmen are slated for an exhibition drill on that day.

On the third and last day of the carnival one of the events will be a wrestling match in which M. G. Lutsey will attempt to throw ten men in one hour.

ROAD CONTRACTS LET AND OTHERS ARE TO FOLLOW

The Coos county commissioners will meet next week to award contracts for all the road work proposed under special tax levies this year.

This work has been held back because of the new law being attacked by the Oregon and Wisconsin Timber Co., but the Supreme court has sustained the law and the funds amounting to about \$40,000 are now available.

The following road contracts have been awarded:

Coquille River bridge near Dix-McMullen ranch to Hongel & Hillstrom for about \$1800.

Mile of Rock Creek road, built by special tax, to A. M. Snyder for \$6.75 per rod for grading and clearing and \$1.75 per yard for rock work.

Mile of road at Big Creek, under special tax, to Leonard Hartley for \$6.25 per rod for grading and clearing and \$1.75 per yard for rock work.

Mile of road below Bandon on Coos and Curry road to Jack County for \$1500.

WILL BUILD ON THE DYER CORNER TO SUIT TENANT

CONCRETE OR BRICK TWO STORY BUILDING, MODERN IN EVERY PARTICULAR, TO GO UP IMMEDIATELY

Dr. D. E. Biggs, of Bellingham, Wash., arrived in the city Tuesday night to join Mrs. Biggs, who has been visiting for some time at the home of her mother, Mrs. F. E. Dyer.

In conversation with a representative of the Recorder Dr. Biggs stated that is was the intention to erect a two story concrete or brick building on the Dyer corner which was recently destroyed by fire. This corner is 70x100, and the new building will be constructed to suit tenants, and will consequently be an excellent opportunity for anyone who desires a business room in a first class building and in an excellent location.

The Dyer corner is one of the best corners in the city and the fact that the building is going up at once will be a source of gratification to all Bandon.

Dr. Biggs is anxious to begin building at once so that the building can be completed before the rainy season sets in.

The Doctor has just returned from a trip to the East, during which time he spent a couple of months in a Chicago clinical college. He is one of the leading physicians of Bellingham and is prominent in political circles as well, having at one time represented his district in congress.

START WORK ON BRIDGE

BANDON CONSTRUCTION COMPANY HAS COMMENCED CONSTRUCTION WORK ON BIG CHETCO BRIDGE.

W. H. Webb, manager of the Bandon Construction Co., is in the city this week, arranging to ship some lumber and other material down to the Chetco on their big scow as soon as the Elizabeth arrives from San Francisco.

Mr. Webb informed a representative of The Recorder that they have all the piling out for the bridge and the rock blasted out for the approach.

The big bridge will be 540 feet long and will be a combination wood and steel bridge with concrete abutments. The contract price for the bridge is \$22,800. It is across the Chetco river in Curry county and is just six miles from the California line. Mr. Webb will have the scow towed down to the Chetco river by the tug Kiliham, and from there it will be towed in by a big launch which they are using, as the tug cannot enter the river.

The Elizabeth is expected in about Saturday night or Sunday and Mr. Webb is figuring on taking his scow load down the first of next week, and then work on the bridge will proceed in earnest.

SIX PART FEATURE FILM COMING TO THE ORPHEUM

The Orpheum management has secured a splendid six part photo play feature from the Warner's feature company, entitled "Mother Love," with Marion Leonard, the famous Biograph girl, in the leading role. This picture gives Miss Leonard every opportunity to display her wonderful talent as an emotional actress.

The production has been staged by S. E. V. Taylor and is lavish throughout, showing the work of a master mind in directing this splendid screen drama. To be shown at the Orpheum Saturday, August 1, admission 15¢ and 10¢. Sunday night a selected reel program of Universal films.

Thos. Devereaux and wife returned last night from their automobile trip to Eureka and other California points, and report a very pleasant trip and no trouble at all except a couple of punctures on the last two days of their trip. The last one being between here and Langlois. Mr. Devereaux says he saw some fine country and traveled over some good roads.

J. C. Hammel left today for Albany where he will look after business for a few days and will return here again in about a week. The new hotel project is still growing and there lacks only about \$1200 or \$1500 yet to be raised of the required amount, and this has already been promised. As soon as Mr. Hammel returns the arrangements for the building will be completed.

REAL FINANCIAL PROBLEM IS
FACING THE CITIZENS OF THE
COUNTY SEAT.—WILL HOLD
ELECTION SOON.

Coquille.—Two real issues involving the finances of the city are facing the voters at the coming special city election. Probably the most important one is that of the council calling upon the citizens to change the charter so that a higher millage for city purposes may be levied. At present the limit is ten mills and it is necessary to change it so that at least twenty mills can be levied. The situation is said to have been brought about by the refusal of the council to grant any more saloon licenses after July 1st, thus cutting off four thousand dollars of revenue, consequently the question of raising the millage to twenty will be voted upon, and there is, of course a difference of opinion as to whether or not it will carry, but the prevailing opinion seems to be that it must carry in order to save the city, and as one citizen has expressed it: "Why dang it, it HAS to carry."

The other proposition is whether or not the city shall bond for \$30,000 to improve the water system, and although the general opinion seems to be that it will carry, yet some are trying to conflict it with the liquor question and there is a possibility that it may lose as a result.

Another matter being connected with the stopping of licenses is the street improvement question. The Council Monday night decided to ignore all previous steps on street work in the city, and begin anew. Lack of funds is not a factor in the question, however, as some would like to have it believed. Technical errors occurred when certain street improvements were remonstrated against. Twenty-eight blocks were in the original improvement district, but by remonstrance this number was reduced to twelve. In making different estimates certain errors crept in and to validate the contemplated work, involving about \$12,000, it was decided to begin at the beginning and go over the preliminary ground again.

The merchants as a rule deny that any material difference has been made in business since the abolition of saloons, and that the fear that the loggers would shun the town was unfounded. A certain barber very definitely states that his business shows a one dollar weekly increase this month over last. But as a rule the citizens are non-committal in discussing this most important question in Coquille.

Dr. Arthur Gale has moved into his new office rooms in the Ellingson building and is equipping a modern physician and surgeon's office. His office will be large and roomy, with waiting room, private and operating rooms and all equipment that goes with an up-to-date office.

REPORT IS UNFOUNDED

DISPATCH IN OREGONIAN FROM
TELEDO, ORE., THAT MOORE
MILL WAS CONTEMPLATING
NEW LOCATION IS WRONG.

Sunday's Oregonian contained a dispatch from Toledo, Ore., to the effect that Mr. Moore (meaning C. R. Moore) of the "Bandon Lumber Co." was in that city looking over the situation with the view of locating in that city if he could secure the proper site and get the timber. This report, however, is erroneous, as the Recorder has been informed on good authority. There is no foundation to the report and the Moore Lumber Co. is not now and never has considered moving.

If the price of lumber continues to look up the mill will start operations again in the near future.

DEERSLAYERS ARE ACCUSED

DEPUTY GAME WARDEN THOMAS
AS DISCOVERS VIOLATIONS OF
GAME LAWS.—PROSECUTIONS
WILL FOLLOW.

Marshfield.—Deputy Game Warden Thomas returned today from a tour of Coos and Curry and reports a number of violations of the deer protection law. Some arrests have been made and others will be made later. Mr. Thomas asks that all hunters be sure and secure licenses before Aug. 1, that be careful and not destroy the evidence of the sex of the deer slain and that they leave their dogs at home. He has decided to take all cases involving chasing deer with dogs direct to the grand jury.

He swore out a warrant at Bandon for Fred Figer, driver on the Marshfield-Sunset stage, charging him with killing deer out of season.

W. J. Jewett, employed at a sawmill near Langlois, is also charged with killing deer out of season.

Similar charges are to be made against three Beaver Hill men, and some on the South Fork of the Coquille, the latter being charged with killing a doe.—Coos Bay Times.

BAKER AND FISH OPEN PAINT AND PAPER STORE

A new business for Bandon is the paint and paper store of Fish & Baker, opened up in the new Fish building at the corner of First Street and Elmira Avenue. This is the first exclusive paper and paint store ever to be opened in Bandon and the prospects are good for a first class business. They have an ad. in this issue of The Recorder to which we call the attention of our readers.

PYTHIAN SISTERS CARD PARTY IS A SUCCESS.

The Pythians Sisters card party given at the K. of P. hall Wednesday night to raise money for the hospital bill of Noel Walker, was a success socially, although it was not as well attended as it was hoped it would be. There were seven tables full. The first prize for gentlemen was won by J. C. Hammel and the first prize for ladies by Mrs. A. S. Elliott. Elegant refreshments were served and all present had a very pleasant time.

Tomorrow (August 1) is the first day of the deer season. Numerous parties will be out from this section, and no doubt everybody will have at least a taste of venison within the next month. It is to be hoped that no casualties will occur to mar the sport this season.

APPEARING BY THOUSANDS,
THESE WORMS ARE WORKING
HAVOC WITH LAWNS AND
GARDENS.—REMEDY.

The army worm, which was at first thought to be cut worms, is working havoc with gardens, lawns and flower gardens throughout the city and surrounding country. Many gardens in Bandon have already been partially or totally destroyed. The following formula, published in a recent issue of the Portland Journal is said to be sure death to the army worm, and we reproduce it with the hope that it will benefit some of our readers in protecting their gardens:

"To the Journal:—Thinking perhaps your readers might be glad to know of sure death to the army worm, which is visiting our city and laying waste its beautiful lawns and gardens, I give you for publication a formula that will do the work. I tried several preparations on the market to no avail. This was given me by a man who fought this pest and conquered. I understand these worms travel in thousands creating devastation wherever they go, and come upon us once in 15 to 30 years. They will eat any green thing above the earth. One cannot expect to kill them all with one application, as they hide during the day beneath leaves, dried grass, boards and the like, but by saturating the ground and covering all plant life, also freely applying the emulsion about the roots of plants, you can exterminate hundreds with one application. Great care must be taken not to get the spray too strong. One quart to 20 will effectively do the work. Following is the formula: 2 pounds of whale oil soap, cost 10c per pound; 3 gallons kerosene, cost 15c per gallon; 1 gallon boiling water; total cost 65 cents. Cut soap into small pieces. Pour over this the boiling water, add the kerosene, and stir constantly for 20 minutes or until soap is thoroughly dissolved. Dilute 1 quart of the emulsion with 20 quarts of cold water. Sprinkle over lawns, gardens—in fact all vegetation. It will not harm garden, flowers or grass. One application will not exterminate the pests, as it is impossible to cover the ground with one application, but one will get immediate results. The emulsion will exterminate slugs, caterpillars—in fact, is sure death to all garden pests. It will not harm utensils used in mixing, but rather acts as a good cleaner."

ROSEBURG PARTY ENJOYED SCENERY AROUND BANDON

"Talk about fine scenery," said L. Lewis this morning upon his return here from a trip with Richard Stubbs "you don't have to go to Switzerland to find it. We visited Bandon, Gold Beach, Crescent City and Grants Pass and passed through some of the most sublime country from a scenic standpoint that I ever hope to see. It was well worth the time we spent."—Roseburg Review.

STREET SIGNS SHOULD BE REPLACED NOW.

At different points in the city the street signs have been torn down, and now that the house numbering is going on these signs should be replaced. There should be a sign at every corner or crossing, so that strangers in the city may know just where they are at any point in the city. This is a proposition that the council should take up at once and see that all torn down signs are replaced and that other signs be put up where there have been none. And further, there should be a penalty provided for the malicious destruction of the signs in the future.

J. S. Lyons and family are over from Coos Bay visiting Mrs. Lyons' brother, Dr. S. C. Endicott, and sister Mrs. C. McJohnston. They came over in their new "Kee 85."
