The body of Mrs. Scanlon was not recovered for about six hours.

PORT ORFORD SHIPS TIES

IS IMPORTANT NEW INDUSTRY.—RECENTLY BUILT WHARF ENABLES LARGE BOATS TO TAKE CARGOES.

Port Orford, August 3.—On the 28th of July the Mary Olsen cleared from Port Orford with over twenty-three thousand ties, making the largest cargo for a single shipment of ties from any Pacific coast port. The making at Port Orford is a new industry. Last year being the first year ties were shipped in any quantity from this harbor. The difficulty heretofore has been largely due to inadequate wharfage. The facilities being such that though the water in the harbor is deep enough for vessels of any draft the wharfage facilities were so poor that large vessels could not be loaded with reasonable dispatch. This spring a new wharf was constructed which made possible the loading of the Mary Olsen with a full cargo.

CAN RAISE THE MONEY

J. L. KRONENBERG INVESTIGATED SITUATION WHILE OUTSIDE AND REPORTS PLENTY OF MONEY TO BE HAD.

J. L. Kronenberg and family returned Saturday night from their trip to the Willamette valley, Portland and other points.

While in Portland Mr. Kronenberg looked into the money situation to see what could be done about securing money for the property owners in the burned district, who are anxious to get money to rebuild.

Mr. Kronenberg stated that there was plenty of money to be had, and all the money lenders ask is proper security, and the money can be secured at a reasonable rate of interest.

Most of the people in the burned district can furnish ample security so there will be no difficulty along that score and it is probable that in a short time active building operations will commence.

With the building that is going up on the Dyer corner, and a large percent of the other burned district, and the new hotel building which is now a sure go, there will be great activity in Bandon in the near future.

The plans for the new buildings have not yet been definitely arranged but details will probably be gone into in a few days.

SCHOOL FUND INTEREST WILL BE DIVIDED

It is announced by the State Treasurer that interest on the State school funds will be divided among all the counties of the state on the basis of their respective school enrollments. The total amount to be divided will be \$373,490.95, of which amount Multnomah will receive the largest single slice—\$91,883.95. The school population of the state is 201,887, an increase of 4,777 over last year. The apportionment of the fund per pupil will be \$1.85 as against \$1.83 last year.

ADVENTISTS SEE THE END

THE APPROACHING EUROPEAN WAR IS THEIR SIGN OF THE LAST DAY, SAY PORTLAND SEVENTH DAY ADVENTISTS.

Portland, Ore.—The end of the present world following the Battle of Armageddon, with Jesus Christ as a possible participant, and the rebirth of a new world for the righteous only is predicted by local Seventh Day Adventists, who base their prophecy on the present signs of a coming general European war. Biblical passages are interpreted by them to indicate that these phenomena are at hand.

"The Bible prophesies the movement of a great army from the north and the annihilation of it by the Kingdom of the South," said Elder Milton H. St. John, pastor of the Central Portland Seventh Day Adventist Church. "By this we understand that Russia, drawn into the conflict as it is likely to be, will swoop down upon Constantinople, elsewhere known in the Bible as the Kingdom of the South, and drive the Turk from Europe into the Holy Land. Then will follow the Battle of Armageddon, consisting of a series of conflicts around Jerusalem. If Christ does not come to earth during the battle he will descend soon after its conclusion. When he returns to Heaven, the Bible says, he will take all of the righteous dead with him. These righteous people, who died during the great final battle between all nations, according to

the Bible, will live in Heaven with Christ for 1000 years. Meanwhile Satan will be bound on earth, which then will be inhabited by the wicked. At the conclusion of the 1000 years Christ will return to earth with all the righteous people and will settle with them in the New Jerusalem. Deceiving the people of the earth, Satan, unbound again, will lead them in attack against the New Jerusalem with the promise that they will conquer the city. As they are marching to the battle, a great fire will come down from Heaven and devour them. At the same time ridding the earth of all disease and disease germs. A new earth, inhabited with righteous people will then be born. From the prophecies of the Bible we cannot fix the date, but conditions in Europe now indicate that the time is ripe. We predict that the final battle of the nations will come soon, as a result of the present complications in Europe. America, because of her intimate commercial connections with Europe, will probably be drawn into the great war. The fact that the many prophecies of the Bible seem to converge just at this time, when the nations of Europe are entangled, indicates that the great crisis is near at hand."

VENEER PLANT STARTS AGAIN

STARTED OPERATIONS YESTERDAY AFTER BEING IDLE FOR SEVERAL WEEKS AND WILL CONTINUE INDEFINITELY.

The Perry veneer plant started operations again yesterday morning after a shut down of several weeks, and will operate indefinitely if Mr. Perry can secure spruce logs. He has sufficient orders ahead to keep the plant going constantly but his only trouble is in securing logs as so many of the camps are shut down at present. However, he is in hopes that conditions will change and that he will be able to secure logs now as some of the camps are figuring on starting up again.

Mr. Perry is working a full crew in the cutting department and will put on a crew in the box finishing department if he succeeds in getting sufficient logs to continue operations.

COQUILLE MAN LOSES AN EYE IN BLAST ACCIDENT

Coquille—About four o'clock yesterday afternoon while at work on the clearing of the Fairview-Summer road, Road Supervisor Homer Holverstott met with a very serious accident which will probably result in the loss of an eye. He had placed two small sticks of dynamite in a stump, and thought he had only lighted one of them. But just as he had gone back to see the effects of the blast the second went off, striking him almost directly in the eyes. He was brought in here, but the physician who examined him thought there was no hope of saving the organ, so badly was it bruised, though it had closed before the stick struck it. However, Mr. Holverstott was advised to consult a specialist at Marshfield before giving up all hope and went over by auto this morning to see Dr. Straw.—Sentinel.

FLOUR SALES ARE STOPPED

C. F. PAPE HAS RECEIVED ORDERS NOT TO CONTRACT ANY FLOUR AT PRESENT.—THE EUROPEAN WAR CAUSE.

The first effect of the war in Europe to be felt in Bandon was when C. F. Pape, local agent for the Sperry Flour Company, received orders not to contract any more flour for future delivery, as the price of both wheat and flour is floating skyward, and wholesalers will not accept the present prices for future delivery. It is believed that flour will go from \$1 to \$4 a barrel higher within the next month or two.

KLAW & ERLANGER GO IN FOR MOTION PICTURES

The greatest theatrical magnates in the United States today have come to the realization that the American public wants pictures more than the legitimate drama. This is proven by the many Broadway theatres in New York City changing over from the big stock shows to the exhibition of feature films. Klaw & Erlanger have contracted with the immense Biograph studios in New York City to produce a series of feature films that will represent the highest perfection so far attained in motion photography. The biggest and best stories will be filmed on a scale of magnificence never before attempted. The first release from Klaw & Erlanger will be shown at the Grand theatre next Sunday, August 9, entitled "Lord Chumley," in four spectacular reels.
