

BEACH IS A CITY OF TENTS

Many Take Advantage of Our Cool Sea Breeze.

ENTHUSIASTIC IN PRAISE OF BEACH

Campers From Washington California and Oregon Spend Summer Vacations Here.

At the present time the Bandon beach and city park are regular cities of tents, there being rows of them along the beach extending from Tupper Rock to Bennett's beach, a distance of about three miles.

There are people from as far north as Grays Harbor, Washington, to as far south as Stockton, California, and from the interior of Washington, Oregon and California, including the cities of North Yakima, Wash., Roseburg and Ashland, Ore., and many other places.

A little trip along the beach just now would be of interest to anyone, and to hear the praise of the beautiful beach that we have here would help Bandonians to realize what a wonderful place it is to outsiders.

At present there are hundreds of campers here and as we have said they come from all parts of the coast. A few of them with whom the Recorder representative met while making the round of the beach are:

P. J. Ballif and Frank Brown of Roseburg. Mr. Brown is a brother of Geo. M. Brown, the famous prosecuting attorney, and who received the Republican nomination for Attorney General, at the primaries.

W. Henry and family of Nights Landing, California, are here with a rig, and are thinking seriously of locating in Bandon and will probably go into the restaurant business.

R. W. Oglesbee and family and J. P. Joiner and wife, of Stockton, Cal., arrived yesterday for a couple of weeks camping. They made the trip in automobiles.

Many are here from nearby towns. Among these are J. E. Norton and family, Aaron Wilson and family, Mrs. C. C. Price and daughters, Editor Young and family of the Coquille Sentinel, A. R. Taylor and family, all of Coquille.

E. F. Schroder and family, E. E. Nelson, and Newton Livingston and family, of Myrtle Point.

Others from outside points are: J. T. Clements and family of North Yakima, Wash., Vernon McManey and family, of Aberdeen, Wash., F. L. Titus and family of Ashland, Ore.

The campers are all enjoying themselves and have only words of praise for the beautiful beach, and are all of the opinion that if we had better transportation facilities, which we will have within a short time, that there would be thousands of campers come here from all points on the coast every year.

MANY CASES ARE FILED IN CIRCUIT COURT.

The following are the law suits begun in the Circuit Court of Coos county during the past week:

July 31—Martha Adams vs. M. B. Adams. Suit for divorce.

August 3—Hammond & Hollister vs. Coos Bay Manufacturing Co.

August 3—J. Finley Schroeder vs. James N. Jacobson.

August 5—W. F. Miller vs. Coos Bay Coal Co.

August 6—Tom T. Bennett vs. Paul and R. M. Schaefer.—Coquille Sentinel.

Capt. Robert Johnson expects to start building on his lot in the burned district in a very short time. He will put up a good substantial building, one that will be an excellent location for any kind of a business house.

MARSHFIELD ELKS ARE THE WINNERS

The Marshfield Elks covered themselves with glory Sunday by coming over and scalping the Bandon Elks in a ball game, the score being 11 to 13 in favor of the Coos Bayites.

About 35 of Marshfield's antlered tribe came over in cars and of course there was something doing every minute, as there always is when the Elks are doing it.

After the game the Bandon Elks served refreshments to their visitors in Odd Fellows hall, and another jolly good time ensued.

The Bandon Elks say the end is not yet and that they will go over and scalp their Marshfield brethren at the first opportunity.

The new fixtures in the post office building are nearly all installed and when the work is all finished the new office will present a neat and modern appearance.

SHOOTS MAN IN THE ARM

Marion Hodges Wounded While Resisting Arrest By Officer Blackerby At Ven Dome Hotel.

Marion Hodges was shot in the arm last night by Constable E. M. Blackerby, the affair taking place in the Hotel Ven Dome on Second street.

According to report Hodges had been imbibing a little too freely and was conducting himself in an unbecoming manner. Officer Blackerby happened to be on the scene and ordered Hodges to behave himself, and at this the latter grabbed him by the throat and commenced to choke him. He put his hand to his pocket as if to draw a gun. Blackerby took aim at his hand, thinking to make him let loose, and in the scuffle the bullet took effect in Hodges arm, causing only a slight flesh wound.

Hodges was placed under arrest, on a charge of disorderly conduct and fined \$10 and given two days in jail. The purpose of the latter sentence being to hold him until the return of Justice of the Peace C. R. Wado, who is out of town. The supposition is that he will be tried on a state charge.

WAR FORCES PRICE OF SUGAR SKY HIGH.

Portland, Or., Aug. 11—An advance of 55 cents a hundred pounds occurred in the Pacific coast sugar markets since the European war has commenced. The market here is following the advance of the Eastern sugar market, which has been in an excited condition for the past week. The war is, of course, the cause of it all. England consumes beet sugar produced in Germany and Austria. With no possibility of getting a supply there the English dealers are now trying to buy refined sugar in the United States. The abnormal foreign demand caused by the war, even if there is no means yet of making shipments, has, of course, excited the American market. All imported foodstuffs are strong in price and tending upward. Chicago packers have announced another advance in corned beef quotations of 30 to 40 cents a dozen. Another line that is feeling the effect of the curtailment of imports is wool, prices of which have again begun to advance in Boston, where most of the Oregon clip has been shipped. This wool, however, is in dealer's hands, and growers will not profit by the rise. As there is a possibility that butter may not be imported to the Coast from New Zealand this fall, speculators are busily buying up all they can get hold of for storage purposes, and market prices are inclining upward.

Marshall & Son are clearing the rubbish from their lots in the burned district so as to have them ready for building in the near future.

A BRITISH WAR VESSEL IS REPORTED SUNK OFF THE CALIFORNIA COAST TODAY

ITALY MAY DECLARE WAR ON AUSTRIA FOLLOWING INDIGNITIES.—CHINA CALLS ON JAPAN AND U. S. TO SAVE HER FROM INVASION.—GERMANY STILL BALKED BY BELGIANS.

(By Telephone from the Coos Bay Times)

San Francisco, Aug. 11.—The wreckage of a British war vessel was cast up on the beach here today and it is believed that it is the warship "Shearwater." Two German war vessels were known to be off the coast here and they were both larger than the British vessel. The battle is supposed to have been fought last Friday, as heavy firing off the coast was heard that day.

Rome, August 12.—Italy will probably go to war with the Austrians, as they bombarded a place in Montenegro which was floating the Italian flag. Italy has demanded to know why it was done. So far Austria has given no satisfactory answer and it is believed that Italy will declare war.

At Eutalia, in Montenegro, the Austrians displaced the Italian flag, and this has added to Italy's anger.

Washington, August 11—China has appealed to the United States and Japan to protect her from invasion by the warring nations, but so far no promises have been made by either nation.

Brussels, August 11—The Germans are still without the forts at Liege and have lost heavily in their last attack. The casualties in the last battle were 2,000 Germans killed, 8,000 wounded and 9,000 taken prisoners.

GREAT TIME PORT ORFORD PLANS READY FOR BUILDING

M. G. Pohl returned yesterday from the Port Orford Agate Carnival and reported that the carnival was a big success in every particular. On Thursday, the first day of the carnival, a big free dinner was served to which between 500 and 600 people did ample justice. There were various kinds of sports each day. On Friday there was a ball game and on Saturday afternoon M. G. Lutsey, the Curry county wrestler, made his attempt to throw ten men in an hour, but he failed, making away with only nine in the allotted time.

There was dancing and other amusements in the evenings. A display of hundreds of beautiful agates some of which were valued as high as \$150, was among the features. The carnival closed on Saturday night with a big dance at the pavilion.

COQUILLE PEOPLE FIND NEW BREED OF COWS

Some of the Coquille people who were at Bandon recently came across a boy leading a very fine cow and took occasion to compliment him on her appearance. He opened up then and informed them that they sold the milk from that cow to 15 families; and astonished them by the further information that she was part Jersey and part Gravenstein. They are still wondering whether she gives cider on alternate days.—Coquille Sentinel.

Benjamin Ostlund, architect of Marshfield, is in the city today with plans and specifications for the new building to be erected by Dr. D. E. Biggs and Gus Buckingham on the Dyer corner. The plans call for a two-story concrete building of class A type and will certainly be a monument to that section of the city.

The plan is to begin building at once so that the building can be enclosed before the wet weather sets in.

NEW O. A. C. CATALOGUE READY FOR DISTRIBUTION

Oregon Agricultural College, Corvallis, Aug. 11.—All prospective college students, men and women of mature years as well as girls and boys, will find a vast fund of valuable information in the new O. A. C. catalogue just issued and placed in the hands of the college registrar for distribution. With other useful knowledge that the catalogue imparts it tells who may enter the college, under what conditions, what the probable expense of the college year will be, and some of the benefits of the college training.

Many significant improvements and additions to the work of the college are seen to have been made during the year just ended. An important addition is the authorization of vocational courses for grammar school students who have not the time to prepare for the degree courses, and (Continued on last page.)

PROMINENT YOUNG COUPLE ARE WED.

A very pretty wedding was solemnized at the home of Mr. and Mrs. H. A. Murphy of this city Sunday when their daughter, Miss Florence, was united in marriage with Mr. Henry Miller of Myrtle Point, Rev. C. Mayne Knight, pastor of the M. E. Church, officiating. The bride is quite well known here, having been here for some time when the People 5-10-15c store was opened, but the past few months she has been connected with the branch store in Myrtle Point, which is also owned by Murphy & Westberg.

The bride is an accomplished young lady and has many friends, both here and at Myrtle Point. Mr. Miller is one of Myrtle Point's popular young men.

Mr. and Mrs. Miller will make their home in Myrtle Point. Congratulations and best wishes of a large circle of friends will attend them.

DR. C. J. SMITH IN THIS CITY

Democratic Candidate For Governor Visits Coos and Curry County In Interests of Candidacy.

Dr. C. J. Smith, of Portland, Democratic candidate for Governor, arrived in Bandon yesterday and remained over until today noon, shaking hands with the Bandon voters.

Dr. Smith is making his campaign on a platform of economy with the state funds and says that a great saving to the voters can be made by more careful and discreet legislation. He left on the noon boat for Coquille and will visit all the towns in Coos county before he leaves. He came in by way of Curry county.

FORMER COQUILLE RIVER CAPTAIN TO RETIRE.

Captain W. C. Edwards, who for nineteen years has been engaged in the steambot traffic on North Coos river and who for twenty years previous was identified with Coquille river transportation has retired from boating and will engage in other business. Today he is completing a deal for transferring his interest in the steamer Alert to his son-in-law, Jesse Ott, who, with Captain Herman Edwards, will continue the company. Capt. Herman Edwards, son of Capt. W. C. Edwards, and Mr. Ott recently bought the steamer Millicoma, and will now have that boat and the Alert. Capt. Edwards said today that he had not made definite plans except he would engage in another line of business. He said that for a time he would assist his successors in getting the affairs of the company in shape, in doing some repairs on the boats and putting in a new landing at Marshfield. Captain Edwards has been a leading figure in local boat lines for years. He said today that he was getting a little old for the strenuous river work and in turning it over to his son and son-in-law was putting the business in younger and more active hands.—Coos Bay Times.

RIVAL CANDIDATES MAY STUMP STATE TOGETHER

Curtis P. Coe, Prohibition candidate for Congress, and Fred Hollister, Democratic candidate for the same office, may tour Southern Oregon together.

Hollister, it is said, proposed the plan to Coe and the latter has agreed. Should the arrangement go through they will make the tour in an automobile, each paying half of the general expenses. At each meeting time will be divided equally and each candidate, prior to the first joint meeting, shall submit to the other a typewritten copy of the major points and principles for which he stands, and neither shall add to his platform any item contained in the platform of the other during the campaign.

WILL START FISHING SOON

Recently Organized Company Ready For Business.

WAITING FOR FALL RUN OF SALMON

Industry Will Add Considerable to Bandon's Payroll if it Meets With Success.

John Neilson informs The Recorder that the work of deep sea fishing for salmon with the big purse seine would begin just as soon as the weather would permit, and the fish begin to school again.

It is the hope of the promoters of the new industry to catch several thousand fish on the outside. This will not have any effect on the run of fish in the river later, as these fish will be those that are passing up and down the coast and would enter the smaller streams where there are no fisheries or canneries.

The salmon begin to collect from the middle to the latter part of August and continue for several months.

If this proves a success in addition to the regular run of salmon in the river this fall, it will mean that the largest pack of fish the canneries on the river have ever put up will be packed this year.

The company that will handle the deep sea fishing was organized several months ago, and is made up entirely of local capital. They have secured an excellent outfit of boats and seines and if the run of fish warrants they will add more.

LINE OF WILLAMETTE-PACIFIC STEADILY GROWING

Eugene Register: Ballasting on the Willamette Pacific railway will be resumed on Thursday of this week and a stretch of 11 miles of track will be leveled and placed in condition for operation. A steam shovel, which has been in use on the line along the Siuslaw river was taken to Natron yesterday and will be placed in operation at the S. P. gravel pit near that town. The company owns a large tract of land near the Willamette river there from which all of the ballast that has heretofore been used on the W. P. has been taken. The track is now ballasted to a point 32 miles from Eugene and with the addition of the 11 miles to be ballasted immediately there will be a stretch of track 43 miles long that will be in shape for the operation of trains over it. This additional ballasting will extend as far as the third bridge across the Siuslaw river. It is expected that train service will be extended that far just as soon as the gravel is spread and tamped and the track leveled. Several train loads of gravel each day will be taken from the pit near Natron to the "front" until this stretch of work is completed.

GRANGE PICNIC AT PARKERSBURG NEXT SATURDAY

The Bandon Grange will hold a picnic next Saturday at Parkersburg Bear Creek School house, and Haga's Grove.

Those who desire to go from Bandon should take the steamer Dispatch at 7 a. m. and get off at Parkersburg, where a wagon will meet the boat to convey the lunch baskets, etc., to the picnic grounds.

A program will be held at 10 o'clock at the Bear Creek school house, after which all will go to Haga's Grove where a picnic dinner will be served. A large number of Bandon Grangers are expected to attend.

City Marshal J. C. Brown of Myrtle Point is in the city on a little outing. He expects to be here for a few days yet.
