

SEMI-WEEKLY Bandon Recorder

Published every Tuesday and Friday by The Recorder Publishing Co., Inc.

Entered at the Post Office at Bandon, Oregon, as mail matter of the second class.

C. E. KOPF & A. W. STUART Editors and Managers.

Make all checks payable and address all communications to the company.

Subscription price, \$1.50 per year, in advance.

OUR ENORMOUS RESOURCES

There is more standing timber tributary to the Port of Bandon, and that must necessarily be shipped out through this port, than in any other port in Oregon, or the Pacific coast.

The most important thing that confronts us just now is the passage of the River and Harbors bill in the United Senate, which carries with it \$90,000 for the Coquille river bar and harbor, and a survey for a new project on the river between Bandon and Coquille.

It might be added here that timber is not our only resource, but that we are one of the greatest dairying sections on the Pacific coast and some of the finest farming land that lays out doors is right in this valley, so there is every reason to believe that as a business center Bandon is destined to be one of the best cities on the coast because of the enormous resources back of us and the thrift and intelligence of our people.

BANDON AS A SUMMER RESORT

Bandon, as a summer resort, is being heralded far and wide and the fact that we have the most beautiful beach on the Pacific coast is pretty generally known, the only thing we lack here is a means of transportation so that people can get in and out easily.

People who have automobiles here and have gone to outside points, say that the worst piece of road they struck on their whole trip was between Myrtle Point and Roseburg, and, by the way, it is stated that the worst part of that road is in Douglas county, the Coos county end, with one or two exceptions, not being bad.

Of course it is only a matter of a few months until the Eugene-Coos Bay railroad will be completed and work will begin on down the coast from the Bay, and then people can get here easily enough. But in the meantime and even afterwards we need the public highways and should have them. With the proper means of transportation which is sure to come, Bandon's future as the best summer resort on the Oregon or Washington coast is assured.

NEIGHBORHOOD NEWS

NORTH BEND NEWS

George and Joe Roberts of Templeton have been awarded the contract to carry the mail from North Bend to Gardiner three times each week and return, a distance of 40 miles. The contract calls for four years of service starting August 15, and the men are now getting horses and rigs in shape to start the work.

Miss Edith Thomas has returned from Oakland where she has been employed as Court Reporter. She has accepted a position with Sherwood and Liljeqvist at Coquille and will begin work there in a couple of weeks.

The third annual picnic and mass meeting of the Socialist party of Coos county will be held in the Simpson park, North Bend, Sunday, Aug. 23. The picnic is to start at 10:00 o'clock and last all day and late into the night. Hon. G. W. Davis of Portland, an orator of note, has been engaged to deliver an oration on the

issues of the day. There will also be other speakers comprising in all a most interesting program.

The committee having in charge the raising of funds to build a \$75,000 hotel in North Bend, have progressed sufficiently with their work to warrant going ahead. They called for bids to be opened Wednesday, but only one was filed, this was rejected and new bids ordered. The committee will consider these at a meeting to be held Saturday.

Saturday P. M. Hall-Lewis finished checking up the line on Newmark street and set the stakes where they should be. It has been found that the work done by Anderson Bros. & Klockars in slashing and grading the county road was off the line to the north several feet, being on platted ground. G. A. Perkins, road supervisor, says it is plainly an error of the county engineer. He said that years ago Major Kinney employed an engineer to make an estimate for a railroad. The lines were run and later A. L. Richardson of Portland was employed to make a similar estimate for a wagon road. He followed the trail cut by the former engineer, which was within a few feet of the correct line. When the County Court adopted his report and ordered the road laid out, County Surveyor Gould accepted the stakes set and field notes made by these previous surveys as final, without questioning the correctness of same.

GOLD BEACH NEWS

Wesley and Clyde Miller, who went to Grants Pass some ten days ago after the former's auto, returned Friday afternoon. However, they only got as far as Colegrove's when some small portion of the machine gave away and they were forced to send to Crescent City to have the repairs done.

Every able bodied man in and around Agness has been called upon to fight a bad forest fire that is raging on Lawson Creek.

Rev. Hoyt and sons, John and Archer, returned Saturday evening from a trip as far east as Connecticut. He reports having had a fine trip, although the weather was just a little warm for solid comfort.

Mrs. Geo. L. Mayer and three children arrived here Friday evening and will remain here with her husband until the August term of Circuit Court. It will be remembered that Mr. Mayer is being held here pending a trial at the next term of court for the accidental killing of Isenhart on the Chetco river last fall.

As last Saturday was the first day of the open hunting season, this town was almost depopulated of its male inhabitants, who went to the woods the evening before in order to get the first "whack" at a fat buck as soon as the season opened. From Saturday noon until Sunday evening the fat bucks came into town until about sixteen in all could be counted.

PORT ORFORD NEWS

Frands Nordberg, who is mining on the Harris beach about a mile north of Brookings, is making excellent wages and has enough pay dirt in sight to last him all summer. The heavy surf of last winter washed out an old drift pile and left this deposit exposed. Mr. Nordberg is an experienced beach miner and knows how to take advantage of the work.

There is a salmon in Rogue river during the past few weeks has been very good and it is not unusual for boats to make as high as \$40 to \$50 a night drifting. The fishing season will close next Monday, the 10th.

The woods are full of hunters, it being estimated that there are fully twice as many in the mountains of Curry this year as there was last. Hunting parties have left Gold Beach and Wedderburn for all the good hunting camps in that section, and in our own section it was reported that there were 21 men camped on Bald Mountain the night before open season commenced.

Last Thursday evening the neighbors from far and near, with their wives, sisters and sweethearts, gathered at the home of Delmer Colegrove at Mountain ranch in a good old-fashioned country dance, celebrating the close of the sheepshearing season. This is an annual affair at the Colegrove ranch, and everything is free to those who attend. The gathering is noted for its abundance of wholesome fun, and is attended by many for 15 and 20 miles round about. Mr. Colegrove runs 1800 head of grown sheep, which is one of the largest flocks in the county.

J. C. Porterfield, of Euchre creek, had a narrow escape from being killed some two weeks ago. He had gotten onto one of his work horses and was leading another, when the one he was riding became frightened at a lurch bucket he was carrying and threw him off. Both horses started to run and the rups to the lead horse

knotted about Mr. Porterfield's hand. He was being dragged to death when the rope broke, and he escaped with nothing worse than a severe bruising.

MYRTLE POINT NEWS

From the Enterprise: Van Dodge and daughter, Philena, of Corvallis, and Mrs. Jennie Hawley of Blodgett, arrived last week to visit their father, Orvil Dodge, who is still quite ill but is much improved since last week, and it is thought that he will soon be able to stand the trip to California. Evert Hanshaw, a son-in-law of Van Dodge, is also here.

Mr. and Mrs. Wes. Noah came from Marshfield, and Wednesday morning left in company with Mr. and Mrs. Henry Hermann and wife, in the latter's auto for Port Orford, where the party will camp until after the Agate carnival.

Mr. and Mrs. David McNair went to Bandon Tuesday to be present at the marriage of their niece, Miss Fritzie McNair, to Ray Watkins, which took place on Wednesday night.

The family of Prof. L. W. Wimberly arrived from Monmouth last Thursday and Saturday the whole family left, in their Ford, for the hills, the boys armed for bear and their allowance of deer.

County Commissioner J. G. Armstrong was in the Myrtle Point section last week superintending the work of repairing the Cooper bridge east of town.

Word has been received by relatives here that a daughter was born on Sunday, August 2nd, to Mr. and Mrs. E. C. Guerin at the home of Mr. Guerin's sister, Mrs. Warren Devoe, at Santa Rosa, California, where Mrs. Guerin is spending the summer, while Mr. Guerin is in Alaska in charge of a department of the surveying party who went into that country last spring to do the preliminary work on the proposed government railroad.

COQUILLE NEWS

From the Sentinel: The appearance of the Baxter House has been very much improved since the new landlord took the house in hand, by rebuilding the front steps and platform and giving the establishment a thorough renovation.

Wednesday morning at the M. E. parsonage here, Elmer L. Hopper and Laura E. Flanders, both of Bandon, were united in marriage by Rev. C. H. Bryan. These splendid young people are going to make their home at Marshfield.

Miss Ivy Howey came home from Bandon last night, bringing a bunch of perch she caught off the jetty. She is not claiming any championship but she hooked 5 of them in 10 minutes.

Mr. and Mrs. H. W. Young and daughter, Marian, and Mr. and Mrs. H. A. Young and children expect to start tomorrow morning for a two-weeks' outing at the beach—though the men of the party will put in part of the time at the Sentinel office.

The matter of the location of a new postoffice in this city has been settled. The Odd Fellows learned last night that their offer to erect and rent a new building on their lots where the dance pavillion or "Casino" stands now had been accepted by the post office department.

W. C. Rose reports the first bear of which we have heard this summer, killed by him out in Brewster valley last Saturday. The rest of the party were up in the hills expecting to chase deer down past where Mr. Rose was waiting, if they couldn't get them themselves. When the guns began to pop, W. C. was watching in all directions, when down the hillside, slipping, rolling, tumbling, came bruin. Shot after shot went over him as he was on the down grade, but when he turned off around a projecting ledge, presenting a broadside aim one shot brought him down.

L. W. Turnbull, the new principal of our city high school, came in last night from Grants Pass with his wife. They are going down to Bandon for a couple of weeks at the beach, and will then return and get settled for the school term which begins Sept. 7.

PREDICTS BEARDED AND BALD WOMEN. HORRORS!

Berlin, Aug. 11.—Dr. Hans Friedenthal, a famous professor of Berlin university, today described the new woman as he thinks she will be evolved by suffragism and the higher education.

He declares that brain work will cause her to become bald, while increasing masculinity and contempt for beauty will induce the growth of hair on the face. In the near future therefore, Dr. Friedenthal declares, women will be bald and will wear patriarchal beards and long mustaches.

The Recorder job department can handle that job for you in a hurry.
