HOW THE NEW POPE OF CATHOLICS IS CHOSEN

Rome-A cloud of white smoke, rising over the roof of the Vatican, is that the College of Cardinals, in conclave assembled, has selected a successor to Pope Pius X.

To elect a new pontiff, the cardinals of the Catholic church will next Sunday, the tenth day after the death of the late pope, assemble in the Sis tine Chapel at the call of the dean of the college. There are 66 cardnals and most of them will be in attendance at some time during the session of the college, although it is known that not all will attend the opening meeting.

After the opening ceremonies each cardinal is assigned a separate room in the Vatican, in which he spends his time throughout the session, to the exclusion of all visitors and with one man servant in attendance. All meals must be taken in the cardinal's own room, and he may have no communication whatever with the outside world until the final selection of the new pontiff.

In the Sistine Chapel, where all the ceremonies take place, each cardinal has a throne, over which a canopy is built. Each day one ballot is taken, the secretary of the conclave distributing and collecting the printed ballots, and making known the result of the vote. The ballots are then destroyed, and the L. remony repeated each day until some cardinal has the votes of two-thirds of all the cardinals in the world, in this in stance 44 being required to elect a new pontiff. The election conclaves have extended for months.

When a cardinal finally receives the required number of votes, the sec retary announces the decision of the college and the vote is verified. The canopies on the thrones of all the cardinals save that of the newlyelected pope are then raised, and the secretary of the conclave, carrying on a tray a 'Soli Dao," a white skull cap, presents the token of election to

Accepting the cap, the cardinal removes his own red cap, places his own red cap on the head of the secretary of the conclave to indicate ity must crystalize in two waysthat he will be made a cardinal. Im- first, in the production of materials pledge to the newly-elected pontiff their allegiance and service.

To announce to the thousands asthat a pope has been elected, the ballots which elected the pontiff, with a production abroad. quantity of damp straw, are placed

then goes to the balcony over St. and chemicals can be obtained. Peter's and announces the name of the that he will assume and the ceremony turers in many cases are hesitant to the signal to announce to the world is over. The coronation ceremonies launch into extensive production be usually take place ten days after the selection of the new pontiff,

COST OF PRESENT WAR IN

Chicago Tribune: Recent German year's campaign with only 3,000,000 realization that the Unied Staes in men place the minimum at about the future must be prepared for seven billions of marks, or very roughly \$1,700,000,000. The French General Von Andre places the cost of French mobilization at about \$100,-000,000,, or say about \$1,200,000,-000. Of course, these sums cover only the direct expenses of the miliary, but the finances of war must also meet the conditions created by panics, the partial paralysis of business and the partial or complete stoppage of imports and exports.

The Franco-Prussian war cost Germany directly about \$387,750,000. But she gained Alsace and Lorraine, valued at \$320,000,000 and a war indemnity of \$1,065,000,000, a tidy total to roll up in nine months. Yet two years later, in 1873, two years before the time given her to pay the indemnity, the great French people anticipated the payment by a popular loan of \$70,000,000, oversubscribed more than 12 times

The present disaster is likely however, to be more distructive and prostrating. War is more costly than it was in 1870, in money if not in life and when present insanity has passed he people will have to carry a heavy burden of taxation for a long time.

GREAT OPPORTUNITY FOR U. S. MANUFACTURERS

New York-The European conflict has set on foot in this country organized efforts looking to the emancipation of American manufacturers from dependence on Europe.

If it is to be a big war the United States will of necessity have to prove whether American ingenuity can meet the situation. This ingenumediately the cardnals in order of sen- heretofore supplied by foreign couniority come before the throne and tries, chiefly Germany, for the use of American manufacturers; second in the manufacture of articles for South American and far eastern sembled on the plazza of St. Feter's trade, which must look to the United States because of the curtailment of

On the other hand it is pointed out estimates of the cost of fighting a that this war has driven home the such an emergency as this. With the future in view and much foreign trade to be had for the asking, many manufacturers think that the impetus to American manufacturers will be

The drug situation, perhaps more than anything else, has impressed the United States with the necessity of action. In an editorial to appear in its September saue the American Druggist points out that if the European conflict is of more than six months' duration American consumers of German synthetic drugs will be faced with a famine. Those who now have stocks on hand are warned to conserve them.

The article says: "This industry has been the outgrowth of 50 years of study and development in Germany. It can only be carried on economically on a large scale.

"In the matter of the dyestuffs, the manufacture of which is associated with that of synthetic drugs, the world's supply will last somewhat longer for the reason that the largest users of those dyestuffs-Germany, France and England-will use little or none during the war. The United States uses probably fourth of the world's supply and the remaining three-quarters of the world's supply will be sufficient to keep our cloth, silk and print mills busy for a year."

JURY LIST FOR THE SEPTEMBER COURT TERM

The following is the list of jurors drawn for the September term of court, which will commence in Coquille, September 8th:

D. W. Baker, Lee; M. T. Clinton, Norway; C. E. Huling, Myrtle Point; D. O. Walcott, Marshfield; J. W. Laird Coquille; W. J. Conrad, Marshfield; J. H. Hunt, Bandon; J. T. Conlogue, Lampa; R. H. Rosa, Bandon; A. Y. Myers, Marshfield; Peter Loggie, North Bend; E. W. Gregg, Coquille; C. W. Evertson, Marshfield; C. L. Bonebrake, Marshfield; R. L. Cavanagh, Eastside; D. M. Grow, Coquille; L. A. Lawhorne, McKinley; John Wickham, Coquille; Ben McMullen, Myrtle Point; Wm. Weekly, Myrtle Point; Fred Kruse, Marshfield; W. F. Squire, Marshfield; John H. Laird, McKinley; A. L. Rice, Bridge; Preston C. Stevenson, Bandon; Harry Oerding, Coquille; M. H. Dement, Myrtle Point; W. A. Bingaman, Bandon; Jas. Stock, Sumner; T. F. Porter, Allegany.

Both Cream and Skim Milk Are Delivered Pure and Clean

NOOD reasons are the basis of all buying. It follows then, that the best buyer is the man who has the best reason, or the most good reasons for buying. When this rule is applied to the purchase of a cream separator and each separator

on the market is carefully studied for reasons why it should be chosen, the most careful buyers invest their money in

IHC Cream Separators Dairymaid or Bluebell

Assuming for the sake of argument that the best separators are equal in skimming capacity, simplicity and durability, there is still one best reason why your choice should fall on an I H C separator. The reason is—the dirt arrester chamber which is found only on I H C separators. More or less foreign matter is very likely to find its way into the milk before it reaches the separator. The I H C dirt arrester chamber removes every particle of this matter before separation begins and holds it imprisoned until the last drop of milk has pa sed through the bowl. Both your cream and skim milk are delivered pure and clean.

There are points in the construction of I H C separators, such as the heavy phosphor bronze bushings, trouble-proof neck bearing, cut-away wings, dirt and milk-proof spiral gears, etc., which, taken in connection with the dirt-arrester chamber, make I H C separators beyond any doubt the best of all to buy. There are four convenient sizes to each style. Ask the I H C local dealer for demonstration. Get catalogues and full information from him,

Dr. Miles' Anti-Pain Pills Used by thousands for a generation

Those who have suffered from neuralgic pains need not be told how necessary it is to secure relief. The easiest way out of neuralgia is to use Dr. Miles' Anti-Pain Pills. They have relieved sufferers for so many years that they have become a household necessity.

"I have taken Dr. Miles' Anti-Pain Pills for five years and they are the only thing that does me any good. They have relieved neuralgia in my head in fifteen minutes. I have also head in fifteen minutes. I have also taken them for rheomatism, head-ache, pains in the brenct, toothache, earache and putne in the bowels and limbs. I have found nothing to quiet them and they are all that is claimed for them."
