In handling the slugs which make up the lines in a newspaper, and in separating the various items, the makeup man sometimes gets the lines mixed up and they naturally read rather queer. As an illustration of what can happen, we cite the mix-up of the Bangor (Pa.) News a few days ago when the printer got a wedding and an auction sale mixed up with the following result:

"William Smith, the only son of Mr. and Mrs. Jos. Smith, and Miss Lucy Anderson were disposed of at public auction at my farm one mile east, in the presence of 70 guests, including two mules and 12 head of cattle. Rev. Jackson tied the nuptial knot for the parties, averaging 1,250 pounds on hoof. The beautiful home of the bride was decorated with one sulky rake, one feed grinder and two sets of work harness, nearly new, and just before the ceremony was pronounced the Mendel and Sons wedding march was rendered by one milch cow, five years old, one Jersey cow, and one sheep, who carrying a bunch of bride's roses in her hand was very beautiful. She wore one light spring wagon, two crates of apples, three racks of hay, one grind stone of mouseline de soie and trimmings with about one hundred bushels of spuds. The bridal couple left yesterday on an extended trip. Terms spot cash.—Ex.

Latest Society Fad.

The latest fad in society is the tub cure. In this the patient arises just as the crisp air of the morning is mel- lowed by the first sunbeam. An or-

dinary washtub is then filled with hot water and soap suds, into which various articles of linen are thrown. After they are thoroughly saturated the patient takes them up one at a time and rubs them briskly up and down on a washboard placed in the tub. This is kept up until the hands, arms and face are glowing pink. The patient then goes into the open air and hangs all the linen articles on a line stretched for that purpose. The one completing the task first announces the time to the others over the telephone, and is entitled to a prize. It is exciting sport and also invigorating exercise.

FOREST NOTES

Six thousand bushels of lodgepole pine seed are being collected this fall on the Arapaho national forest, Colorado, for use in reforestation work next spring.

The Philippine bureau of forestry has recently invited bids for the cutting of nearly 300,000 acres of choice timberland on the public forests of the island of Lucon.

Officers of the Okanogan national forest in the state of Washington are installing powerful signal lanterns for night use in reporting forest fire from lookout peaks.

It is said that the first sawmill in the United States was at Jamestown from which sawed boards were exported in June, 1607. A water power sawmill was in use in 1625 near the present site of Richmond.

California yew which grows on the national forests of that state is finding some use in present-day archery practice. Its qualities closely resemble those of the old world yew which made the English long-yew famous in mediaeval times.

The Supreme Court of Pennsylvania has decided that the amount of damage collectible on growing timber set on fire through negligence is not only the value of the wood destroyed but also the injury to the property as a whole through the destruction of the young growth.

FORGER CAUGHT AT NORTH BEND WAS OLD OFFENDER

This is not the first time that George Cummins who was in jail here has been account of passing forged paper. The man who passed several checks

in North Bend and Marshfield and who was bound over to await the action of the grand jury, was taken by Officer Emery to Coquille where he will stay in the county jail until the December term of court. Cummins admitted to the officer that he was up once before for forgery at Los Angeles and that he served a term of two years.

Cummins does not appear to be entirely responsible mentally or at least is not a very evenly balanced individual. He admitted that the forged checks he passed were of his own making. He says he cannot remember anything about writing them but that he must have manufactured them himself as the handwriting is his own. He admitted that he was responsible for the forgery at Bandon. He does not talk in a very connected way and gives the impression of being one who is inferior mentally—Coos Bay Harbor.

GOLD BEACH NEWS

From the Globe:

Merton Miller was an over Sunday visitor in town. Mr. Miller, with his father, J. C. Miller, and brother, Amos Miller, are now preparing for extensive mining operations on the beach this winter. They are preparing to mine for platinum of which their beach is known to be rich. In early days this beach and the bluff adjoining was extensively worked for gold by Chinamen who never attempted to save any of the platinum. In fact it is only of recent years that it has been of any value. The Millers are all experienced miners and doubtless will take out lots of money this winter.

Mr. Albert J. Berg of Brookings and Miss Laura Furguson of Del Norte county, California, were married in Gold Beach, Wednesday, Sept. 30, Rev. John W. Hoyt performing the ceremony.

Last Friday night, Oct. 2nd, fire consumed the residence of Rev. John W. Hoyt. The fire started in the wood shed which stood almost at the rear of the house. The fire had gained a strong hold upon the building before it was discovered and the alarm given.

Meagre reports of two weddings in Del Norte county, Calif., reached here recently, in which two Curry county girls were the brides. The contracting parties were Miss Edna Price and Harry Plaisted of Smith river, and Miss Dorothy Bales and Chas. Ulrich also of Smith River.

Published under the authority and
by the order of the Coos County Re-
publican Central Committee. (adv.)**LOCAL OPTION FIGHT IN
THREE DOUGLAS TOWNS**

Roseburg, Oakland and Glendale in Douglas county, will hold local option elections on November 3rd. Both Glendale and Oakland are "wet" now while Roseburg is "dry". In addition to these local fights on the liquor question, a hard fight is being made by the "dry" forces to carry the dry amendment in Southeast Oregon.

Representative

W. C. Hawley

Republican Direct Primary Nominee for Re-election to Congress

The people of Oregon sent Representative Hawley to Congress because he was clean and especially equipped to serve his native State.

He has made good, securing more than \$3,000,000 of federal funds for improving waterways etc. in First District.

He was the first to oppose "Secret" reports on homesteads and mineral claims and is working for revision of public land laws and the elimination of every acre of agricultural land from the reserves for homes of prospective settlers.

A vote for Representative Hawley is one for a Faithful, Honest, Able and Successful Public Servant. (Please read his record and platform in voters' pamphlet)

**Republican Congressional Committee,
W. J. Culver, Chairman.**
