NEW AUTO IS VERY POPULAR

11,168 Dealers in the United States Ask For Agency of the Dodge Car.

Recently The Recorder printed a statement that 10,201 dealers in the United States had made application for the agency of the new Dodge car, but Tuesday an official announcement was made showing that up to October 10th the number had been increased to 11,168 business men who have applied to Dodge Brothers for the agency of the new car. Undoubtedly there are a number of applicants from Coos county, but it is not known who they are and no announcement of the appointment has yet been made. Just as there has been nothing definite concerning the new auto and no details given out concerning its construction. The fact, however, that Dodge Brothers have one of the largest factories in the country and have been in existence since the beginning of the automobile industry, and have built the working parts for over 500,000 autos is sufficient guarantee of their expertness and efficiency.

That's why the announcement that they would build a car of their own has created such a tremendous sensation and that's why 11,168 men are anxious to secure the agency.

BUSTER BROWN AND HIS DOG TIGE HERE

Buster Brown and his old dog Tige hit Bandon Wednesday and for the two hours that they held forth in front of the Golden Rule store, traffic along First street was practically at a stand still. Five hundred boys and girls, large and small (20 or 30 years over what is known as the boy and girl margin makes no difference on such occasions) jammed the street and sidewalks, their ears on Buster and their eyes on Tige.

By three o'clock the clatter and jabber of the kids in the street drowned out all other noises. Buster had not yet arrived on the scene and disappointment was beginning to spread on the faces of some, when one wide-awake lad announced "here he comes." Dozens of youngsters flocked to the street to escort the red coated "Chief of the mischief makers" to his platform.

No, he didn't come up to the expectations of the kids. Fifty-four years on this earth has kind of kicked the cussedness out of Buster and nine years has put a kink into Tige's hind legs, although time has not dulled the intellect of either.

The Buster Brown who appeared before the local kiddies Wednesday was born in 1860 and he says he was so busy playing tricks in his youth that he forgot to grow, consequently he is only 41 inches high and weighs only a little over 60 pounds.

Buster talked and Tige performed for two hours and then Buster took the platform again to distribute badges and buttons among the crowd. My what a scramble! Children and men and—well, just keep this to yourself, but there were one or two women who got their toes tramped on in that scramble.

Loses Valuable Horse.

C. H. Chandler lost a very valuable horse this morning. Mr. Chandler was hauling fence timber on the beach and let his horses stop to rest and just after the stop was made one of them reeled to one side and fell over dead without a struggle. The horse seemed to be in the best of condition and had eaten his feed as usual in the morning, consequently Mr. Chandler is very much puzzled as to the cause of his death.

Every Citizen a Legislator.

If you were a member of the Legislature, how many of the vicious, business destroying bills that are now on the ballot, would you vote for? We are all legislators in Oregon, and as citizens voting to make laws, we are under just as much obligation to use good judgement in voting for measures on the ballot, as we would be if we were in the Legislature. When a man goes into the booth November 3rd to cast his vote on these initiative bills, he should be just as conscientious, careful and thoughtful of the public welfare as he would be if he were a member of the Legislature and the same bills came up to be acted upon.

When you don't know that a proposed law will benefit the State as a whole, the only safe thing to do is to vote "NO."
