VOTE YES.

To Compromise 1912 Road Tax Means About \$9,000.00 Will Be Put Into Circulation At Once To Build Needed Roads.

There is approximately \$9,000.00 belonging to the special road fund already collected and now lying idle waiting for the Township Line and Two Mile factions to litigate the question as to which road it shall be expended upon. This money was already been paid in and should be used. We need both roads.

A vote to compromise and divide the tax equally means that this money will be put in circulation at once, and the roads will be built; the fact that litigation as to the legality of the tax is pending as to the monies that have not been paid in will not effect this matter, and it is practically assured that the money already collected will be spent at once if a compromise is had.

During these hard times we cannot afford to quarrel; let us divide this money equally upon the two roads and put it into circulation; and vote the compromise, vote yes.
