VOLUME XXXI

BANDON, OREGON, JANUARY 5, 1915

1914 BUILDING WAS GREATEST Improvement far Exceeded Any Preceeding Year

Despite the fact that during the year 1914 Bandon suffered the greatest set-back in its history, the fire of June 11 which did damage to the extent of \$250,000 and wiped out the heart of the business district. there was more building during the year than any previous year.

In City's History.

Foremost among the structures built was the new home of the First National Bank, a two story concrete building of fireproof construction, on Second Street and Alabama Avenue. which was built at a cost of \$25,000 and was completed early in the spring. The First National Bank building has the distinction of being the first class A building to be constructed in the city and was closely followed by the Ellingson building, at the corner of First and Alabama, completed during the summer by Arthur Ellingson at a cost close to the \$20,000 mark. Both of these buildings rank among the best in southweatern Oregon, and with the \$10,000 concrete block being erected on First Street by Capt. Robert Johnson, will form the neucleus around which a greater Bandon is to

Taking the frame buildings alone erected during 1914, the record could advantageously be compared with the secord of former years. No less than four buildings of this class have been completed. This is not taking into consideration the eight or ten temporary structures costing from \$200 to \$500 that arose immediately after the fire, which have been discarded or will be in the near future. The new post office quarters, in the building constructed by A. G. Thrift, on Baltimore Avenue, gives Bandon the over all Coos county in the matter of post office accommodations and the other buildings are the new home of the Bandon Steam Laudry, the Racket Store building at the corner of Second and Baltimore Avenue, and the spacious new quarters of the Bandon Hardware Company, First Street and JOINT INSTALLATION BY Baltimore Avenue. Burned out by the early morning blaze 22 business houses had to seek new locations or go out of business, and all but three of these are now operating, most of them in temporary quarters. All of the three which did not reopen have been replaced by new concerns in the same line of business with the exception of a pool and billiard parlor. Previous to the fire practically all of the business blocks in the city were occupied and the sudden demand for locations forced many large concerns into inadequate and undesirable quarters, but the hearty cooperation of the business men and the prevailing spirit for "A Bigger and Better Bandon" won out. Store rooms were split in half to make room for the unfortunate concerns and in one case the citizens went so far as to donate the labor and material for a temporary home for one concern which had lost everything in the fire. Nor did the serious conflagation and the business depression which naturally followed deter the home builders, more and better residences being erected during 1914 than ever before. Between 20 and 25 new homes arose during the year, varying in cost from. \$1000 to \$6000, the total expenditure in this line of improvement running well above \$40,000. In the matter of public buildings constructed, the new school house in **Cast Bandon** stands out prominently Cost of constructing this addition to badge. the city's already first class school in the building as it now stands. Although but one building has been erected to replace those destroyed by the burned over area retailt or in the an allowance for expansion, with tar process of being rebuilt. Filing has during the past few days.

already been driven for the foundation already been driven for the foundation of a modern, two-story fireproof block on the Biggs-Buckingham prop-erty, on the corner of First Street and landon Avenue, and the owners state that active work on the building will start as soon us the weather setlies. On the opposite corner of this street intersection Geo. P. Laird and C. Y. Lowe announce that they will build a structure of Class A construction, combining store room and apartment house features, while Rasmussen Bros. expect to put several thousand dollars into a building on their property abutting the prospective Biggs-

Buckingham block. Should conditions continue to improve a fourth buildof similar construction will arise on the lots of W. D. Marshall & Son.

During the past year \$150,000 has een spent in the way of building improvements in Bandon and the comng year promises still greater aclivity along this line.

Celebrate New Years Very Quietly in Bandon

There was little noise and practically none of the usual high jinks connected with the reception of the New Year in Bandon this year, the heavy storm which arose during the evening putting a damper on many of the iffairs planned. Bells and whistles got in their salute at midnight but his noise did not compare with that of former years, because of the fact that most of the San Francisco boats were at the other end of the route, only the Speedwell being at the dock here.

Most Bandonians did homage to the old year and greeted the new at various watch parties of two and three ouples in different parts of the city. Many of the young people were in attendance at the affair given by the young people of the Presbyterian

Church. Dancers found a big treat at the anual ball of the Women of Woodcraft which ranks as one of the big affairs of the season in that form of amusement and those few who found the floor at the Dreamland Pavillion too crowded or the more informal, report a good time at the Bank Hall.

Revery was an absent factor in the elebration and there was less work for the Municipal Court on the following day than for several years The police report that the streets were quiet and those people who were wandering about were very orderly.

By Mayor Geo. P. Topping

PORT ELECIS

NUMBER 1

The port compliants for the Pr of Bandon met of their or the year blue a the fort Attorney Transland unization for the year twin.

At the election of officer & Rosa wan anikon, view news seconserve and T. I. The term of R. E. ng expired, A. Melvan elected at the fall shaft seat and T. P. Linnig, who were slocted to succeed himself we nstalled into office.

Mr. McNulr took the fillion on all committee

ion to work inarmers along the river to p sanks of the river from wonding and destroying large areas of exce mt hottom land and filling the rive with sediment.

The treasurer's report for was read and approved.

The work of the post for the ye vas not entirely outlined, but it is the intention to start a vigorous card paign of improvement so fire in the funds will permit. Application has already been made for the dredge Oregon to be brought into the river, for the purpose of cleaning and dredging shoals between the mouth of the riv ts results, Mrs. J. L. Kronenberg and er and Coquille. The Port has about \$25,000 available for this purpose, and it is the intention of the part commisioners to work in conjunction with the army engineers for the general improvement of the harbor.

> At the last session of Congress \$26,000 was appropriated for this rier and there has been \$76,000 place in the rivers and harbors bill befor this result of congress. If this lat ter amount is forthcoming if will give the port an excellent start for large amount of improvement. They a little doubt as to the passage of the bill as it stands, so fur us the Co. puille river is concerned as the amount has been recommended by the envi neers, and accepted by the Commiltee. In addition to this the bill car ries with it a new survey for a new project, the survey to include the bla and entire river from its monthe to Coquille. While the port commissioners have not fully decided to bond this year h any considerable sum, yet it is the in tention to do so us there is need for new improvements over and above those outlined for the funds now avail able. With this fact in view it an pears that there will be large devel opment in part work for severe years to come. It is generally under stood that the government will give dollar for dollar for every one rail ed by the port commission either Inbonding or otherwise, and it is probable that within the next two as three years that a half mollion do lars or more will be expended on the local harbor.

G. A. R. AND W. R. C.

The Bandon G. A. R and W. R. C pent the day on January 2nd at the G. A. R. Hall, dinner being served at noon and the rest of the day being orders.

The following officers of the G. A acting as installing officer: C. A. Rogers, Com; B. F. Shannon, Sr., V Com; W. F. Kennedy, Jr. V. Com; J. A. Faulds, Q .M; A. M. Sumner, Chap; H. A. Cox, Surg; J. W. Felter, O. D; L. A. Tyler, O. G.; C. B. Zeek, Adjt; A. Henry, Q. M. Sergt; H. M. Fish, Sergt Maj.

W. F. Kennedy, delegate; Moses Wilson, alternate delegate.

The W. R. C. with Mrs. C. B. Zeek as installing officer installed the fol-

lowing: Sadie Shields, Pres.; Jennie A. Bowman, S. V. P.; Louise Allen, J. V. P.; May D. Endicott, Treas.; Mary Shannon, Chap.; Annie M .Tucker, Con.; Anke Nelson, Guard; Lelia M. Fish, Sec.) Fannie Hufford, Asst. Con.; Viola Brown, Pat Inst.; Martha Zeek, Pr. Cor.; Florence Young, musician; Ada Still, 1st C. B.; Grace Divilbiss, 2nd C. B.; Anna Sherrard, 3rd C. B.; Bonnie Welch, 14h, C. B.; Anna Jones Asst. Guard.
