LEGISLATURE POSTPONES INDEFINITELY, ACTION ON PORT BILL

Cal R. E. Beale telegraphed today from Salem that the effective action of both houses of the state legislature in postponing indefinitely the action on the important matter of the port development of the Coos county seat is the result of a council made up of the influential men of the county and four representatives of the state solons who met with Colonel Rosa and T. P. Hand last week in Salem to discuss the proposed project.

The purpose of the trip to Salem was to present to the legislators the views of the property owners and decorators on the necessity of additional port facilities.

Although a number of letters have been received by the commission from the residents of the county expressing their desire for the project, the legislature was urged to postpone the action on the bill until the end of the session of 1916.

The commission was also informed that a large number of citizens were ready to subscribe to the bonds for the construction of the port facilities if the commission would not delay the action on the bill.

The commission was also informed that a large number of citizens were ready to subscribe to the bonds for the construction of the port facilities if the commission would not delay the action on the bill.
