Local High School Representatives Win Both Ways, Affirmative and Negative, with First Double Unanimous Decisions Since the Circuit was First Organized

Bandon School Orators Win County Championship

The five boys from Coquille have been named as members of the first double unanimously decided affirmative and negative in the High School debates since the Circuit was first organized.

This development of the Circuit is short of the usual 100% results, which is perhaps the most striking feature of the season so far.

The five boys from Coquille have been named as members of the first double unanimously decided affirmative and negative in the High School debates since the Circuit was first organized.

This development of the Circuit is short of the usual 100% results, which is perhaps the most striking feature of the season so far.

The Circuit was first organized in 1882, and up to the present time the Circuit has been divided into two sections, with five judges in each section.
