COOS COUNTY COWS.

A special to the Oregonian from Corvallis says:

With six cow testing organizations carrying slightly more than 3,000 dairy cows on official test, dairymen of Coos County lead all counties of the United States in this progressive plan of building up the dairy herds.

Testing is Testing
Cow testing in Coos County has been made to mean precisely what the term implies. Each cow tested for its butter-fat content for each month in the year by a competent, enthusiastic and disinterested official tester working under the supervision of the college dairy officers. The records are accepted by dairymen everywhere as being correct and authentic, and if any cow fails to measure up to standard dairy requirements, she is put out of the class of profitable dairy cows and her place in the herd will be supplied by another and better cow. In this way good cows are secured for the present production, and still better cows will be bred for future producers.

MARY PICKFORD LOST TO CHEAP THEATERS

"Little Mary" Pickford is lost to the popular priced picture houses and after one more release with the Famous Players in the regular way, she will go on celluloid tour to be shown only in photoplay houses charging 25 cts. and up in legitimate theaters. The Famous Players company has formed a special booking concern, to be known as the Select Firm Booking agency, to book the Eternal City and other subjects too long for the regular programs as well as the Pickford releases.
After these subjects have been released all over the country at the higher price they will then be released to the popular priced houses. The enormous salary paid the little star and the great cost of her forthcoming productions are the reasons for the change in the handling of her films. Those who know declare that Miss Pickford not only receives \$3,000 a week but also a percentage of the films' earnings.

The commissioners of the Port of Coos Bay are considering the purchase of a dredge.

Will Move The Station.

Coos Bay people, after endeavoring for many years to have the life-saving station moved from its present site in the lower bay to a point near Charleston, will probably see its accomplishment this year, as advices from Washington received last week are to the effect that the department will advertise for bids next month with that object in view. The station will be much nearer the bar in its new location, and prompt assistance can be rendered in case of accidents to shipping at the entrance of the bay and also to bay steamers, launches, etc., which take passengers and excursion parties to South Slough and beach resorts. It contended that a number of lives could have been saved if the station had been moved years ago but the department, for some reason not understood here, was very slow to act. It is hoped that nothing will arise now to prevent the moving of the station this summer.
