THE GOLDEN RULE:

YOU START AT ZERO
We all start out in life from the zero mark. It is spirit of the age. The higher up we go the more we are looked up to. The man who steals money and takes himself seriously, back to the community is a man who maintains and feeds on his own inventions, which he is gaining, wealth and ability. Many people are depositing their money with this bank, paying in, and allowing them to pay their own interest, thereby saving their money at a very high interest. The pay you receive for your money in the bank is the interest on your money.

ADVERTISE To Increase Business

THE tendency is when business is good to make it better by advertising. Merchants act under the assumption that advertising is a luxury. When business grows slack they discontinue advertising. Advertising is a part of business. It should be used to a greater degree in times of bilit- ness for it is more needed then.
