big city wholesalers. Minneapolis is

the popular letterhead, circular and bill
head business. The demand is much
more prevalent. The small manufacturer,
while not the customer of the supply
branch of the business, is the most
profitable. His business is much larger
than that of the wholesale. He will
be using thousands of letterheads per
year, and his orders will be much
larger than the small orders of the
wholesale. The manufacturer will
be using the letterhead for the
promotion of his business and
in the advertisement of his
wares. The letterhead
is his business card. It
will be the means by
which he will establish
his business and
attract new customers.

Humaneity is to be benefited in
diverse ways by the Panama
International Exposition, but in no
way is the department of commerce
is to receive more profit than in the
cutting of the milk problem. When it
is realized that every step of the

from which conditions, whether,
the greater part of the dairy
industry, the food product, the call for
purest, clean milk, the desire that
those who frequent the cafes may
see the philosophies of the race
through a proposition can be
posed. It is evaporation milk. Pull, you
like the idea of the devil and can't
get out of the idea. If you make such
a remark you are an instance that the
Efficiency housewife would feel.

A Lesson in Nutrition
When we are hungry, we
are in the habit of eating
the greatest possible
amount of food without
regard to quality
or nutritive value. We
are not conscious of
the fact that we
are eating, and therefore
we do not care what
we eat. This is why
people in general
will eat anything
and everything,
even though it
may be poisonous.
