PUBLICITY!

Advertising is an important feature of modern business. A merchant may have the very public needs, but unless the latter is aware of the goods, the law of supply and demand will not work out. Newspaper advertising is the best method to accomplish this. The name of a business man or firm which appears regularly in the columns of the Recorder is certain to have a distinctive patron and the first to be patronized when any thing is wanted.

MORAL ADVERTISE IN THE

BANDON RECORDER.
