We Must Wash

We may live without poetry, music and art;
 We may live without conscience, may love without heart;
 We may live, without lovers live, without hope;
 But civilized women cannot live without soap.
 We may live without books what is knowledge, but sorrow;
 We may live without beauty, it fades on the morrow;
 We may live without law suits, indictments are quashing;
 But, where is the one who can live without washing

When Did Man Begin to Live?

Man was created after all other living things on earth.

And he was given additional powers to Think, Reason and Act, so that he might become ruler of all things.

Motorists began to really live and become supreme beings when they were enabled to get the proper accessories, at the proper prices.

And to have their cars repaired by men who know how.

And those who have fully exercised their thinking and reasoning powers should conclude to continue to live by patronizing the Bandon Garage.

We carry the largest stock of TIRES and accessories in Bandon. And our prices are right.

Fears For Alaska Glaciers

The Japan current is moving closer to the coast of Southeastern Alaska resulting in the climate getting more and more mild. This is the opinion of Wm. Sultzer, former governor of New York who has just returned from a northern trip. He thinks that in 200 years the climate of this section of Alaska will become more moderate and there will not be a glacier left.

Frank Waterhouse & Co. of Seattle have booked an order from the Russian government for 7,500 freight cars to be delivered at Vladivostok. Seven ships have been chartered to take the cars to the Russian port.

The following, taken from an exchange is evidence that the accidental spirit of universal suffrage finds a sympathetic chord in the oriental mind:—San Francisco's Chinatown is agog today. The sight of Chinese women with tiny cramped feet, marching through the streets and the news of the banquet later at which the women spoke on the rights of women, has caused San Francisco Chinatown to rub its eyes. Not so many years ago such a happening would have been impossible. Today it is evidence of the progress made in the new Chinese republic.

Uncle Sam believes in making the life of the working man as pleasant as possible. For his employees on the government railway project it appears that arrangements will be made by different appropriations to provide pool tables, phonographs and moving picture amusements.

Donald Charleston, Port engineer at Coos Bay, had an old experience on the Marshfield road a mile west of this city the first of the week. On the soft grade of the fill being made there his auto slipped down and turned

ed on its side. He left it there until the next day and on going back for it at a turn in the road a big deer came sight dashing across the road a couple of times and then falling into a blackberry thicket under a high bank. The auto stage he was in stopped for the men to get out and look for the deer and while Charleston was peering over the edge of the bank it caved away and he tumbled in on the deer. Which was the most surprised, the man or the deer, it would be hard to say; but the deer disentangled itself first and as Charleston describes it "made a funny little noise, gave a kick and a jump and fairly whistled through the air and that's the last I saw of it."

The J. C. Brown residence, one of

the oldest houses in Myrtle Point was partially destroyed by fire last week. The occupants of the house were away at Powers and the fire apparently started from the kitchen flue. The city fire department succeeded in stopping the blaze but not until the whole inside of the building had been ruined. Some of the furniture, including a piano was saved. The building was valued at \$3,000 with insurance at \$1,500.

Messrs Brodie and Strait, who are sent out by the U. S. department of agriculture to teach scientific land clearing, especially of logged over lands will be in this county and give demonstrations about the middle of this month.

Favors Hard Surface Roads

In an interview appearing in the Coos Bay Times recently County Judge Watson in a general way argues in favor of hard surface roads in Coos county in the event of Bonding, and says that plank roads would be a failure. He says we would no sooner get through laying the plank roads than we would have to begin again at the point from which we started. He also stated that the proposition for the state to bond for ten million and build trunk roads would give us something to tie to by connecting with Roseburg. He also appeared to believe that a special election this fall would be inadvisable as it would take until the next regular election to educate the voters in favor of a hard surface.

One of the facts that the state commission is trying to get before the sporting public is the fact that the open season for game this year begins August 15th instead of August 1st as last year.

All hunters and anglers must have licenses. A resident hunter's license is \$1.00 per year; a non-resident's hunter's license is \$10.00 a year; resident or non-resident angler's license, \$1.00 per year; combination hunter's and angler's license, \$2.00 a year.

Hunter's and angler's licenses may be secured from any county clerk by applying in person, or by application signed by two freeholders on regular blank which may be obtained from the county clerk.

Civil war veterans may obtain licenses free from county clerks only, upon proof of service. No license is required to angle in salt waters for non-game fish, but a license is necessary for women to hunt or angle.

It is unlawful for anyone to hunt and

angle without first having obtained a \$25.00 gun license and both hunters' and anglers' licenses.

The Coos Bay Times of recent date is authority for the statement that a recall is under way against the members of the Coos county court, stating that six petitions have already been started in circulation and that Judge Watson upon interview, assigns the movement to certain persons who have certain grievances against the court.

The Marshfield Record on the other hand makes a multitude of charges against the action of the county court alleging that the court is attempting economy in the wrong direction by making the working man the scape goat. The Record attacks appear to be directed more at the Watson family than against the county court, charging that Judge Watson and County Clerk Watson, who are brothers and who compose the majority of the board of equalization have unjustly reduced the assessed valuation of the large timber holdings and that to make up the deficiency have necessarily had to increase the value of the small holdings and that practice of economy in the smaller matters involving the working men is improper.

All parties knowing themselves to be indebted to me will please settle their accounts immediately. After July 1st I will charge 8 percent interest on all overdue accounts. I will make a discount for cash of 5 per cent on all purchases amounting to \$1.00 or more after July 1, 1915.
