thing to say in regard to running it when it was using money that he was in a way responsible for and when he found he had not, he resigned. Up to the 24th of last month Mr. Bryant says the gravel put on the road by the tractor cost about \$2.28 per yard.

The workman who turns out a poor job is an improvement on the man who only stands around and makes remarks.

When a man blows down the barrel of a gun to see if it is loaded the gun should always have your sympathy.

Some young men must have several drinks of fire water before they can muster up courage to ask a girl to dance with them. That is just the time a lady refuses to dance.

PEACE.

WERE half the power that fills the world with terror,
Were half the wealth bestowed on camps and courts
Given to redeem the human mind from error
There were no need of arsenals or forts.

THE warrior's name would be a name
abhorred;
And every nation that should lift again
its hand against a brother, on its forehead
Would wear for evermore the curse of Cain!

DOWN the dark future through long
generations,
The echoing sounds grow fainter and
then cease;
And like a bell, with solemn, sweet vibrations,
I hear once more the voice of Christ
say, "Peace!"

PEACE—and no longer from its brazen
portals
The blast of war's great organ shakes
the skies;
But, beautiful as songs of the Immortals,
The holy melodies of love arise.
—Henry W. Longfellow.

A portion of the mining machinery to be used by J. R. Peters on the beach here, arrived on the Rustler Sunday. The machinery consists of two engines a large boiler and several minor articles connected with the plant. Mr. Peters who returned a few days ago is now busy setting up the machinery on the river front after which it will be hauled to the place of operation on the beach south of town. All of the machinery has not yet arrived but Mr. Peters expects it here by the time he can get ready what is here in place and be ready for it.

TEMPUS FUGIT.

THE years go by on silent pinions—
In other words, on wings.
Though up to date (I rise to state)
No one has seen the things,
Nor does a mortal yet know
whether whether
They're made of gauze or wax or leather.
But surely tempus flies forever,
In quite unweirded flight
Keeps up its course by bird's force
At noon and noon and night,
Flies on with never sign of slowing,
And no man knows just where it's going
Time fugits, and we cannot stop it
By barricade of steel,
Nor do a thing to stop its wing.
Perhaps 'tis just as well
That whilst the years are falling, spring
Old Tempus still must keep a wing

PORT ORFORD REPORT

(From Port Orford Tribune.)

P. H. Poole returned Saturday from his honeymoon at the fair where he reported a glorious time. The cowbell and tinpan brigade were disappointed in his return as he left Mrs. Poole in Bandon where she will visit with her folks for a week before returning to Port Orford. In speaking of the fair Mr. Poole said is excellent, especially the Coos-Curry exhibit and that living in San Francisco is as reasonable as at any other time.

Mrs. F. B. Tichenor and four daughters arrived in Port Orford last Saturday and are now domiciled in the Nielsen dwelling house on Jackson St. In coming down from Bandon the car in which they were riding, driven by Mr. Tichenor, was run into by a Ford driven by young Thorhaven of Langlois and badly damaged. The radiator was punctured in two places and the car put out of commission being returned to the Bandon garage for repairs while the party was brought on here by another auto. It is said that the accident may result in a law suit for damages.

W. P. Bryant has resigned as road supervisor of this district. Friction between him and those who are in charge of the tractor was the cause of the resignation. During the time that he held the position Mr. Bryant has made a careful conscientious supervisor and his friends regret to see him quit the position. The tractor was brought here and put to work on the roads and Mr. Bryant believed he should have some

THE WHISTLING BOY.

S's been, sweetest,
Falls on the ear
The wild sweet whistles of his lips.
So sharp, so tart,
I thrill and start,
And fancy tingles to the finger tips.

THE dingy town,
With walls of brown,
With grimy streets and pavements gray,
Its rush and roar
I note no more,
And all its fierce commotions pass away.

NO hermit thrush
Through woodland hush
Could thrill a tune more fresh and free;
No mocking bird
More gladly heard
Through verdant vine clad swamps in Tennessee.

I FEEL a breeze
Through cherry trees
O'er dandelions wet with dew,
And on a rail
I hear a quail
Gladden an old peach orchard through
and through.
