When Did Man Begin to Live?

Man was created after all other living things on earth.

And he was given additional powers to Think, Reason and Act, so that he might become ruler of all things.

Motorists began to really live and become supreme beings when they were enabled to get the proper accessories, at the proper prices.

And to have their cars repaired by men who know how.

And those who have fully exercised their thinking and reasoning powers should conclude to continue to live by patronizing the Bandon Garage.

We carry the largest stock of TIRES and accessories in Bandon. And our prices are right.

We Must Wash

We may live without poetry, music and art;
We may live without conscience, may love without heart;
We may live, without lovers live, without hope;
But civilized women cannot live without soap.
We may live without books what is knowledge, but sorrow;
We may live without beauty, it fades on the morrow;
We may live without law suits, indictments are quashing;
But, where is the one who can live without washing

Record Dairy Cow

THE NEW DAIRY QUEEN

How fleeting is the glory of a Dairy Cow Queen is best exemplified by the eclipse cast over the yield of the erstwhile leader of the dairy world, FINDERNE HOLINGEN FAYNE No. 1444551 HFHB, by her stable mate, FINDERNE PRIDE JOHANNA RUE No. 121083 HFHB, the new world's champion. The reigning Queen, like her predecessor is one of the brilliant luminaries of the Holstein-Friesian breed, and her remarkable performance, announced June 16 last by the Advanced Registry Office of the Holstein-Friesian Association of America breaks all world records for butterfat production, not only those of black-and-white cattle, but for all other breeds, by yielding in 365 consecutive days 28403.7 lbs. of milk (13211 quarts) containing 1176.47 lbs. of butterfat. The average yield per day, therefore was slightly over 36 quarts of milk and 4 lbs. of butter per day.

The Holstein-Friesian heifer, FINDERNE HOLINGEN FAYNE, the deposed Queen, whose achievement was the world's record for the short period of but three months produced in a like period 24612.8 lbs. of milk (11448 quarts) containing 1116.95 lbs. of butterfat.

The new world's record cow, FINDERNE PRIDE JOHANNA RUE, calved at the age of five years, four months and four days. Her sire is JOHANNA RUE 3d's Lad No. 26939 HFHB and her dam is JONINE PRIDE No. 60247 HFHB. She was bred by Bernard Meyer of FINDERNE, N. J. and is now owned by the Somerset Holstein Breeders Co.

of Somerville, N. J.

The test was made under the supervision of the New Jersey Agricultural College. In a seven day's test beginning 358 days after she calved, the new world's record champion produced 602.4 lbs of milk and 28.831 lbs of butter fat and for a second time established a new mark in the division of records being not less than 240 days after calving.

GIL, THE TOREADOR.

THE queen sat in her balcony,
The loveliest of Spain;
Beneath robe all the chivalry,
And roses fell like rain
To crown the gallant gentlemen
The confalon who bore;
A woman's favor fell for one—
Gil, the toreador.

Beneath the royal canopy,
To see the red bull slain,
They sat, like loyal lovers,
The king and queen of Spain.
Came marshal, noble, knight and squire,
Chulo and pander—
Of all a woman saw but one—
Gil, the toreador.

The trumpets clanged, the sport was on,
The royal sport of Spain,
Madened by shouts and thrust of lance
But not upon her balcony
The loveliest of Spain,
Long live the king and his fair queen,
Hail loyal thousands fair—
None know what woman did when fell
Gil, the toreador.

—Charles Henry Webb.

D. F. Barnard and wife Eva Barnard of Marshfield were made two at a single days session of the court at Coquille last Wednesday. The custody of the child, Howard Barnard, was given to the mother.

Jim Hobson is "Fording" through the country again. Last Monday night, he and Jasper Yoakum were at Marshfield and someone wanted \$12 to bring them to Myrtle Point. Jim turned to Jap and said "Come on we'll apply that on the price of a new car." And while it was then about ten o'clock p. m. they hunted up J. R. Tower and bought a Ford and made the trip from Marshfield here the same night—Myrtle Point Enterprise.

Mrs. L. B. Sellers and Mrs. A. T. Train and children returned fore part of the week after a few days outing on the Bandon beach. While they were there, an old looking fish, the likes of which had not been seen in those waters before, was captured on the beach. Judging from Mrs. Train's description, this inhabitant of the Pacific waters that had strayed too far from home, looked more like a cannon ball with a few fins attached than anything else a land lubber could think of—Myrtle Point Enterprise.

Among the Coos county students at the university of Oregon summer school are Melvin Solve and Effie M. King. Mr. Solve's course includes history and psychology; Miss King is taking work in psychology, mathematics, history and physical education.

The summer school this year is larger than ever before and the student body is larger than ever before and the students. In the first place there are half again as many men as women. This is very unusual in summer schools which are as a general thing composed of a very large extent of women school teachers. The men at the Oregon Summer School this year are many of them, in the prime of life. According to Dr. Schafer, director of the school their average age is thirty or more. They include numerous city

and county superintendents and high school and consolidated school principals who are working for higher degrees and to advance themselves in their profession.

The question which seems to concern this country particularly is how to obtain the most luxuries with the least work. Some of the five-hours-a-day fellows have fifteen-hours-a-day wives, which help out a good deal in a family.

For Sale: 10 acres, with improvements for sale or trade. Will take wagon and team. Property located 1/2 mile south of Prosper. Terms reasonable. For particulars write or call on T. J. Owen, Prosper, Oregon. M24 2m

Gems In Verse

BEFORE you kissed me only winds of heaven
Had kissed me, and the tender-ness of rain—
Now you have come, how can I care for kisses
Like theirs again?

I sought the sea; she sent her winds to meet me.
They surged about me singing of the south—
I turned my head away to keep still holy
Your kiss upon my mouth.

And swift sweet rains of shining April weather
Found not my lips where living kisses are,
I bowed my head lest they put out my glory
As rain puts out a star.

I am my love's and he is mine forever,
Kissed with a kiss and safe forevermore—
Think you that I could let a lesser star
Where a king stood before?
—DORIS TAYLOR

The San Diego Ad Club asked Col. Roosevelt to a luncheon, but the Colonel said he had just refused another lunch invitation and could not accept. "But Colonel, they had Bryan up there", interposed Assemblyman A. Grant Conrad.

"Well if they had Bryan they certainly can't have me, that I am sure of", retorted T. R. "Let them get a two-headed calf now or some other exhibit."

(It is just such statements as this, frequently made and absolutely uncalled for, that little by little lessen the respect and esteem of the American people for their ex-president the man whom they once lionized and whose every wish was gratified to the ultimate limit of the people grant. Bereft of official dignity which robe like covered many short comings, he now frequently exhibits his grand stand egotism, and narrow guage make up.)

A man by the name of J. C. Linster was confined in the county jail one night since our last issue by Sheriff Bailey on telephone advice from Coos county authorities. The fellow was a one armed man and it was claimed he had an artificial arm made in Bandon which he had not fully paid for. It was alleged he was leaving the country to avoid payment. However he claimed to have paid a portion of the bill and the party agreed to wait for the balance. The matter was closed as far as Sheriff Bailey was concerned by the fellow turning the artificial leg over to him who returned it to its makers.
