If Charley Chaplin could have seen the crowd that turned out at the Grand Saturday night to greet him he would not have disappointed them by not arriving. The opening of bids for the Averill stock which will take place in Portland next Monday is something that will be watched with interest by local people. It is known that there are a number of bids already on file for the stock and it is a matter of speculation as to how high the bidders will go. The store sight is also attractive and it is not likely that it will remain vacant when the stock has been taken out. Probably the store building will be sought with the stock.

Busy Day For Judge

The duties of Recorder Kausrud were abandoned this afternoon for the duties of Police Justice Kauerud and the police justice put in a busy day. A group of four were arraigned before him this morning—two young men from Marshfield, Osgood Shoup and Sam Wilson and two easily influenced girls, one from Coquille and the other from a near river port were arrested in a local rooming house. The girls were under age and the young men were charged with contributing to the delinquency of minors. They were fined \$15 each and requested to get outside the city limits. As the girls were without funds, part of the fine money was used to defray their passage home to which they were recommended to proceed and to act with more circumspection in the future. This party came here from Marshfield in an automobile last night.

The justice's afternoon was spent trying three or four cases of assault which had been accumulating during the past few days and also a lady suspect.

J. A. Kronenberg came up from San Francisco on a two weeks business trip and reports a fair voyage. He has been in the south long enough to absorb the heresy that the climate of Sausalito is preferable to that of Bandon but his friends here at present are laboring diligently to show him his error. He lives two miles out of Sausalito and has all kinds of fruit on his ranch and says he is pretty nearly completely satisfied with it.

His son Jack has entered the University and the latter's cousin, Miss Ottilie Lewin is also living with the Kronenbergs and attending the university.

Evangelistic Meetings, Baptist Church

The services conducted by Evangelist L. H. Steinhoff in the Baptist church will close next Lord's day. During this week service will be held Tuesday, Wednesday and Thursday evenings only. The interest and large attendance has kept the evangelist here longer than was anticipated and the church will be greatly strengthened and a number added to its membership. The meetings begin at 7:30 p. m.

You will enjoy these meetings. Try to come.

One of the visitors to Bandon during the past week was J. T. Shull of Healey, Kansas. Mr. Shull who is a cousin of Jas. and Wm. Mast was accompanied by his wife and with B. C. Shull of Myrtle Point was camped out upon the beach for an outing of a few days. They plan to go from here to North Bend to take in the Bridge Carnival.

Mr. Shull says the farmers of Lane and other western counties of Kansas have had plenty of rain for the past few years and have had fine wheat crops some of them, ordinary farmers have netted twenty thousand dollars for a single year's crop. Farming there is by the dry method and sometimes they do not have a crop in three or four years. He says he has planted wheat a number of times when it did not come up at all. When he first went to Kansas the prospects were especially discouraging. All who could left the country and those who remained were those who were not able to get out. But in the long run the farmers there even up with those of other sections for when they do

have a crop it is a big one. Just at present all the neighbors of Mr. Shull are buying automobiles.

Mr. Shull and family have been to see the San Francisco fair and are now making a short visit in Coos county before returning to their home.
