Marguerite Clark Adorable Stage and Screen Favorite, in Another Famous Players Film Triumph.

Marguerite Clark the dainty, diminutive, magnetic star of "Wildflower" "The Crucible," and "The Goose Girl," attains another superb screen triumph in the latest Famous Players production a fourpart adaptation of Grace Livingston Furniss' charming comedy drama, "Gretna Green" the chief attraction at the Grand Theater, Wednesday, October 20th on the Paramount Program.

To find herself married to the man whom she actually believes she detests is the unusual position Miss Clark finds herself in at the climatic period of her portrayal of the famed character of Dolly Erskine, heiress of a vast fortune, belle of harrowgate, and coquette, in the film version of this noted romantic comedy of Scotland in the early nineteenth century.

Miss Clark's winsome personality, her piquant beauty and elfin grace assist her in making the tantalizing and bewitching role of Dolly Erskine an ideal character creation.

"Gretna Green" is named after the famed locality in the northern part of Scotland, where during the nineteenth century romantic couples whose marriages were opposed by stony-hearted parents could come and wed without the requirements of prenal consent. And, according to the custom of this aradican country, it did not make a particle of difference who performed the ceremony. Once within the lines of Gretna, the spoken word was enough to bind the eloping couple. And it is thus that Dolly after warning the incognito Earl of Basset that she would never marry him, finds herself in a compromising position and in order to save the honor of her married sister who was eloping with another man tells all that the supposed riding-master (the disguised earl) is her husband. This casual remark is enough to bind her to the Earl in reality, according to the law of the period. How she finally learns of the Earl's true identity and is convinced that she really loves the man she tried to hate, is developed in a highly pleasing and amusing manner.

The subject is replete with romance fun, drama that more than once throughout the production is intensely gripping and the sentiment and sunshine that Miss Clark so generously circulates.

This notable feature with this prominent and popular star will be shown at the Grand Theater, Wednesday, October 20th.

Service First!

A long distance telephone conversation may cost twenty-five cents between nearby towns or twenty-five dollars across the continent. The rate is based on the cost of rendering the service and not on the benefit value to the public. Therefore, the economic saving to the business world is incalculable. It may in a particular case, be only worth twenty-five cents. Then the public gets value received. But think of the "two-bit" calls which are worth a dollar or ten dollars or hundred dollars in the saving of expense and time to the parties. Think of all you are getting for nothing. Make free use of the telephone and gain for yourself and your business these dividends of service which are being declared for the public every day.
