Swindler is Sentenced

E. M. Zuren of San Francisco apostle of high finance who made a specialty of swindling country producers out of their butter, eggs and poultry, was called on to pay the fiddler last Friday morning. On Thursday he pleaded guilty to the indictment returned against him by the grand jury at San Francisco and on Friday Judge M. T. Dooling sentenced him to two years in the penitentiary.

The proprietors of the Bandon creamery are especially interested in the sentence as it is perhaps the only satisfaction they will receive for an account of \$250 due them for butter sent to Zuren last August.

J. C. Baker of the creamery company has a letter from the government prosecutor in which he states that Zuren will be convicted but that the prospects of any one recovering anything are slight. The man has numerous creditors and few assets. He appears to have conducted a business on the mail order plan, without any regular place of business, disposing of his stuff at what his price which was all clear profit as he made no returns to the people who supplied him with produce.

When Gentle Zephyrs Blow

The wind storm of Friday night was one of the most severe that ever visited this section. The velocity of the wind is reported at various places along the coast from sixty to eighty-five miles an hour. It swayed the houses in Bandon in grand shape and nervous people found it the reverse to a lullaby. Many arose and dressed when the speed of the wind seemed to increase towards morning. One Bandon man tells about hanging on to the bedpost in order to keep his feet while getting into the clothes. It seemed like riding on the Lizzie on a choppy sea. The court house swayed in the wind like a rocking chair and the old school building on the hill threatened to take wings and drop on the Recorder office. The telephone lines in various sections of the city were out of commission Saturday morning and the electric light people found plenty to do to keep their wires in commission.

The smoke stack on the plant of the power company blew down and through the woods many trees gave way before the force of the zephyr.

Mrs. Fidelia Gilman, grandmother of Mrs. P. B. Robison of this city died at Coquille last Friday morning. She was over 88 years of age, was born in Vermont and married to John Gilman in 1852. They came to Coos county in 1871. Mr. Gilman died in 1890. Funeral services were held Saturday afternoon.

Urges Highway Bond Vote at Primaries

The following is from a letter which Charles Hall of Marshfield is sending out to people interested in good roads throughout the county. The "extracts from the minutes referred to may be found in another part of this paper.

"At this time, I wish to call the attention of the Executive Committee of the Coos County Good Roads Assn. to the highway situation. Enclosed you will please find extracts from the Minutes of the State Highway Commission of Oregon which are self explanatory. The writer attended each of these meetings and state officials are disposed to give us considerable assistance. As their minutes state, no extensive appropriation may be expected by Coos county before 1917. However, recent developments have made it seem possible that our compliance with their conditions, namely, the voting of bonds for permanent improvements, at an early date, would enable us to receive State Funds during the present year for road building in addition to the survey.

At their meeting for November 11, 1915 when the funds for this year were appropriated, the largest single allotment was \$45,000 to Hood River and Wasco counties, contingent upon the latter voting bonds. Wasco county has not called its election and recent advice I have received are to the effect that they will not call an election at a very early date, because of the inability of the citizens of the county to agree upon the roads where the money is to be spent. If they fail to vote bonds there will be \$45,000 available for the commission to allot to other sections. Individual members of that body told us that if Coos county should vote bonds this spring, it was their personal feeling that at least a part of the Wasco allotment for 1916 could be diverted for the benefit of Coos county.

This is an opportunity which we should not overlook, as prompt action will enable us, not only to receive the definitely promised aid for 1917, but to get some immediate assistance this year. It is my idea that things should be set in motion for a successful bond election to be held at the time of the primaries this spring. The state commission has been asked to begin its survey of the proposed trunk routes in this county at the earliest possible date and we hope to have this work under way within thirty days.

CHARLES HALL, President Coos County Good Roads Association.

"THE WILD OLIVE" "The Wild Olive" the most elaborate production ever presented by the Oliver Morosco Photoplay Company, is adapted from the celebrated novel by Basil King which took two continents by storm.

The brilliant scenes of this famous love story of the New York aristocracy shift in kaleidoscopic succession from the grandeur of the Alleghenies to the cosmopolitan charm of Buenos Ayres, the gay capitol of the Argentine.

In view of the intense interest now being shown in the United States in the South American trade the prominent part played by the immense docks of Buenos Ayres in "The Wild Olive" give it particular timeliness.

"The Wild Olive" presents Myrtle Stedman and Forest Stanley in their first appearance in a co-starring combination.

Myrtle Stedman ranks among the five most beautiful women in moving pictures. She recently won first place in the sensational Popularity contest, conducted by the New York Telegraph. The role of Miriam in "The Wild Olive", one of the most sympathetic roles in modern fiction, provides Myrtle Stedman the opportunity of her career. Her great beautiful Murillo eyes and her splendid physique combine with her glowing personality to make the Morosco picture which can never be surpassed.

Back to the Grind

W. E. Steinhoff returned on the Elizabeth Monday morning from a trip to various places in California. He reports a quick and fine trip up. The vessel traveled before the wind and made quick time. Mr. Steinhoff visited for a while with his family in San Francisco and visited the exposition which is being dismantled. He also started for Southern California and the fair at San Diego but because of the heavy rains in the south was not able to proceed further on the coast railroad than Santa Barbara where he turned around and went back to San Luis Obispo. There he has daughter living and spent a week with her. He reports business conditions in the south about the same as here. Everything is quiet but people are expecting things to pick up in the near future. A number of the exhibits at the exposition are still in. He especially admired the Oregon building with its stately columns and majestic proportions.

The Devil's Daughter

Wonderful Gowns Worn by Theda Bara in D'Annunzio's "The Devil's Daughter".

Every woman should be on the lookout for the wonderful gowns which the sinuous Theda Bara, the far-famed Vampire Woman of the Antoine Theater, Paris wears in the new screen drama "The Devil's Daughter" especially written for her by Gabriele D'Annunzio, the noted author of "Carmen", which is produced by William Fox, who brought Mile Bara to this country; and under whose management she has appeared in the famous successes, "A Fool There Was", "The Clemenceau Case" and "The Two Orphans". D'Annunzio bases his film drama of the Vampire upon his La Gioconda which, when Eleonora Duse created the character, made a world-wide sensation and was the most talked of drama ever written.

Grace of line and a generally "Vampirish" effect has been sought for by the French actress in selecting her gowns for this character. The result is startling in its sensational art. Every woman who sees these wonderful creations is going to rave over them. Already Mile Bara has created a sensation at the Belmont Park race track and at the fashionable cafes and hotels by her wonderfully effective gowns. But in "The Devil's Daughter" her garments outdo in amazing effect anything she has yet worn. See her at the Grand Next Friday January 28th.
