

PUT THIS KIND OF
ROOF OVER YOUR HEAD!

ASK any business man in town whether he has a CHECK BOOK OVER HIS HEAD. CERTAINLY he has. He couldn't do business and he couldn't live at home unless he had. More and more these days the AVERAGE MAN is PROTECTING his FAMILY BENEATH the COVERS of a BANK BOOK. Of course you want to select a RELIABLE INSTITUTION where SERVICE is PERSONAL.

LET US PUT A COVER ON YOUR HOME.

The First National Bank of Bandon

Local News

Don't forget new music at the Dreamland Saturday night. It.

Frank V. Catterlin, the genial traveling salesman, has been grabbing orders in this section the past week.

Ben Ratlae returned to Bandon from Bend, Oregon, for a short visit with his sister, Mrs. Ed. Howes.

Floyd Barklow returned last week from California, where he has been taking in the Exposition the past two months.

Miss Alta Willard of Coquille was down for a week end visit at the home of her parents, Mr. and Mrs. O. R. Willard.

Deputy Sheriff W. C. Laird was in the city Monday, serving civil papers

in a case in which the Robert Dollar company is bringing action.

W. M. Hale, salesman for the L. L. Thomas piano store, has been in the city the past week returning from a business trip in Curry county.

Mrs. R. Runde of Bridge was in Bandon the latter part of the week on a short visit with her family. She returned to the up river point, Sunday.

When you buy coal from us you get Riverton Coal, the best and the cheapest. Get our special prices on 3 and 5 ton lots. Dippel & Wolverton. O28tr.

Mrs. Robert Marsden and son returned to their home at Marshfield, Monday after a visit in this city. Mr. Marsden went to Coquille to meet them.

Mr. and Mrs. R. A. Copple of

Marshfield have been stopping in Bandon this week while Mr. Copple superintended the moving of the Golden Rule store to its new location.

Mrs. C. I. Starr returned via Roseburg Friday from a visit to the Exposition at San Francisco. On her way back she visited Shasta Springs and Ashland, the two great watering places of the western part of the United States.

A. S. Russell, who left here in September for a business and pleasure visit at Walla Walla, Wash., and other parts of the Northwest, returned to Bandon this week. He was accompanied here by J. L. Griffen, who is looking over the country.

A Garfield today sold a second-hand four-cylinder Studebaker to A. Dufort and Clyde E. Stearns, who will leave in the machine Friday morning for Bend. Elbert Dyer will drive the car for them as far as Ashland, where he expects to spend the winter.

Mr. and Mrs. J. R. Wetherbee of Langlois arrived on the Kilburn a few days ago from California, where they have been visiting since the doctor disposed of his interests in the Star ranch. They return to Curry county to obtain their personal effects and will then move to Portland.

Engineer C. R. Wright of the government service returned to Bandon the first of the week from Siuslaw where he has been in charge of a harbor and bar survey for several weeks. He states they are not making as good headway as they would under better weather conditions.

Junior Engineer James Polhemus, in the absence of Engineer C. R. Wright, came over from Marshfield Saturday to look after the closing business of the month on the government work. Dan Miller, who has been doing all the "figgerin'" during Chief Wright's absence has been burning the midnight oil getting things ready for the payroll.

Two large plate glass windows arrived on the Elizabeth and they will be placed in the Ellingson building, repairing the break in the Boyle Jewelry company window. This will allow Boyle to remove all evidence of his sign "the window is broke but we are not" which occupied the corner for several months; it being superfluous to tell the public that he isn't broke.

This week in the window of Dippel & Wolverton's office is being displayed one of the largest heads of cabbage ever raised in the Bandon section, to the best knowledge of the World. The giant head is said to weigh approximately 30 pounds or more, stripped of all surplus leaves and weighed about 40 pounds root and all. It was grown in the eastern part of the city on the F. J. Clesson property on Ferry creek.

The famous Houdini, who is starting Orpheum-goers at Portland this week, has been recognized as H. O. Houdeen, who appeared in Bandon and other cities of the county featuring the young lady in the milk can act. At Portland he is freeing himself from a straight-jacket in midair. Houdeen after leaving this county was accused of beating a board bill at Coquille and of white slavery but Deputy Sheriff Laird could not bring him back from California as the authorities of that state would not give him up.

Hal Stutsman, who is working with the Portland capitalists installing a new mining system on Cut creek, was in town Monday and stated that the plant would be in readiness for operation about Wednesday of this week. The Coquille Sentinel says the machine belongs to J. R. Peters of Gold Beach, who says it will work about 200 cubic yards of sand a day and save 80 per cent of the free gold and platinum. One of the main features of the machine is an airtight concentrator into which the sand is forced by a centrifugal pump. Through holes in the concentrator the black sand is supposed to be carried into two gold separators both cone shaped, and worked with centrifugal force on the same principle as a cream separator. No mercury is used.

Capt. O. Wiren, co-operative observer at the Coquille River light station reports that the rainfall for the month of October was 1.81; days rainy and cloudy and partly cloudy, 24; days clear, 7. The rainfall for the corresponding month of 1914 was 6.55, a difference of 4.74 less this year.

Rather Expensive Business
Mr. Hendry, representative of the Parisian of Marshfield, who brought a stock of goods over and placed them on sale at the Gallier sample rooms Monday, was hauled into Judge Kagerud's court the following day and informed that he was violating a city ordinance which required a \$25 a day license to operate his kind of a game. He gave evidence that he had made only two or three sales the first day and was let off with the amount of one day's license. Mr. Hendry considered it too expensive to do business that way so he packed up and went back to headquarters.

Local Tie Business Is Still Uncertain

Railroads May Not Place Orders Until After First of December
—Laffaw Visits City.

Mr. and Mrs. Geo. M. Laffaw returned via Roseburg Friday from Portland where they spent a day at the home of the former's parents, after visiting the Exposition at San Francisco. They took the Northern Pacific steamer from San Francisco to Portland, and state that there were 529 passengers aboard. The sea was very rough and in spite of the size of the boat it rolled and tossed as much as the smaller boats do. Mr. Laffaw also attended to business matters in San Francisco, being particularly interested in the tie market. He states that the tie business is quite uncertain at this time and that it will probably be the first of December before orders are placed by the railroads. He hopes to receive enough orders to keep a large force of makers busy during the coming winter, but as yet there is no assurance of any great activity in that line.

NORTH BEND ALSO HAS DEFICIT

It has been asked "how is Bandon going to make up the \$4,666 deficiency for next year's revenue?" The estimated expenses for carrying on the city government during 1916 is \$14,266, while the revenue in sight at the present time will be short the former amount. North Bend's budget calls for \$24,583 to do business in 1916 with \$18,583 in sight, leaving a deficit of \$6,000. The Harbor says "the deficit is planned to be met by collection of delinquent street assessments, back taxes, fines and licenses, wharfage charges and the five per cent coming out of street and sewer assessments." North Bend is planning on a 16 mill levy, too, while Bandon, at the last election refused to raise the 10 mill limit.

County News

The County Court has made application to the Department of Agriculture to have a road engineer sent to Coos county to make a survey. According to U. S. Highway Engineer P. H. Burrell, who was recently in the county, it would only cost the county the man's traveling expenses. Jimney owners of Coquille who had been solicited at the depot have been deprived of their privilege by the depot agent there. They are quite "put out" about it and it is said expect to engage attorneys to fight out the matter in court. Jimneys between Coquille and Myrtle Point have been taking a great deal of business from the trains.

A scow loaded with two carloads of steel rails, 200 telegraph poles,

WHETHER your fancy leans toward Jewelry, Sterling Silver, fine Silver Plate or Cut Glass—or whether you don't just know what you want—you will have no trouble in finding something appropriate here. Even though you may need nothing just now, come in and see the many pretty things we have recently put into stock.

In all departments we are showing a splendid variety of new seasonable goods, and we want you to feel quite free to call and inspect them.

BANDON, OREGON

25 coils of copper wire and other equipment of the Western Union company and the Willamette-Pacific which was being towed by the gas tug Koons, sank in lower Coos Bay about 5 o'clock Saturday night in from 15 to 20 feet of water. Most of the material will be recovered.

Circuit Court cases filed last week were: Edwin Bailey vs. J. C. Freichter; Geo. Watkins vs. Edward A. Harris; J. L. Kronenberg vs. Bandon Construction Co., W. H. Webb, Thos. Neilson and C. W. Hilton; F. A. Spencer and G. W. Schelley vs. R. W. Cotton and Lillian Cotton; William Sorenson vs. Pearl Sorenson, suit for divorce; F. S. Bunch vs. C. Hammarloaf; W. Lee Ray vs. Horace Morris and Annie Morris; Minnie Bamford vs. Edward Bamford, suit for divorce.

While out in the hills on the Middle Fork route last week the Coquille Sentinel says J. A. Collier met people from over in the Camas valley who told him that they were getting very much interested in the improvement of the road from Roseburg to the Coos county line. What the Camas valley district proposes is to bond for

\$15,000, which with \$15,000 that they expect to get from the Douglas county court, will make a fund of \$30,000 to be used in planking the road through the canyon for ten miles. With a gravel or plank road the rest of the way from Roseburg already built, this will make an all-seasons road to the coast, if our county will do as well on this end of the line.

The Record says the Hallowe'en observance at Norway Saturday night was followed by acts of vandalism in the school room where scraps of food left from the luncheon were scattered all over the room, the teacher's desk overturned and her schedule and records smeared with ink. Other disreputable things were done to the school room and the district is aroused over the affair to a point where an investigation will be made and the guilty parties punished. It is believed several Myrtle Point boys were responsible and if the guilty parties are apprehended prosecutions are to follow. The teacher, Miss May Lund, had carried out a fine program that evening over 100 people being in attendance.

We Are Nationally Advertised

On our shelves you will find many articles that are nationally advertised, such as

Heinz 57 Varieties

Dromedary Coconut, Dates and Datenut Butter, Wesson Cooking and Salad oil, Minuet Tapioca and Gelatine. And many others that are the best produced in their line.

Curative Value In Food?

"Recalling that 90 per cent of disease results from errors in diet, then foods properly prescribed by the physician can justly be said to have curative value."

Dr. Henry B. Hollen, in The Medical Standard

One of the errors in the diet of many people is the use of foods robbed of the vital mineral salts (phosphate of potash, etc.) which are absolutely necessary for proper balance of body, brain and nerves. The result is a long list of ills, including nervous prostration, kidney trouble, constipation, rickets in children, and so on.

Twenty years ago a whole wheat and barley food, containing all the nutriment of the grain, including the priceless mineral elements, was devised especially to correct errors in diet. That food is

Grape-Nuts

It fulfills its mission admirably.

Another physician says:

"Nearly half the year my breakfast consists of a dish of Grape-Nuts, one or two eggs, or fruit. I RECOMMEND IT TO MY PATIENTS CONSTANTLY, and invariably with good results."

This wholesome food not only builds sturdy health and strength, but fortifies the system against disease. Ready-to-eat, nourishing, economical, delicious—

"There's a Reason" for Grape-Nuts
