Formerly Averill's Store.

### HAS TWO MILE AN INCENDIARY?

Two Fires in One Night, Both Without Causes, Arouses Much Suspicion.

Being unable to find causes for either, residents of the Two Mile section are alarmed over the fact that two fires occurred in their community early Monday morning. It is believed that an incendiary is operating there.

The first started on the C. L. Foster place ten miles south of Bandon, between two and three o'clock at night and consumed the house and adjoining woodshed. A dog sleeping in the woodshed created an unusual disturbance which aroused Mr. Ellwood, tenant on the place, and he discovered that the woodshed was ablaze. The dog escaped by crawling to the second story and jumping from the window. The house with most of its contents was destroyed, rendering a loss of about \$1,000. No insurance was carried.

About an hour later the Two Mile school house, five miles south of here, caught fire and was burned to the ground. The building was insured for \$600 and the contents for \$200 in a company represented by Dippel & Wolverton of this city.

Constable E. M. Blackerby made a trip to both scenes Tuesday. He discovered foot prints leading to both places, but it had been raining during the night and they were obliterated to such an extent that it was impossible to tell how long since they had been made.

The school house had not been occupied for two months, and since it had been raining for several weeks

it is considered a mystery how it could have taken fire of its own accord. It is reported that suspicions have been cast and that an investigation might be started.

Editor Cameron of the Agitator, North Bend, made the World a pleasant call this week. He does not appear the person one would picture as the editor of the Agitator, but he is apparently sincere in his convictions.

Mr. and Mrs. O. C. Sanford of Coquille were guests at the J. E. Walstrom home yesterday and today. They came down to attend the funeral of Mrs. Elizabeth Walstrom, who was Mrs. Sanford's mother.

**NOTICE TO CONTRACTORS**  
NOTICE IS HEREBY GIVEN: That sealed bids will be received by School District No. 54, Coos County, Oregon, up to 1:30 p. m., 24th day of November, 1915, for the completion of the second story of the Eastside school building.

A certified check of 5 per cent of the amount of the bid must accompany bid to be forfeited to School District No. 54, Coos County, Oregon, in case contractor fails to enter into a contract with said school district within five days from date contract is awarded to him.

All bids must be in accordance with requirements accompanying plans and specifications, which will be furnished at the office of Dr. L. P. Sorenson, on and after November 17th to 24th, 1915.

School District No. 54 reserves the right to reject any and all bids.

Signed:  
BERTINA KAUSRUD,  
Chairman of School Board,  
C. M. KNIGHT,  
Clerk of District No. 54.

### Coyotes Are Ruining The Sheep Men

Gradually Working Their Way North From Salmon Mountain District—Operate on Prairies.

Coyotes are rapidly driving the sheepmen of the open country in Curry county out of business, according to a resident of that section who was in Bandon today. Mr. Stanford of Myrtle Point, who has been a live stock raiser in the Floras creek region for several years, now has a force of men busy coralling his bands and will sell them within the next few weeks. The coyotes have created such havoc with his flocks that he is forced to give it up. He expects to stock up the range with cattle.

Gradually the coyotes have worked their way into upper Curry county from the Salmon mountain country doing thousands of dollars worth of damage on their way. So far they have operated only in the prairie country and have not annoyed those flocks ranging in brush land. The men operating on brush land are hoping that the destructive beasts will not attack them after the flocks in the open country are gone.

Wool prices are high at present and there is big profit in the business. For this reason the sheepmen are hanging on as long as they can.

The Freshman class entertained the High school and faculty at the school house Friday evening. Games were played and refreshments served. The big fun of the evening was the peanut race in which the Seniors won.

### Local Inventors Obtain Patents

Interlocking Buoy Coupling Is a Unique Device—Other Inventions Being Worked Out.

Word has been received from Washington, D. C. by W. H. Logan and John Nielsen that they had been granted a patents on their interlocking buoy coupling.

The coupling invented by Messrs. Nielsen and Logan is a coupling used on the buoys. It consists of two interlocking pieces of wrought iron over which fit a hoop sealing the joint into one solid piece and the hoop is held in place by an ordinary bar pin. The new device can be readily uncoupled by knocking out the pin and then knocking off the hoop. They will try to interest the government in the invention and if successful will probably realize a fortune from the invention as the government uses thousands of couplings on the buoys scattered along the coasts, which under the present method require considerable work to remove.

Mr. Logan is a recognized inventor and has a number of devices now in successful operation in machine shops in the east. He is working on other devices which will be patented as soon as completed.

Miss Ruth Burkhardt of Powers is visiting friends in Bandon. Miss Burkhardt is a member of the class of 1915, B. H. S.

Mrs. H. C. Dippel entertained a few of her friends last evening at an informal gathering. Bridge whist was enjoyed.

### NEW ROAD BOUNDARY LAW IS UNPOPULAR

Re-Districting of County Road Causes Much Apprehension Among the Road Boosters.

Coos county along with every other county in Oregon except Multnomah, must suffer considerable inconvenience in the administration of its highway improvements during the coming year, says the Marshfield Record.

This fact came out at the meeting of the executive committee of the Coos County Good Roads association at Coquille on Friday afternoon. During the discussion of ways and means for local highway improvements, following the law which was declared unconstitutional in the case brought by Multnomah county, Coos county court at its October meeting redistricted the county for road purposes making each city a separate district. Since the old law makes it impossible to make a re-appropriation the new boundaries must stand at least for one year.

It had been the hope of the good roads boosters, according to Chas. Hall, president of the association, that a number of the districts would vote a special tax levy for the improvement of roads. The law, however, prescribes that all special tax money must be spent in the district in which it is raised. It was deemed inadvisable by the executive committee to urge the county road districts to vote a special tax since the improvement of main roads between the towns under the present apportionment would fall on the rural communities without the city bearing its proper share. It is believed, however that at least two of the new districts, including the territory in the east central and southeastern

### OBITUARY

Mrs. Elizabeth Walstrom

The death of Mrs. Elizabeth (Swenson) Walstrom, wife of John L. Walstrom of Parkersburg, occurred at the family home at that place Tuesday morning, November 9. She was 60 years and 9 months of age and had been ill for the past three months. The funeral was conducted by Rev. Wm. Horsfall at the Ellingson undertaking parlors in this city yesterday afternoon and burial took place at the K. of P. cemetery.

The deceased was born at Skilleto, Sweden, February 9, 1855. On August 24, 1873, she was married to John L. Walstrom and in the same year the family moved to Marshfield. In 1883 the family moved to Parkersburg. Besides the husband four children survive: James E. Walstrom of Bandon; Ella Walstrom of Parkersburg and Mrs. Florence Sanford of Coquille.

Mrs. Walstrom was one of the pioneer women along the Coquille river and had a host of friends who are grieved at her departure.

Mayor Geo. P. Topping was at the County Seat today on business.

part of the county will vote special taxes for the improvement of those roads. Had it been possible to vote special taxes for the improvement of some of the main roads, it was thought the state highway commission would appropriate some of the funds for work in Coos county. Mr. Hall will meet the state commission in Salem early in the week to ascertain what Coos county must do in order to share in the state highway fund.
