

BANKRUPT SALE

of the AVERILL STOCK by the GOLDEN RULE at the store's new home in the Johnson building formerly the Averill Store. The Averill stock was bought by the Golden Rule for 53 cents on the dollar. This high grade stock of merchandise is now being offered for about one half of its real value, some of it for much less than half price. Now is the time to buy. One dollar will do the work of two.

New Project For Local

(Continued from first page)

driving on the bar.

"The port shipping would be given quicker relief from the shoaling of the bar and cross current inside due to the falling of the old South Pile wing dam and the building of the shore extension of the North Jetty.

"I have been asked by the Port of Bandon's attorney to inform you that the Port is willing to turn over to you the sum of \$25,000 to build this South Jetty and that they wish to have arrangements made so that this work can start as soon as the present work on the North Jetty is finished.

"It has been roughly estimated this Jetty can be built for that sum, and the Port has arranged to sell bonds to that extent and will have the necessary money ready by December 1st, 1915.

J. Ira Sidwell

These three stores have special messages for you each week on page five of this paper. Don't fail to refer to that page; watch it closely, it will be to your interest. And, bear in mind, "you can buy for less in the Ellingson building."

"This money to be turned over to you by the Port is not given contingent upon your diverting the remaining \$30,000 from the present project to the rebuilding of the outer end of the North Jetty, as they feel that would cause an undue delay and that they need the South Jetty as soon as they can get it built, and are willing to do it themselves. However, the Port Commission does expect this money to be diverted for further work on the North Jetty and that you will take immediate steps to have it done if you approve of the project. It is all-important with them and their future plans to be able to satisfy the local people that the government is co-operating with them, by getting this \$30,000 spent on the North Jetty.

"It is believed that \$30,000 will make a very good showing on the North side and practically restore the outer end as considerable of the old north trestle can be used. I have had Mr. Wright prepare a detailed estimate of the work to be done on both sides of the river, and this will be forwarded when received. It is more than likely the Port of Bandon will be willing to continue the work on the North Jetty to the extent of \$25,000, after the government funds are expended.

"The present work at Bandon will be finished December 1st, and as it will take some two weeks to get piling cut and trestle material on hand, the matter of the improvement should be taken up with the Port of Bandon at once, so the work will not be delayed and the force disbanded, should you look favorably upon the projects.

"I believe the South Jetty as contemplated would be a help to the removal of the sand washed in through the shore end of the North Jetty and would throw the current

more to the north and away from the rocks at the entrance.

"The North Jetty has always been shorter than the South Jetty and the local captains claim the bar always shoals during the summer months, due to the northwest winds causing the sea to wash sand in around the end of the shorter Jetty. Considerable of the piling in the old tramway on the north side can be used by cutting off the tops of the piles and building them up. The only plant necessary for the above work would be a revolving piledriver and steel rails for 2,800 feet of single track, and possibly one donkey boiler to replace one that is now almost worn out."

NEXT COUNTY GRANGE MEETING IN BANDON

Quarterly Session Held Saturday at Myrtle Point and Several Local Members Attended.

The Coos County Pomona grange met at Myrtle Point, Saturday for the transaction of their quarterly business. Members of Bandon grange in attendance were: C. D. Jarman, T. J. Razor, Clara Canterbury and C. R. Zeek. The meeting was joint with the Myrtle Point grange, hence a large attendance. A splendid dinner was served.

State Representative C. R. Barrow gave the meeting a splendid speech on the subject of taxation in Oregon and why our county warrants are not worth par.

Bandon Grange will meet at the I. O. O. F. hall on the first Saturday in December, at which time they will serve an old-fashioned farmers dinner from 11:30 to 1:00 o'clock.

The next meeting of the Coos County Pomona grange will be held at Bandon in February, further notice of which will appear at a later date.

Mr. and Mrs. Zeek will remain at the county seat and at Marshfield until after the corn show and husking bee.

Miss Ora Jameson says the World did her an injustice in its write-up of the fire scare at the C. R. Wade home last week. She says that the girl was not pouring oil in the stove, but that Mrs. Wade mistook the gasoline can for the one which contained coal oil.

In mentioning the Eastern Star Thanksgiving dance last week it was stated the music was to be furnished by Kausrud's orchestra. The World is informed this is incorrect and that it is to be furnished by Howell's orchestra.

HOUSE ON OREGON AVENUE BURNED

The Henry Hess house on Oregon avenue burned to the ground Tuesday night, between 9 and 10 o'clock. It had been occupied by the Hess children who are attending school here, the parents residing at Two Mile. On arriving home Miss June Hess lit a coal oil lamp and while carrying it, tripped and fell. Window curtains took fire and in a short time, before assistance arrived, the entire room was in flames. The house with nearly all the contents was burned.

An alarm was sent in and a large force of men turned out. The chemical and hose cart were taken out but much delay was experienced in getting up the Oregon avenue hill so the apparatus arrived too late to save the building. However, the men were able to save the barn and other outbuildings.

The house contained seven rooms and was well furnished. It was insured for \$800 and the furniture was insured for \$1200.

Beauty on the Outside

of JEWELRY cannot make up for lack of Merit on the inside.

We don't want you to be content with a view of the Jewelry as seen through our window.

Come inside and put it to the test of quality as well as beauty.

The keener you examine it, the surer you will be of its reliability and the safety with which we can guarantee it.
