

THE MODEL 75

OVERLAND

F. O. B. **\$615** TOLEDO

A real automobile—smaller, lighter and more economical to run, but with the advantages of a larger and higher-priced car.

WHAT YOU GET FOR \$615

You get an easily-operating and smoothly engaging clutch. Pedals are large, giving firm foot-hold, and are adjustable for reach.

You get an irreversible steering mechanism, avoiding back-lash at the steering wheel on bumpy roads. The steering column is firmly supported near the top, preventing vibration at the wheel.

You get a floating type rear axle, with FOUR differential gears instead of the two or three ordinarily used.

You get 4-inch tires—larger than on other cars of this size. This means added comfort and greater tire mileage.

You get demountable rims—with one extra rim.

And you get OVERLAND THOROUGHNESS in design, in quality of material, and in workmanship—a thoroughness that is possible at this price only under the Overland method of manufacture in huge quantities.

And added to all this you get time-saving service advantages that you can get with no other similar or even higher-priced car.

You get pride-begetting appearance—a long unbroken streamline body, with sloping hood, one-piece cowl, full-curved back and crowned fenders. This car looks like and IS a real automobile.

You get comfort—the LASTING comfort of deep, soft upholstery, buoyant cantilever rear springs, and large tires. The little jolts and bumps of the road never reach you.

You get convenience—electric starting and lighting; one-man top; folding type rain-vision, ventilating windshield. You get electric control buttons on the steering column, where you can reach them without even leaning forward.

You get economy in operation, for in spite of its size and roominess—in spite of its rugged strength—the car is exceptionally light. It weighs but 2160 pounds.

You get high-tension magneto ignition—the hottest spark, uniform year in and year out, and CERTAIN. There is no complication with starting and lighting, no deterioration, no need of attention.

A. GARFIELD
AGENT

LAST CALL

The Sheriff says that taxes must be paid in full or half before April 5th, to avoid penalty.

For your convenience taxes may be paid thru

First National Bank

Kindly bring your statement.

Only a Portion of Our New Equipment Has Arrived

But workmen are now busy getting our new location ready for the installation of the refrigerating plant and fixtures which will arrive on the next boat.

In the meantime don't forget that we are selling the best meat on the market and are always anxious to accommodate you in any way possible.

BANDON MARKET

Phone 131 G. H. Resky, Prop. First Street

J. R. Benn, a tiemaker working south of town, met with a painful accident Friday which may lay him up for some time. He fell onto a large drawshave, cutting the thumb of his right hand almost off. Several small arteries were severed and he became quite weakened from the loss of blood. He is being treated by Dr. Mann.

The Bandon Drug company is fitting up a room in the rear of its new store for the display of pianos. A number of new instruments have been placed in stock and Dr. Houston expects to engage more extensively in that line in the future. The balcony of the store will also be utilized for the display of Columbia phonographs.

SERVICE AT THE

Bandon Garage

Before you start out on the road with your car be sure you have

A good Pump
Spark Plugs
Pliers

Attractions at Grand Theatre

Scene from the "SOUL OF BROADWAY," Grand Theatre, Friday, Mar. 31

Scene from GRAUSTARK, a Big Four Feature in five acts starring Francis X. Bushman at the

GRAND THEATRE, Tues., April 4.

THE SOUL OF BROADWAY

Valeska Suratt in the Great Fox Feature De Luxe.

Valeska Suratt, the most discussed woman of the stage or screen, is known to the theatergoers the country over, the fashion-plate of the dramatic profession. Her gowns have made millions gasp by their beauty and daring as well as by their lavishness of design. In making her screen debut in "The Soul of Broadway," the latest of the great William Fox photodramas, Miss Suratt has outdone all her previous efforts in gowns and millinery. In all she wears 150 gowns, some daintily and uniquely simple; others are calculated to make the feminine portion of her spectators break into astonishment when they see them. It is estimated that in the course of "Soul of Broadway," Miss Suratt changes her garments with every 40 feet of film. A picture you will value having seen. Grand Friday, March 31st.

SIMON THE JESTER

A Gold Rooster Play in Five Parts Adapted From Locke's Novel. Simon De Gex, a noted member of

parliament, is told by his doctor that he has six months to live, and his marriage with Elenore Faversham is scheduled for that day. Lola, the Cat Queen of the Hippodrome, has been deserted by her husband and is befriended by Simon and his secretary, Dale. The latter falls in love with Lola, much to Simon's disgust.

A dwarf, Prof. Papdopoulos, is also secretly in love with Lola and vowed vengeance on her husband. He kills the latter and is adjudged insane. Simon is stricken and Lola nurses him back to health. Elenore and Dale, visit the M. P. and tell Simon Lola is not up to their level. Lola flees. The scene ends in a touching finale. Grand Theatre, Monday, April 3.

GRAUSTARK

Francis X. Bushman and Beverly Payne in Film Production of Famous Novel.

GRAND THEATRE

Dear Friend:—

Be sure to see Graustark, the splendid Essany production in six parts. It is certainly a play with a punch, great scenes and thrilling situations. The hero offers to lay down his life for the woman he loves. The story no doubt, you have read, by Geo. Barr McCutcheon, is gripping and offers unlimited opportunities to the screen artists and they have made the most of it.

From the moment that Lorry meets the Princess until the wedding scene at the finish, the play is full of action, thrills and romance.

You want to see and enjoy Graustark, which I have arranged to show at the Grand Tuesday, April 4th.

Yours cordially,
W. C. SELLMER.

Local News

R. Anderson came down from the Lampa camp the forepart of the week for a visit in Bandon. He will return to the woods next week.

Miss Pearl Walker arrived in the city the latter part of the week from Oakland, California, for a visit with her sister, Mrs. G. T. Treadgold. She came on the Speedwell via Coos Bay and reports a very rough ocean voyage.

C. McC. Johnson returned on the Bandon from San Francisco, where he went a week or so ago on business connected with shingle sales. Mr. Johnson finds the shingle market good and is now running two shifts at his mill at Prosper to handle the orders coming in.

Manciet Bros. have installed a new wall fixture for their soda fountain. It was made at the Acme Planing mill and is a piece of art from the standpoint of workmanship and wood. The material was taken from a piece of beautiful curly fir. It is matched up perfectly in every way and with a big plate glass mirror which is to be put in the center will be as handsome as any mahogany or oak.

Western World, it appears, was slightly "off" with regard to the new ship being built on the river by Mr. Ellington. According to the general impression on the street it was deduced the machinery was to be obtained on the Bay. The World is informed, however, such is far from the truth, the Bandon Iron Works having been given the contract, and that the Rogers foundry is making the rough castings, etc. Hence it gladly corrects the error of its statements. Home industry every time.
