

FORD CAR

There's a reason why there are more than one million three hundred thousand Ford cars in use today, and that reason is based on the matchless service and economy of Ford cars. Universal service is the most conclusive evidence of genuine value. That is one good reason. Buy today—

A. GARFIELD, Agent

LANGLOIS AND COMMUNITY

BORN—to Mr. and Mrs. Walter Tanner of the Star Ranch, a daughter.

BORN—to Mr. and Mrs. C. E. Spangler, June 17th, twins; two daughters.

Miss Vale, who is now teaching on Sixes river, spent Saturday and Sunday in Langlois.

Some of the young people went to Bandon last Saturday evening and took in the show.

Mr. Eller, the piano man from Portland, is spending a few days with friends in Langlois.

Miss Lena Langlois and sister, Delphi, of Bandon, are spending a few days at the Capps home in Denmark.

Mrs. Lydia Olsen has just rented the Haagensen tenement house and took possession last Saturday, June 17th.

The Edson Elliott company show played in Langlois, Sunday, Monday and Tuesday evenings. I hear it well spoken of.

Mrs. Mel Fitzhugh has sufficiently recovered from her recent illness to be taken to her home on Sixes river last Sunday, the 19th.

Miss Jenny Bossen has returned home for her summer vacation. She was accompanied by her little niece, Alice Button of Bandon.

Announcement of the marriage of Miss Agnes Hughes and Dr. R. V. Leep, to occur Tuesday, June 20th, are published. Hearty congratulations are offered.

Miss Anna Hughes who has just completed a course of study in St. Mary's Academy of Portland, passed through town on her way home to Riverdale last Wednesday.

We are glad to hear that Mrs. Hanson, of the Star Ranch, is improving nicely. She is now at Emergency Hospital, Bandon, where she recently underwent a critical surgical operation.

F. A. Vogt, D. D. S., is making friends among us. He, accompanied by his wife, was here last Sunday and Monday, doing dental work. He is agreeable and skillful and best of all, his work doesn't hurt.

Our present mail schedule works a great inconvenience to postmistress, mail carriers and the public. I suppose, instead of growling it will be better to pull the right wires for a change to convenient time.

Mrs. Haagensen and her sister, Miss Mattie Russell, returned from Portland last Saturday, June 17. They have been visiting friends and relatives in and near Portland and claim to have been entertained royally and to have enjoyed every minute thoroughly.

C. N. Smith and wife took out their \$1200, five-passenger Buick last Friday, and, accompanied by Mr. and Mrs. Cheever and Mr. Eller, the piano man, went to Lakeport for the day. They fished successfully, but their appetites were equal to the occasion, and no fish were brought home.

RURAL CREDIT LAW WOULD LOWER RATES ONE-THIRD

A reduction of one-third of the present interest rates in farm loans would be secured by the proposed rural credits measure, the initiative petition for which is now ready for circulation. Other features in its favor, as enumerated by C. E. Spence, master of the Oregon State Grange, in a communication, are as follows:

It harmonizes with the proposed federal legislation for rural credits, which it would supplement.

It is self-operating, requiring no additional administrative expense, going into the hands of the State land board consisting of the governor, secretary of state and state treasurer, which has handled successfully the state school funds of \$6,000,000.

It adds nothing to the taxpayers' burden, since all operating costs are to be borne by the borrower.

Bonds for obtaining the loan funds can be marketed at lower rates than farm mortgages, while at the same time the state merely "goes security" for which it is amply protected by mortgages on land at double the value of the loan.

Farmers of Oregon are compelled to compete in world markets with farmers having a much lower credit rate, and until this condition is remedied the state will not advance as it should.

It is necessary to get 25,000 signatures on the petitions within the present month. Since no funds are available for circulating their reliance is to be placed on volunteer help. Those wishing petitions to circulate may secure them by writing C. E. Spence, Oregon City, or J. D. Brown, Arlington, Oregon.

THE OTHER FELLOW

(By WALT MASON)

The other fellow ought to do the things I leave undone; I like to hand him precepts true and counsel by the ton. The other fellow'd find it wise to lead the simple life, to rigidly economize, assisted by his wife. While I blow in the good long green for diamond-studded lyres, for jugs of sparkling gasoline and costly rubber tires. The other fellow ought to buy the cheaper cuts of meat, and feed his children prunes while I the juicy sirloin eat. The other fellow ought to keep within his modest means, and he can make his living cheap, by raising spuds and beans. The other fellow ought to sweat and struggle for each dime, while I go blithely into debt, and have a bully time. The other fellow ought to know that rainy days will come, and he, to sidestep grief and woe, should save an ample sum. While I blow all my coin away, much faster than it's earned, and say about the rainy day, "The rainy day be derved."

Citizenship Denied

American citizenship has been denied to Tokyo Ozawa, a Japanese, in Honolulu, Hawaii. It was a test case. The court ruled that the Japanese are Mongolians, and that the word "white" does not include the Mongolian race. Judge Charles F. Clemmens, of the United States Dis-

trict court, handed down the decision. He said in part: "The remedy of the applicant lies in Congress. Our alien friends should, thru their friends, directly seek that branch of the government for relief. When such devotion to the United States and the constitution is given as the petitioner has shown in the last 20 years of complete surrender to our customs and institutions, his petition should not fall on deaf ears." Ozawa's appeal has been watched with keen interest by the Tikyo press and by Americans and Japanese of the Pacific coast. It is said that the department of Justice at Washington had instructed the U. S. District Attorney to begin cancellation proceedings at once had the court granted Ozawa citizenship.

THE ORIGIN OF PORK

Mary had a little pig,
Its tail inclined to snarl;
It followed her to Washington,
And now it's in a bar'l.
Mary raised this little pig
Till he became a shoat;
Then presented him to Congress
To capitulate the vote.
And now he rules the army
The navy and the lakes;
Too had he can't be captured,
From the legislative fakes.
What makes the pig so popular?
The eager people cry:
Because there's pork inside him,
And Congress deth defy.

The pen is mightier than the sword,
We often have been told;
But pens for Congress porkers
Are always built of gold.
Should Mary raise another pig,
We beg here to advise
That pigs are not for Congress,
But should be kept in sties.
—Newton Wilcoxon.

HELP PREVENT FOREST FIRES

When You Go Hunting or Fishing Always See That the Camp Fire is Extinguished.

Extraordinary precaution against forest fires is as necessary this season, notwithstanding the backward spring, as in years past for the woods are now rapidly drying.

As a good citizen you are urged: 1. To exercise utmost care with the camp fires you may build, carefully and completely extinguishing them upon leaving camp even for a short interval, and to refrain from wilfully burning brush.

2. To extinguish, if possible, any fire you may discover, remembering that all fires start as small fires, and to report the occurrence of the fire to the sheriff, warden or other officials.

Don't toss away burning matches. Don't build a fire that can spread. Don't leave a fire until it is out. Don't pollute a stream. Tidy up a place after camping. Be a good woodsman.

Forest fires are public evils; it is up to you to help preserve the forests. Besides, the state law demands that no person shall wilfully or even carelessly set on fire any body of timber or prairie. Such an act is a misdemeanor, and such person is also liable for damages to the injured party.

WHY not give your lad the same training?

"When I was a growing lad, and came upon many words in my reading that I did not understand, my mother, instead of giving me the definition when I applied to her, uniformly sent me to the dictionary to learn it, and in this way I gradually learned many things besides the meaning of the individual word in question—among other things, how to use a dictionary, and the great pleasure and advantage there might be in the use of the dictionary. Afterwards, when I went to the village school, my chief diversion, after lessons were learned and before they were recited, was in turning over the pages of the 'Unabridged' of those days. Now the most modern Unabridged—the NEW INTERNATIONAL—gives me a pleasure of the same sort. So far as my knowledge extends, it is at present the best of the one-volume dictionaries, and quite sufficient for all ordinary uses. Even those who possess the splendid dictionaries in several volumes will yet find it a great convenience to have this, which is so compact, so full, and so trustworthy as to leave, in most cases, little to be desired."—Albert S. Cook, Ph. D., LL. D., Professor of the English Language and Literature, Yale Univ. April 28, 1911.

Not Much Encouragement

Henry Sengstacken of Marshfield a few weeks ago wrote Secretary Daniels of the navy department, setting forth that there is now 27 feet of water on the Coos Bay bar, a 25-foot channel to Marshfield and that they hoped to soon have 30 feet. He also told of Coos Bay coal and the possibility of briquetting. Secretary Daniels in thanking him for the information says "the navy department does not at this time contemplate the establishment of any additional coal stations on the Pacific coast nor does it contemplate the establishment of a government briquet factory."

Much Myrtle in County

Coos Bay Times: Mr. McCormack returned from a trip to Myrtle Point and sections of the Coquille valley, where he investigated the supply of myrtle wood. He says there is a large enough quantity to last for many years, and believes that not only could myrtle wood furniture and novelty factories be established here, but that the wood could be sent out as well. He said that back in the hills there seems to be an abundant supply of the myrtle wood, though the supply is not so great that the people should allow it to be cut down and burned for firewood.

State of Ohio, City of Toledo, Lucas County, ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE. Buy your Druggist and ask for CHICHESTER'S DIAMOND BRAND PILLS, for twenty-five years regarded as Best, Safest, Always Reliable. SOLD BY ALL DRUGGISTS. TIME TRIED EVERYWHERE TESTED.

USE YOUR TELEPHONE.

When we place the word "your" in big capital letters it is for emphasis.

It means not to borrow your neighbor's telephone.

When you use another's telephone you must not think that you are not causing inconvenience merely because the subscriber says he does not care.

While you hold the wire, there may be several calls for the line and "busy" reports have to be made.

With good telephone service available for everyone at low rates, there is no excuse for anybody to habitually borrow a telephone.

"Neither a borrower nor a lender be."

THE UNITED STATES CREAM SEPARATOR MOST SANITARY

The MECHANICAL WASHER and STERILIZER for quick and complete bowl-cleaning is pushing the old style, slow "hand-washing" methods to the background.

The UNITED STATES is the only separator adapted to mechanical washing.

SOLID NICKEL SILVER used only in the skimming device of U. S. Cream Separators, is a metal that rust cannot touch. We guarantee it. With a surface always so smooth, and with the U. S. skimmer so free from obstructing corners and angles, Nickel Silver is remarkably easy to clean and, therefore, ideally sanitary.

The U. S. skimming device is composed of smooth, curved blades or plates open from center to circumference, through which the washing water is forced in tremendous current.

SOLID NICKEL SILVER is easy to clean anyway, but with the Mechanical Washer is cleaned in less than half the time of other skimming devices.

The SANITARY LINER is easily removed from the bowl chamber and washed with other parts. No milk comes in contact with the iron bowl chamber.

Let us show you these superior qualities.
