

FORD CAR

There's a reason why there are more than one million three hundred thousand Ford cars in use today, and that reason is based on the matchless service and economy of Ford cars. Universal service is the most conclusive evidence of genuine value. That is one good reason. Buy today—

Many Women Need Help

Women are as much inclined to kidney trouble as are men, but too often make the mistake of thinking that a certain amount of pain and torture is their lot and cannot be avoided. Foley Kidney Pills give quick relief from backache, pains in sides and muscles, stiff, sore, aching joints, and bladder ailments.—ORANGE PHARMACY.

Making the Most of June

To enjoy the beautiful month of June to the utmost, one must be in good health. Kidneys failing to work properly cause aches and pains, rheumatism, lumbago, soreness, stiffness. Foley Kidney Pills make kidneys active and healthy and banish suffering and misery. Why not feel fine and fit? Be well! Be strong!—ORANGE PHARMACY.

LANGLOIS AND COMMUNITY

Mr. Thrift has purchased another car.

Messrs. Thrift, Woolley and others spent one day of last week in Bandon.

The Hawaiians gave a concert here last Sunday evening to a good sized house.

Mrs. Jno. Bowman and children returned to their homestead east of town the first of the week.

Mrs. Manwarning has returned from her trip to Bandon and other towns farther north. She is much improved by the trip.

Dr. Schmidt returned to Langlois the first of the week accompanied by his family. They are to live in the Frank Cox bungalow.

CURRY COUNTY NEWS

(From Port Orford Tribune)

Mrs. Dorothy Langlois, daughter of Mr. and Mrs. A. J. Marsh, and her little child, of Coquille, have been visiting the past week at her parents' home on Elk river.

Steve Spoerl, who went to Portland recently to meet his great grandfather and a cousin, Miss Perkins, returned in company with the two ladies last Friday. The party were driven from Bandon to the E. J. Baker home near Corbin by M. D. Sherman in a Dodge car.

N. C. Divilbiss and two sons from Bandon, and Ed. Divilbiss from Sixes, were in town Sunday, the former in his Buick six and the latter in his Dodge automobile. Ed. looks quite onesome riding around in his car alone, and admits it as lonesome as it looks. He is a genial, reliable young man with no bad habits, whom we gladly recommend as the making of a model.

Several workmen filed attachments last week in Justice Wright's court on the property of the Hydro-Sixes Mining company. C. C. Inman, superintendent of this company, recently made a loan-up that is said by those who saw it to be exceptionally good. Mr. Inman at the present time is in California and it is believed that as soon as he can be reached the difficulty will be settled. The mine, which is several miles above the Dr. Elgin place on Sixes, gives every indication of being a good paying proposition and many thousand dollars have been expended getting it in shape to work.

Joseph Fyfe of the Fyfe-Wilson lumber company who succeeded the A. F. Estabrook company in the business in this section, accompanied by his local agent, W. E. Best, came down from Bandon last week. These gentlemen went on to Wedderburn and were accompanied on their return by R. L. Macleay, and in a meeting with the Port Orford Wharf company Sunday Messrs. Fyfe and Macleay took an option for two weeks to buy the wharf. It is believed that the sale will be made without doubt, which event work will commence rebuilding the wharf as quickly as possible. While nothing definite has been given out, yet it is generally understood that the new wharf will be more substantial than any that heretofore been built at this place. The combining of the two companies represented by Messrs. Fyfe and Macleay in the ownership of the wharf, should be a good thing for Port Orford. It will probably mean that Mr. Macleay will make this the headquarters for much of his shipping which at the present time is being done through Coos Bay. Both of these gentlemen give the assurance that they will work in harmony with the people in every way possible to assist in the further development of the community.

(From Gold Beach Reporter)

Road Supervisor Whitworth of the Wedderburn district, in commenting on the work done of gravel hauling a few days ago, informed us that he kept accurate tab on gravel hauling in his district this spring, and that he put gravel on the road for \$1.25 per yard. That's a good record for team work, probably the best record made in the county this spring. If any other sections have done as well or better we should like to hear of it, and let the people know.

The walls of the cement reservoir on the hill were completed Monday, and in a few days the floor and surfacing will be put in, and a few piers built on the outside to give added strength. As the reservoir will hold between 25,000 and 30,000 gallons, there should be ample supply for household use this summer. Owing to small mains and service pipes however, the fire protection is scant.

Ample and good accommodations will be furnished at Hotel Langlois for those who wish to remain over for the dance in the evening.

Mrs. James Chenoweth gave a birthday party for her little daughter Emily, Friday of last week. Eight ladies and many children were present.

Fourth of July Celebration

Our posters have been well distributed thru the county and in Bandon, too, and we learn that many are planning to join us on that day. We are requested to ask those who contemplate joining us in the picnic lunch to bring well-filled baskets. We think no one will regret joining us for the day.

when the water company gets around to putting in large mains, the community will feel safe from fire.

FOUR MILE

Mrs. Ray Watkins and her brother, Errol, McNair, of Bandon, visited the De Long ranch Sunday last.

Our worthy road supervisor has been busy the past few days blowing tumps and turnpiking the strip of road on the Shaw ranch. Gradually we are drifting nearer to the outside world.

B. F. Taylor had the misfortune to lose a valuable cow last week. Some time during the night the animal in some manner broke a leg just above the hoof. Upon making the discovery in the morning Mr. Taylor immediately butchered the cow, it being in fine condition.

While slashing brush on the Cass Smith ranch a few days ago Fred Miller and his faithful dog discovered a nest of young bobcats. The old lady cat immediately got her "fish-hooks" at work on the dog, which tried to get protection behind his master. No witness being present, we are not in a position to tell just what happened as Mr. Miller is rather reticent about the matter. Nevertheless the old cat escaped and the dog killed several young bobcats.

Some fiend in human form hit our cheesemaker an awful wallop on the cheek but instead of turning the other cheek for a like dose our worthy cheeseman hurried to Bandon and wore out a warrant for the arrest of the pugilist. Now when any person or persons smash our cheesemaker's nap they have incurred the enmity of all of his patrons for with him "hors de combat" those that are drinking whey since Oregon went dry would suffer extreme hardships. We would advise this man to "cheese" nonkeying with our cheesemaker.

COOS COUNTY DAIRYMEN GO IN FOR IMPROVEMENTS

Eleven High Grade Sires Purchased Co-operatively—Rotation plan is Outlined.

The Coos County Co-operative Breeder's association has put the stamp of efficiency on its activities by making one of its first official acts the purchase of eight pure-bred bulls for the use of its members.

"These bulls are the best, pure-bred, registered animals that could be secured," says G. L. Hurd, who assisted in effecting the organization. They were selected from the best herds of the valley by W. A. Barr,

A Cereal

That is More Than
a Breakfast Food

Germea is more than nutritious. It is made from the very "life" of the wheat.

Germea is more than delicious. No one has yet succeeded in describing by word or picture the deliciousness of Germea. It's in the taste. Try Germea once and you'll know.

You get some idea of the goodness of Germea when you realize that but two per cent of the wheat selected is utilized in its production. In other words one hundred pounds of wheat makes but two pounds of Germea.

Try This Sperry Recipe Germea Cake

6 eggs, yolks separate 1/4 cup bread crumbs
2 cups powdered sugar 1/2 cup Germea
1 cup walnuts, chopped

Beat yolks separate, add sugar, work in Germea and crumbs and nuts, 1 teaspoon baking powder, then add beaten whites. Bake in layers and fill with whipped cream.

All Grocers sell Germea in the Sperry Air-tight Red Package. Order a package today.

Sperry Flour Company

USE YOUR TELEPHONE.

When we place the word "your" in big capital letters it is for emphasis.

It means not to borrow your neighbor's telephone.

When you use another's telephone you must not think that you are not causing inconvenience merely because the subscriber says he does not care.

While you hold the wire, there may be several calls for the line and "busy" reports have to be made.

With good telephone service available for everyone at low rates, there is no excuse for anybody to habitually borrow a telephone.

"Neither a borrower nor a lender be."

THE UNITED STATES CREAM SEPARATOR MOST SANITARY

The MECHANICAL WASHER and STERILIZER for quick and complete bowl-cleaning is pushing the old style, slow "hand-washing" methods to the back-ground.

The UNITED STATES is the only separator adapted to mechanical washing.

SOLID NICKEL SILVER used only in the skimming device of U. S. Cream Separators, is a metal that rust cannot touch. We guarantee it. With a surface always so smooth, and with the U. S. skimmer so free from obstructing corners and angles, Nickel Silver is remarkably easy to clean and, therefore, ideally sanitary.

The U. S. skimming device is composed of smooth, curved blades or plates open from center to circumference, through which the washing water is forced in tremendous current.

SOLID NICKEL SILVER is easy to clean anyway, but with the Mechanical Washer is cleaned in less than half the time of other skimming devices.

The SANITARY LINER is easily removed from the bowl chamber and washed with other parts. No milk comes in contact with the iron bowl chamber.

Let us show you these superior qualities.
