Manager H. B. Warner of the Bandon Beach Creamery has worked out and installed an improved method of pasteurizing cream. Under the new system this is now done away with, and Mr. Warner says his hot water pasteurizing method will aid him in keeping the product of the plant up to its summer standard of being the best produced in Southwest Oregon.

FROM Morris Heights

By J. J. MORRIS

George Henry sold his farm a short time ago and is now selling his stock. All of his registered Holsteins are for sale at very reasonable prices.

A self appointed critic goes out of his way to inform me that I use this small space for too many subjects. Very Well. But if we were all just alike and had the same ideas there would be no use of but one man. If I change subjects too often, I will ask my critic to just quietly put it down in his note book as one of my many faults.

When we are well and strong, how easy it is to bemean the doctors, but what a different view we take of them when we are down on our backs staring at the door.

I am always boasting of what a fine bed I have. I like a straight, solid and springless bed. Bert Peterson came down and stayed all night with me one night and after he crawled in bed he gave me a savage, threatening look and groaned pitifully as I blew out the light. Raising up his pillow he rapped loudly and said: "Now just how did you put this was fixed? Are the boards on top of the mattress or under it?"

After that he would have it a penitentiary matter.—Sentinel.

COWS PAID HIM \$1.50 EACH PER YEAR

One of the most interesting stories about benefits of cowtesting associations was told by J. L. Smith, county agent of Coos county.
