W. A. Hoover and L. M. Strong, two of the live boosters of the Dew Valley section, came in Monday night to K. of P. lodge. These gentlemen say the Knights is "the lodge", and no doubt the example they are setting of regularly attending is going to have its influence among Dew Valley people interested in fraternity.

FOUR MILE

By CLEM
A. McAdams of Bandon was a business visitor at the North Prairie ranch Sunday.

Earnest Hughs was a visitor at the DeOs ranch Sunday.
Carl Johnson returned home Monday after completing his job for the McNair Hardware Co.
C. F. Waterman was a Bandon visitor Monday.

Most of the ranchers have been feeding their stock during the frosty weather of the past two weeks.

There is always a bunch of calamity howlers in every community. For instance, we hear from numerous sources that the horse industry is down and out and there is no sale for them. We notice that contractors are securing teams for next summer's work even at this time and are offering \$6.00 per day for 8 hours. It is a safe bet that 90 per cent of our horses are in the cayuse class and not capable of doing a day's work such as horses are supposed to do. We are endeavoring to better our dairy herds by breeding to better sires. Some of the more enterprising have invested in high class hogs and are trying to further that industry by giving our ranchers the benefits incurred by them.

But where is the rancher that is trying to regenerate the horse! It does not necessarily require a well-bred mare to produce a draft colt. For instance, any good sound half-breed Percheron sire or any other heavy stock mare if mated to a well bred heavy sire will generally produce a good seller. Why not raise a few of the \$200 sort and find out how

easy it is to dispose of them? Canvass your locality and find how few of this class of horses you will find. Without a doubt there is ready sale for heavy horses if we only had them to offer.

DAVIS CREEK

By "WOODROW"
At last the welcome rain is with us again.
Andy McMullen and wife spent Wednesday visiting Bandon friends.
Art Gilbert of Bandon passed through on his way from Sixes river to Bandon.

Mr. Stankavich and sons are busy putting out a large patch of cranberries. It takes a lot of hard work and patience but in three years he will be well rewarded.

Chas. Davis of Two Mile was on the creek Saturday. He has finished the Hans Clausen ditch, which is a fine job, making land that was a swamp and mire into first class bottom land.

Abe Corson who had the misfortune to lose his home by fire, has moved into one of the Osborne houses. No need to cry over spilt milk, says Abe, just grab the pail and go to another cow.

The next big dance of the season will be held at Bug House hall on Four Mile Saturday eve, January 27. All are expected to bring well filled nose bags and a good dancing partner. Tickets are 50c which entitles the holder to fried chicken and wedding cake.

Just received fresh shipment of Creamed Horseradish at the Sanit-Grocery. Fine for lunches.

Friday evening, January 26, the annual Cook County Debating league contests are held. The subject is: "Resolved: That Oregon should adopt a Health Insurance bill embodying the essential features of the Standard bill drawn up by the American Association for Labor Legislation."

This bill provides for compulsory insurance of all manual laborers and all other wage earners whose wages do not exceed one hundred dollars a month, the cost of the insurance to be met as follows: 40 per cent by the employer, 40 per cent by the employee and 20 per cent by the state. The benefits include not only medical attendance, but cash payments of 66 2-3 per cent of the weekly wage beginning with the fourth day of disability on account of illness. The insurance is to be carried by district representative societies, subject to the control of a state commission.

The subject is one which has been discussed very little in this country until recently, when its advocates began to urge its adoption in a large number of states. England, Germany, France, Russia, in fact nearly all the countries of Europe, have had some form of health insurance laws for a number of years, and its adoption in some of the commonwealths of the United States is only a question of time. There has been discussion of the advisability of introducing a bill of that nature in the Oregon legislature, and all voters should make an effort to hear one of the county debates. The young people on all the teams have been working hard on the question, and a thorough discussion of the subject may be expected.

The two teams which will represent Bandon High school staged a trial debate Monday afternoon. Teams were composed of Dora Anderson and LeRoy Parker on the affirmative; Alice Gallier and Mary Haberly on the negative. The debate was won by the negative. The judges were I. N. Miller, Rev. Smith and Miss Kate Rosa. In addition to giving the teams a tryout, this debate afforded an opportunity to determine which student's name should be engraved on the silver cup that was presented to the High school by a recent graduating class with the understanding it should be held each year by the best debater in the high school. This honor was awarded to Mary Haberly.

Friday evening the negative team, accompanied by the coach, Miss Mooney, goes to Marshfield to meet the team representing that high school. The Bandon affirmative team remains at home to debate the Myrtle Point negative team. The debate will be held in the High school assembly at 8 p. m. A charge of 25c admission will be made.

The 8th grade pupils are anxiously awaiting returns from the examining board at Coquille. A larger number of pupils took the state examinations this time than at any previous mid-year examination, the total being considerably over a hundred. Of this number, twenty-eight were trying to secure diplomas, the remainder were taking the examination in physiology and geography, which examinations are offered at the end of the 6th and 7th grades.

This week the regular semester examinations are being held in grades and high school. Monday mornings the pupils will report to their old rooms and receive their report cards. They will then be sent to their new rooms and receive lesson assignments and lists of books. They will then be excused to purchase the new books required. The regular school work will be taken up in the afternoon.

All parents who have children to enter in the first grade are requested to send them to Miss Newton, in the Central building, or to Miss Dalton in the Eastside building. Children will not be allowed to enter the beginning grade after the second Monday of the semester, February 5th.

Mr. Shumate, representing Ginn & Co., publishers of text books, was a high school visitor Friday. This is the first trip of a Ginn representative to this section, as before the coming of the railroad bookmen considered this too strenuous a trip. His presence also recalls the fact that this month Gov. Withycombe appoints the state text book commission. As this commission selects the texts which the public school children of Oregon must use for six years, it is

a matter of considerable importance.

UNIQUE SHOW AT THE GRAND

Many Prizes to Be Given at Performances Tonight and Friday.

"Why Dollars Should Not Leave Home" is the title of a skit to be presented at the Grand Theatre in connection with the special prize giving performances and the regular line of pictures Thursday and Friday nights of this week. An advertisement in this issue explains the proposition and gives the names of the various merchants who are donating towards making the affair a success. Several hundred prizes will be given away, many of which will be worth many times the price of admission. Admission will be 15 cents.

It looks not only as if Kitchener's prediction of three years of war would be fulfilled, but as if the time may be extended.

The situation in England is rather confused, but no uncertainty exists as to which George will run the government.

FROM Morris Heights

By J. J. MORRIS

I have noticed that swearing goes along nicely around most homes until friend wife takes it up.

Flattery is always acceptable, nor can it be overdone unless it be laid on with a trowel.—Hubbard.

If there is any thing the public de- tests, it is a lot of noise about something you haven't got, but if you actually have the goods, by all means let the people know it. I intend to use at least one-fourth of this space each week in giving actual facts about a herd of Berkshires which to my knowledge is not excelled in this section of the country. No stock for sale at present.

Bandon has a man who knows human nature, who appreciates courtesy and who thoroughly understands his business; that man is John Dickey.

Next summer when the roads are good it is to be hoped that every merchant of Bandon will visit Dew Valley.

A. H. Thomas, superintendent of the Sixes River Mining Co., left on the Elizabeth for a business visit at the California metropolis.

Velvet Joe

They're the same—yet different.

They're both hats-on-heads.

Don't judge by externals.

Several kinds of tobacco come in tins. VELVET tobacco is put up in tins. But that doesn't make it like other kinds.

The finest selected leaf from Kentucky's richest Burley fields is only the beginning of VELVET. Then a full two years' ageing in wooden hogsheads—a matter of large storage and investment expense. Then a careful manufacturing method employing the widest experience of life-long tobacco men.

What goes into the tin governs the pipe satisfaction that comes out of it. And we believe you will prefer VELVET to any other pipe tobacco at any price.
