BANDON, COOS COUNTY, OREGON, THURSDAY, JULY 26, 1917

NO. 36

SERIAL NUMBERS AS DRAWN IN ROTATION

FIRST 483 NAMES IN COOS GIVEN AS SUBJECT TO CALL ON SECOND DRAFT.

None to be Furnished From Coos on First Draft But Probably 200 or More Will Go From Here as Second Quota—Probably 50 Per Cent Will Be Exempt.

The big military drawing took place at Washington Friday, lasting until early Saturday morning. A total of 10,500 numbers were drawn, representing the highest number of registered men in any one registration district in the United States. Coos county, as one district, has a registration list of 1957, therefore only those numbers under and including that figure affected this county.

The number of every registered man in the county was drawn and placed on the official draft list in the order in which it was drawn. For the first draft Coos county will not be called upon to furnish any men, as its quota has been filled by volunteer enlistments. But for the second draft this county will probably be required to furnish 200 or more. It is estimated by government officials that about 50 per cent of the registered men will be exempt, therefore if Coos county is to furnish, say 211, the county exemption board will call on the first 422 to appear for examination.

Space does not permit the publication of all registered men in the county in the order that they appear as subject to call, but the following list contains 483 which includes probably all that would be called on the second draft, unless the exemptions should exceed the estimated 50 per cent:

SALARY ORDINANCE IS AGAIN IN FORCE

NELS RASMUSSEN RE-ELECTED PRESIDENT OF THE CITY COUNCIL.

Mayor Topping Makes His Annual Appointment of Officials—R. P. Hunt Is Night Watchman—Measles and Other Diseases Discussed Other Minor Matters.

At a regularly adjourned meeting of the City Council Friday evening two new councilmen—Wade and Nielson—took their seat. Present were Mayor Topping, Councilmen Rasmussen, Nielson, Chatburn, Wade and Perry, Marshal Holman and other officials.

One of the first matters coming up was the election of a president of the council for the ensuing year. After several ballots Nels Rasmussen was again chosen to the position.

Mayor Makes Appointments
Mayor Geo. P. Topping made the following appointments of officials for the ensuing year: W. J. Sweet, city treasurer; J. S. Sawyer, city engineer (to draw no salary except when actually employed); F. A. Holman, marshal; David Morgan, water bailiff; R. P. Hunt, night watchman. The council approved the appointments.

City Salaries Again
Following a decision to increase the water bailiff's salary from \$70 to \$75 per month, the question of again placing the salary ordinance in force was raised by Councilman F. J. Chatburn. After some discussion it was voted to do so. Under this ordinance the recorder receives a total of \$190 per month, and the councilmen again draw their monthly stipend.

To Stamp Out Diseases
Mayor Topping reported he was working with the county health department, in making a determined effort to stamp out the epidemic of measles and whooping cough prevalent in this community. Parties having the measles are being quarantined, and people whose children have whooping cough admonished to take every effort to prevent spread of the disease. At least one death in the community was due to a combination of whooping cough and measles, and the authorities feel that the diseases must be stamped out.

To Give Asphaltum a Trial
Along lines of recent suggestions for preserving the planking on First street, the council instructed Marshal F. A. Holman to apply several square yards of asphaltum along First street to test out the value of the preservative. If the asphaltum is found to meet the requirements, a movement will be launched to cover the entire street with the material. Mr. Holman will also install some semaphores at the various intersections, directing the traffic from the center of the street to the outer sides where the planking is better preserved. The heavy traffic, instinctively following the middle of the street, has worn the planking almost away. Thoughtfulness of motorists and teamsters in driving along the sides of the street in the future will aid in keeping up the thoroughfare.

Other street repairs were discussed and left in the hands of the street and bridge committee, composed of Messrs. Perry, Nielson and Rasmussen.

Drinking Fountains Installed
It was reported that the drinking fountains had arrived and a committee of the mayor, water bailiff and Councilman F. S. Perry, was appointed to see to their installation. The two fountains were reported to have cost about \$45 each, which is paid out of the sums left by the late Col. R. H. Rosa. The city will pay for making and installing a wooden horse trough at the public hitching grounds.

The report of City Treasurer Lowe and the recorder's report were heard and approved as read.

DRINKING FOUNTAIN INSTALLED
Fine New Sanitary Conveniences Grace City's Business Section.

Bandon now has two fine new sanitary drinking fountains. They were installed this week, one between the K. P. building and the Ellingson building, and another in front of the Rasmussen property. They are white enameled and very attractive as well as convenient. Purchase was made through the Bandon Hardware company by a committee of the New Era Club and a committee of the City Council. The funds were obtained through donations for the purpose a number of years ago.

OFFICERS ARE ELECTED

Few Changes Made in Official Personnel of New Era Club.

The semi-annual election of officers took place at the regular meeting of the New Era Club last night. The club's activities the first six months having been so satisfactory all but the secretary and assistant-secretary were re-elected. The latter, Guy Dippel and L. W. Turnbull, asked to be displaced on account of too much work of a similar nature. Their places were filled by Robert Covell as secretary and R. B. Corson as assistant-secretary. The other officers are: President, A. S. Elliott; vice president, E. H. Boyle; treasurer, L. E. Gallier; sergeant at arms, J. H. McDermid.

Various committee reports and other business matters were considered. The club decided to give its support to a minstrel show to be given for the benefit of the club in the near future. It will be under the direction of Prof. A. Richards, who is getting his forces together.

Has Accident on Grade

C. Gorman, the auto machinist who had been about town in a red Pierce Arrow of the 1911 model for some time, left for Roseburg the first of the week. While going up a steep grade this side of Camas valley he tried to shift from second down to low gear, but the gears didn't catch and neither did his brakes when he started back. The car ran down the grade backwards for about 60 feet and was gaining speed all the time when Gorman swung it towards the hill. It climbed a big rock pile and tipped over falling seven or eight feet down into the road. It landed on the side, spilling the occupants out among the rocks. Gorman had his leg fractured, his wife and little son were severely bruised about the head and his father-in-law, Geo. Willis, was also badly hurt. The car was badly broken up and Gorman sold the remains on the spot for \$175. S. G. Whitsett who had passed the party previously on the way to Roseburg was called back to haul them in. Mr. Willis continued on his journey to Oakland but the rest remained at Roseburg and may return to Bandon.

PHILIP-GIBSON WEDDING

County Commissioner's Son and Local Young Woman Wedded.

Miss Grace Gibson, daughter of Mr. and Mrs. L. C. Gibson of this city, and Percy Philip, eldest son of County Commissioner and Mrs. Archie Philip, were married at Coquille at 4 p. m. Saturday, Rev. H. M. Law officiating. They left immediately for Lakeside and after a few days visit with the parents of the groom went to Portland.

The bride is a popular member of the younger social set of this city and is a graduate of the local high school. The groom is a hustling young man well known throughout the county, having conducted auto stage lines between Bandon and Marshfield. He is now employed by the Southern Pacific, having charge of a round house at Timber, Ore., where they will make their home. He tried to join the engineering regiment which is to be sent to France but the government would not take him from his present post with the railroad, as railroad men are considered important in present positions during the war.

Shipping Curry Hogs

A shipment of about a hundred Curry county hogs will be made from Bandon Saturday of this week. They are now being hauled in, three loads having arrived this morning. They were brought in by R. E. Cope, Ralph Bunn and H. H. Hansen, all of the Langlois section. The shipment goes to J. E. Ford of Marshfield, who paid the producers 13 cents a pound live weight delivered at the local wharf. That is considered the highest price ever paid in this part of the country for porkers and is about twice what the producers here received last year at this time.

Butterfat Brings 60 Cents

R. E. Cope, manager of the Langlois Dairy Products Company, who was in the city today stated that his company for April paid 60 cents for butterfat.

Certainly a Big Egg

Mrs. J. D. Mitchell has the champion hen in the county. At least she ought to have that distinction, for one of her black minores this week produced an egg that measured 6 3/4 inches in circumference the small way and 8 1/2 inches in circumference the long way. With that size eggs the price could well go up a dime or two a dozen without hardship on the consumer.

SHORTAGE OF LABOR IN CAMPS AND MILLS

LUMBER INTERESTS REQUEST COUNTY COURT TO REDUCE CREWS ON ROADS.

Say High Wages and Shorter Hours Offered by County Plays Havoc With Their Forces—Tentative Agreement Made to Reduce Number of Employees Where Possible.

The lumbering and timber interests of the county have appealed to the County Court to stop some of the road work outlined for this summer, so as to relieve some of the men employed for work in the mills and camps. They claim that the shorter hours and \$3 a day wage paid by the county has attracted many of their men and the mills are being handicapped on account of shortage of men both in the plants and in the camps. Owing to the fact that the lumber is being needed for shipbuilding Governor Withycombe has also interceded the County Court for the mill interests.

At the meeting held Friday it was tentatively agreed not to start any new projects and adopt the policy of retrenchment wherever possible. Only Judge Watson was present and the action will be up for approval by County Commissioners Armstrong and Philip at the August session.

To learn the facts regarding the desertions from mills and lumber camps a poll of the workmen engaged on the road works has been authorized and is now being taken. About 500 men are engaged in the road work. Roadmaster Murdock says few were formerly employed in lumbering or logging.

It is reported that owing to its urgency the road from Bandon south may be made an exception to the retrenchment plan. But on the smaller contracts it will suit the contractors better to work less men and take more time.

CARRIED HIM OUT OF HILLS

Ten Men in Relays Carry Harold Stutsman on Stretcher 8 Miles.

Harold Stutsman was brought to the Houston hospital last Thursday from the New York Underwriters Syndicate mining property on upper Sixes river. He has been under Dr. Houston's care and is now much improved. His condition while at the camp was very critical and he had to be rushed out as quickly as possible. C. C. Inman, who accompanied him here, states that it took ten men, working in relays, to carry the young man out over the trail to the road where they could be met with an automobile. An improvised stretcher was made of long poles on which he was carried a distance of eight miles through the mountains and down Sixes river. It was necessary to ford the river six times and at some places where the current was very swift.

Salmon Season Opens Here

Sam Nass of Astoria arrived at Prosper Sunday and is getting his salmon cannery in shape for the season's run. His crew of Chinamen will be here in a few days. The season is open and fishermen have been out off and on for several days but with little success. The run proper has not yet started, but more salmon are looked for this year than for several years back.

To Open Sanitarium

Dr. Fred Covell, chiropractor, has rented the Dyer building opposite the Gallier Hotel and shortly after the first of the month will open the Bandon sanitarium. He intends to install hydro therapy, thermo therapy, electro therapy and chiropractic, and will also give suggestions in diet. He will be assisted by a nurse and attendant.

Conditions Serious in North

Rev. E. F. Omann of the South Methodist church returned the forepart of the week from a two weeks' trip to Washington and northern Idaho points. He delivered several Y. M. C. A. addresses and solemnized one marriage while gone. Rev. Omann says that Portland is alive with the military spirit but at Spokane there is practically no military evidence, save a large Red Cross banner. Very few flags are seen. He says that the I. W. W. element thru strikes has caused practically all large industries in that part of Washington and in northern Idaho to shut down and conditions are getting very serious there. Mr. Omann has not yet accepted a pastorate for the ensuing year, but has several places in view.

FIRST FORTY-TWO TO BE CALLED IN CURRY

From These Twenty-One Will Be Selected to Make Up County's Quota in First Draft.

Curry county must furnish 21 men in the first army draft. The first 21 to be called for examination are the following:
258 Elmore Spurgeon, Port Orford
275 Wm. Thos. Waggle, Brookings
126 Dallas E. Hardenbrook, B'kings
107 Oren F. Grason, Port Orford
43 Walter Lee Custer, Wedderburn
10 Corretini Antonio, Brookings
140 Chester F. Jackson, Harbor
18 Dale Bement, Denmark
182 Charles Mentl, Brookings
46 Jas. Wilson Crew, Denmark
223 Harrison B. Plaisted, Brookings
117 J. D. Hawkins, Langlois
75 A. Ellis, Port Orford
280 Karl V. Willit, Agness
194 C. B. Miller, Gold Beach
298 G. Donnell, Brookings
15 Henry Lewis Bossen, Langlois
218 H. A. Pearse, Port Orford
31 Wm. R. Bailey, Gold Beach
183 Dillen W. Miller
56 Ernest Lewis Casel, Brookings.
Since the government estimates that the exemptions and discharges will amount to about 50 per cent, a second list of 21 will in all probability be called to furnish the balance after the first list is exhausted. The second 21 are:

- 5 Clemmie Atkinson, Denmark
- 54 Henry Calvin Cooper, Brookings
- 269 L. Tolman, Brookings
- 72 Geo. L. Edwards, Langlois
- 112 T. G. George, Brookings
- 128 Floyd J. Huntley, Gold Beach
- 11 H. Geo. Andrew, Brookings
- 6 Thos. R. Alexander, Sheridan
- 93 James Edward Fielder, Harbor
- 103 Harry V. Gauntlett, Gold Beach
- 154 R. A. Keiser, Harbor
- 51 Jas. D. Campbell, Brookings
- 30 Arthur J. Bailey, Gold Beach
- 199 Chas. H. Miller, Brookings
- 25 Claude C. Bentley, Brookings
- 122 Chas. J. Haagensen, Denmark
- 222 John Peterson, Brookings
- 297 John H. Zunwalt, Port Orford
- 121 Geo. Wm. Hendrix, Smith River
- 221 Peter Francis Pidaucet, Br'kings
- 292 J. H. Unican, Port Orford
- 99 Leo. Fry, Marial.

If after the second list is exhausted the draft of 21 is not complete, a third list of 21 will be called for examination, etc., until 21 eligible men are secured.

SINALOA TAKEN SOUTH

Disabled Steamer Pulled From Reef at Blanco Is Now at 'Frisco.

The disabled steamer, Sinaloa, which last week was pulled from the Cape Blanco reef into deep water by Captain Curtis' wrecking crew, was due in San Francisco last evening. She was first taken to Port Orford where temporary repairs were made by divers and on Monday morning left that port in tow of a large tug for San Francisco where she will go on dry dock.

R. C. Ostrander, who was here from Port Orford Tuesday, stated that the vessel was leaking at the stern and that a gasoline power pump had been installed to keep the stern hold bailed. Ed. Lindberg, the Port Orford garage man, shipped with the vessel in charge of the pumping apparatus. The crew expected the trip to take three days. Another tug took the wrecking barge in tow for San Francisco at the same time. It is reported that one of the large anchors used in pulling the vessel off was lost in the operation when the line snapped and has not yet been recovered.

A Most Excellent Program

The patriotic meeting of Knights of Pythias, held at the local lodge hall Monday night, was an unqualified success. The program arranged by C. F. Pape was given. A much enjoyed piano selection by Ralph Moore and bass solo by Otto Neuman, accompanied by Guss D. Gross, preceded the main address of the evening by T. T. Bennett of Marshfield. Mr. Bennett spoke at length along patriotic lines and carried his audience's attention to the last word. Other speakers were Edgar McDaniel of North Bend, J. W. Mast of Bandon, C. B. Zeek and Mr. Osborne. Mrs. C. F. Pape rendered a reading, "The Cheerful Hostess," and responded with an encore. About seventy-five were present.

WORLD HONOR ROLL

Those who favored us during the past week are:
M. Nordstrom, Bandon
Roy Rozelle, Marshfield
Mrs. J. L. Conser, Los Angeles
W. F. Perry, Bandon
E. M. Neel, Bandon
Victor Backlund, Bandon
D. P. Jenkins, Bandon.
