Millinery Opening Aids Red Cross Instead of the usual refreshments being served at Mrs. Morrison's millinery opening Saturday of this week, the occasion will be governed by the Red Cross spirit. The amount usually spent by Mrs. Morrison for refreshments will be put into a contribution bowl and all the visitors will be given an opportunity to make small additions to it. The money will be turned over to the local auxiliary of the Red Cross.

John Sarginson, auditor for the Insurance Department of the State of Washington, arrived in Bandon from Spokane last week to join his wife who had been a summer visitor at the home of their daughter, Mrs. A. WOMEN TO REGISTER

The Woman's Committee of the Oregon Council of Defense, through its chairman, Mrs. Charles H. Castner of Hood River, has designated Saturday, September 15th as official registration day for the women of this state.

This registration is wholly voluntary and is for the purpose of the federal government becoming familiar with the women power of the state—listing all girls and women, both trained and untrained, for work in the government service in some capacity, should it be found necessary for the nation to call upon the women of the country to take the places of men in industry in order that men may be released to join the colors. It is also essential so that trained female help may be secured for government positions and positions directly connected with military affairs that can be filled by women.

To Sell Life Insurance

J. T. Sullivan, for many years connected with the Hub Clothing and Shoe company stores and for a number of years manager of the Bandon branch, has resigned to accept a position as district manager of the Oregon Life Insurance Co., says the Marshfield Times. Mr. Sullivan has been a resident of the Coos Bay and Coquille Valley country for ten years and is among its best known and most popular young business men. He will bring to his new position an extensive acquaintance and business ability that assures him success. His present territory will embrace Coos and Curry counties.

KEEP OUT OF WOODS: SOLDIERS MIGHT SHOOT

All persons entering the forests must be extremely careful at this time about lighting fires. This is not the Fire Marshal's warning of the usual type. There is a very urgent reason for this warning, says Adjutant General White. The woods are just now filled with military patrols with rigid instructions to shoot public enemies caught setting fire to the forests.

Therefore, it is doubly necessary to be careful as military patrols, while instructed to exercise every precaution, might possibly make a mistake.

These military patrols are operating in every part of Oregon where forests are to be found. Their location is not revealed for obvious reasons. They move from place to place and keep to cover as much as possible. Their task is that of hunting down public enemies who have been firing the Oregon forests, and they are under orders from the Western Department of the Army to deal instantly and vigorously with such public enemies.

So if necessary for you to go into the woods, be careful about lighting fires. No doubt it would be better to keep out of the woods unless you have urgent business therein.

The Charges Made

The text of the recall charges and request that an election be called is

"We the undersigned, legal voters of Coos County, Oregon, do hereby petition and demand that (the officials) who are now holding the offices of county judge and commissioners, in and for Coos county, Oregon, be recalled; and we hereby demand that the county clerk of Coos county, Oregon, call an election for that purpose, in the manner provided by law. The reasons for this demand are: The said officials have proven themselves to be incompetent, extravagant and unfaithful to the interests of their constituents. They have been instrumental in wasting thousands of dollars of public monies. They have retained incompetent men in the employ of the county. They have employed incompetent men at extravagant compensation to perform services which other officers of the county were already paid to perform. They have wasted the funds of the county in the building of roads, bridges and other structures that were not needed, or were so constructed as to double and treble their reasonable cost. They have expended the money of the county for their own benefit and the benefit of their personal friends, without benefit to the people at large. They are unfitted to administer the business of the people."
