A Child's Savings May Shorten The War

The war is costing the combined allies more than \$30,000,000 an hour. The daily fate of this huge sum is simple waste. A shortening of the war by days or even hours would mean the redemption of colossal waste.

We must bend every financial effort towards shortening the war. Every small amount invested by a child in Thrift Stamps tends towards this end. The influence of every Thrift Stamp purchased is a little momentum toward earlier victory.

Thus a child's savings may be instrumental in definitely shortening this war and in saving many times its own value in money, to say nothing of conserving human life.

Encourage your child to invest in 4% interest-bearing Thrift Stamps instead of merely hoarding his pennies in a tin bank.

Thrift Stamp cost 25 cents each and may be bought at the postoffice, from your mail carrier and at most stores.

AND NOW THEY ARE COOKING TOBACCO TO MAKE IT BETTER

For a good many years The American Tobacco Company have been conducting a series of experiments having as their object the improvement of smoking tobaccos.

And it is interesting to know that one of the greatest of their discoveries was one of the simplest, and that was, that cooking or toasting tobacco improved it in every way, just as cooking most foods improves them.

They took a real Burley tobacco, grown in this country; toasted it as you would toast bread; moistened it to replace the natural moisture driven off by toasting; made it into cigarettes, called them "LUCKY STRIKE, the toasted cigarette," and offered them to the public.

The result has been the greatest demand ever created for any tobacco product in a similar length of time.

The change produced by toasting is not only most wholesome, but the flavor is greatly improved, just as cooking improves meat, for example.

However, when dry weather comes things will be better, and when the gravel surface is placed in commission most of the energetic ranchers down the coast are going to join the automobile boosters.

A Valentine surprise party was tendered to Mr. and Mrs. Hans P. Clausen of Four Mile by a jolly bunch of neighbors the evening of February 13th. A very enjoyable time was had. The evening was spent in dancing, singing and music. The crowd voted that even if taken by surprise, Mr. and Mrs. Clausen are royal entertainers, and the event a memorable social affair.

Wm. H. Wygant, one of the visiting ranchers of the Butte creek section, just across the Curry line near Langlois, was a Coquille visitor Tuesday, where he was a witness in a case in court. CRESCENT MAPLEINE

WANTED-AMERICANS!

There are 90,000,000 of us in the United States—all in the family of our own Uncle Sam.

And Uncle Sam needs money—your money—everybody's money. He doesn't ask you to give it to him; he wants to borrow and pay you interest for it.

Maybe you didn't have \$50 or \$100 to lend him in Liberty Bonds, but surely you have 25 cents. If we, all of us, buy one thrift stamp—just one stamp apiece—that is \$22,500,000, and if everyone of us buys \$4.12 worth—25 cents worth from time to time for sixteen times—that's \$370,800,000.

Your pin money does help. Doesn't it?

We don't know how much money you have—how much—how little. It doesn't matter, anyway. For it is getting to a point that every man—every woman—every boy—every girl—must make the business of helping win this war—the most important thing on earth.

Like the Liberty Bonds, the war savings certificates bear 4% interest. On January 1, 1923 each certificate will be worth \$5. These stamps are exchangeable at face value plus accumulated interest at any time between now and January 1, 1923.

You can buy from your mail carrier or at the Post Office.
