SANITO GROCERY
"Where Every Penny Does Its Bit"
 Cash and Carry The Best for Less

Local News

BIRCH, the Optician, will be at Sabro's Monday, March 4th. 2tc

Try our penny system; It's the Ceusable way—Sanito Grocery. 1t

W. A. Hoover came up from his Laurel Lodge Ranch Monday evening to take in Knights of Pythias doings.

Edward Bell and Ralph Fox, who are working in the Coos Bay shipyards, visited home folks in Bandon over the week end.

Mrs. C. A. Dano was over on the Bay the latter part of the week as a guest at the Mair Dano home. She returned to Bandon Monday.

Mr. and Mrs. C. D. Plauder, who had been guests of the F. E. Drane home at Parkersburg the past week,

left the first of this for their home at Albany.

Mrs. B. N. Harrington of St. Johns, Ore., a suburb of Portland, is in Bandon as the guest of Mrs. F. A. Holman and other relatives and friends for a few weeks.

David B. Seger of Portland was in Bandon Monday, interviewing the metal trade. This is his first visit to this section with which he was most favorably impressed.

Mrs. W. E. Craine returned a few days ago from a visit to Portland and Eugene. At the latter place she was the guest of her daughter, Miss Pearl, at the University of Oregon.

Edward J. Wieder of San Francisco, with the Crowley Tug company, visited with his sister, Mrs. Fred Tuttle and other relatives, a few days ago, while enroute home from a business trip to Seattle.

Examination of all men in class one under the draft has been finished in the county. The exact number certified for military service has not yet been determined, but is believed to total approximately 500.

Frank E. Thompson, says the Marshfield Record, is surveying the roads in the vicinity of Bandon to see if the Duplex four wheel drive auto truck will operate here. He is sales agent for the Duplex.

S. P. Selcoe of Sixes, former joint representative for Coos and Curry counties, has successfully passed the examination for enlistment in the U. S. army engineers at Portland recently, according to word received here.

W. L. Beach has completed the job of moving a large boiler from the DeGesen place south of town to the waterfront here where it was loaded onto a scow for shipment to the Riverton Fuel Company's mines at Riverton.

The ladies of O. E. S. are planning a seven o'clock dinner the evening of March 8th to initiate new dishes and silverware which the lodge recently purchased. The affair will be open to members and families, and visiting members.

BIRCH, the Optician, will be at Sabro's Monday, March 4th. 2tc

H. J. McDairmaid is back from attending the big anniversary celebration of the Elks lodge at Marshfield. Mack got back happy and whole although he has all the earmarks of a man who had just enjoyed the time of his life.

H. E. Boak, who had been ill for several weeks, is meeting his friends again at McNairs Hardware store. Mr. Boak has improved greatly during the past week, but it will be quite a while yet before he will be strong enough to do very much work.

DR. F. A. VOGEL, Dentist, has moved from the First National Bank building to the room formerly occupied by Dr. Scofield in the Ellingson building. First door to the right at head of stairs. O11tf

John Nestor Lynde of Bandon, has made application for U. S. citizenship papers. His case was up for consideration last week, but owing to the fact he had only one witness, instead of the required number, his hearing was postponed until sometime this week.

Dale Barker, a former Bandon resident who for the past three years has been at Bend, Oregon, has returned and may decide to again remain here permanently. Mr. Barker's family had been visiting at Myrtle Point for a short time and has now joined him here.

Supt. E. W. Gates of the Coos and Curry Telephone company, was over from Coos Bay Monday transacting business for the company. Since J. E. Montgomery went to war Mr. Gates has assumed the duties of the latter in addition to his own, all of which keeps him hustling.

Oscar Farris returned Saturday from Salt Lake City where he had been employed for some time. He had also been in Texas and other states, working on the army cantonments under construction. He was called home to take the examination under the draft and being placed in Class I he has decided to remain close to home awaiting the call. For the present he has taken a job in the spruce camp at Lakeside.

THEIR GENIUS
made them great---
THE VICTROLA
makes them immortal.

The artists whose names are mentioned here have won the applause and affection of the public for the beauty, the comfort, the entertainment, and the uplift of their matchless art, as expressed upon the stage and to that far vaster, world wide audience who know them by their VICTOR RECORDS. As long as there are ears to hear, their VICTOR RECORDS will preserve their living, breathing emotions, their infectious laughter, the exquisite, tremulous notes of their inspired instruments. Their art can not die.

Get the New Victor Record catalog—the most complete catalog of music in all the world. We will gladly play for you any Victor Records.

drills to the students and also spoke to the boys about military drill which has been taken up in high school.

On the morning of February 13, the subject of thrift stamps, military drill, and oratory were discussed by Mr. Turnbull. He expects a large number of students to take part in the oratory contest this year and as we have some very good material to pick from we are hoping they will do their best for Bandon High. A number of high school students are canvassing the town for thrift stamps for the government.

JOKES

Mr. Ervin in Algebra—Don't receive help from any pupil in the class.

Bobble—We went. Mr. Gates still has the ten-forty period.

Lillian's boots have lost their shine.

He—I have to laugh every time I see that coat.

She—I'll leave it around when the bill arrives then.

Randy—I struck a man in self defense today.

Spencer—How was that?

Randy—He was going to ask me for a quarter, and I struck him first.

Visitor—I see Bill is in the band.

Edna Dippel—Yes, but we don't brag of it.

John—Why don't they use stoves in the army?

Ray—The enemy would get their range.

Bill Blundell's candy blacksmith—There goes a newlywed.

Ila—How do you know?

Bill—Because he used to get three pounds of candy a week; now he gets one-half pound per month.

Things we want to know:
 Who cuts our jokes?
 Who is guilty of not buying a student body ticket?
 Why Harry DeLong gets "A" every month?
 Why Miss Conner does not have a boys' cooking class?
 Joe—if I was to kiss you, would you call for help?
 Dorothy—Would you need it?

Charles E., while pestering Mike in algebra class.

Mike—Do you want to fight?

Charles—Yes.

Mike—I'll hold your coat.

Mr. Gates in Physics class—Leonard, is there any liquid that won't freeze?

Leonard—Yes, hot water.

Senior—Do you think the cigarette habit affects the brain?

Doctor—That question can never be answered, for a man of brains has never discovered smoking one.

Spencer—Can you give me an example of a temporary parasite on man?

Foots—Well, I don't know, unless it is a flea.

John—So that's your new tie, eh? Why on earth did you select such a loud pattern?

Mr. Gates—I didn't select it. My friend did, and he's slightly deaf.

Jesse B. in Geometry—Well, er—er—er, Mr. Gates, how can three faces meet in a common point?

Two Irishmen had been fighting the mosquitos in a New York tenement house. About two o'clock they finally got to sleep. While in a half doze a lightning bug came flying into the room. "Johnnie, Johnnie, it's no use," exclaimed Pat, "Here's one of the creatures searching for us with a lantern."

Our motto—Lettuce have peas, sweet peas.

Mr. Gates in Greek History—Sylvia Marshall, describe the sculpture of the Parthenon.

Sylvia—I can't; I never saw it.

Teacher—What is worse than a giraffe with a sore throat?

Little boy—A thousand legged worm with corns.

ECONOMY is the Household Watchword of the present day. With the shortage of food stuffs throughout the world—especially fats—it devolves upon us to exercise our own best individual judgments in cooperating with the Food Administration in order to best carry out the intent and purpose of the Federal Food Regulations. Observe the regulations in the spirit in which they are made—to help win the war. We want to cooperate with you in the line of meats, doing everything within our power to bring at your disposal the products of this community and to prepare them for you at the most economical price possible. Confine your meat consumption as far as possible to that which does not have to be shipped in, thus affording a market for local produce and at the same time not taking away from other communities that of which they themselves are in need.

WANTED-AMERICANS!

There are 90,000,000 of us in the United States—all in the family of our own Uncle Sam.

And Uncle Sam needs money—your money—everybody's money. He doesn't ask you to give it to him; he wants to borrow and pay you interest for it.

Maybe you didn't have \$50 or \$100 to lend him in Liberty Bonds, but surely you have 25 cents. If we, all of us, buy one thrift stamp—just one stamp apiece—that is \$22,500,000, and if everyone of us buys \$4.12 worth—25 cents worth from time to time for sixteen times—that's \$370,800,000.

Your pin money does help. Doesn't it?

We don't know how much money you have—how much—how little. It doesn't matter, anyway. For it is getting to a point that every man—every woman—every boy—every girl—must make the business of helping win this war—the most important thing on earth.

Like the Liberty Bonds, the war savings certificates bear 4% interest. On January 1, 1923 each certificate will be worth \$5. These stamps are exchangeable at face value plus accumulated interest at any time between now and January 1, 1923.

You can buy from your mail carrier or at the Post Office. Buy your first one today.

Our Service
And What It Means to You

YOU CAN AVOID COSTLY BUYING MISTAKES

Instead of Buying Blindly from Pictures in a Catalog You Can See the Real Implement Before You Buy.

This is the best year you ever saw to buy good implements, and the worst year you ever saw to buy poor ones.

Crop prices are sure to be high. All that you will have to do to make big money will be to raise big crops. And getting big crops will depend largely upon the kind of implements you use.

You can't afford to risk any implement uncertainty. Inferior implements will mean the loss of the extra bushels and extra tons that the use of good implements gives. Remember, the extra bushels and extra tons will mean a lot this year—much more than enough to pay for good implements.

See before you buy. Be sure that an implement is what you want before you let it work for you. Avoid the expensive delays of sending an unsatisfactory implement back to some distant concern and getting in exchange another of unknown quality.

Our service prevents costly buying mistakes on your part. You can come to our store—take full advantage of our stock, study the implements, get fully acquainted with their every feature, and buy judiciously.

That way of buying will help you get the most from the big year that is coming. Drop in the next time you are in town and see our stock.
