

FACTS & FIGURES

HOW MUCH DO YOU SPEND each month for groceries? Say \$35.00. Our Cash and Carry system saves you 8 to 16 cents (average of 12 cents) on every dollar spent at our store. That is \$4.20 per month or \$50.50 per year. In these times of war when we are asked by our government to save in every possible way can you pay over \$50 per year to have your groceries delivered to you and charged on account? Can you do it without having your conscience pricked just a little?

\$50.00 will buy 200 Thrift Stamps. Are you going to sacrifice 200 Thrift Stamps for your personal convenience, even if YOU CAN AFFORD IT?

When the boys at the front are risking their lives and the people of our Allies suffering innumerable hardships shouldn't we willingly and voluntarily do without some of our modern conveniences?

Whether you trade at our store or some place else, if you buy groceries, meat or drygoods **PAY CASH AND CARRY IT HOME.** You will reduce the Merchant's cost of doing business and encourage him to adopt the system advocated by the Government.

And What It Means to You

YOU CAN AVOID COSTLY BUYING MISTAKES

Instead of Buying Blindly from Pictures in a Catalog You Can See the Real Implement Before You Buy.

This is the best year you ever saw to buy good implements, and the worst year you ever saw to buy poor ones.

Crop prices are sure to be high. All that you will have to do to make big money will be to raise big crops. And getting big crops will depend largely upon the kind of implements you use.

You can't afford to risk any implement uncertainty. Inferior implements will mean the loss of the extra bushels and extra tons that the use of good implements gives. Remember, the extra bushels and extra tons will mean a lot this year—much more than enough to pay for good implements.

See before you buy. Be sure that an implement is what you want before you let it work for you. Avoid the expensive delays of sending an unsatisfactory implement back to some distant concern and getting in exchange another of unknown quality.

Our service prevents costly buying mistakes on your part. You can come to our store—take full advantage of our stock, study the implements, get fully acquainted with their every feature, and buy judiciously.

That way of buying will help you get the most from the big year that is coming. Drop in the next time you are in town and see our stock.
