Royal Baking Powder Company, 106 Wall Street. New York

A Rattlesnake Sample.

E. O. The stuffed remains of a gigantic rattlesnake were sent down Tuesday by stage from Camas prairie by J. B. Despain to S. P. Gould. The reptile is minus its head, and twelve inches of the body are altogether said to be absent, but four feet of it remain, and when in life it must have been a formidable looking creature. The Gholson's family went up to Meachsnake is remarkable only for its am this morning after huckleberlength, a curious fact being that ries. its tail is ornamented by only ten rattles.

Unfortunate Accident at Mission.

E. O. A large pile of wheat sacks, nearly 500 in number, fell at the North Pacific Coast Elevator Company's platform at Mission, Saturday, some 200 of them bursting. The cart of Foreman A. D. Blue, of Athens was converted into a shapeless week. A moment or two before ar. Blue's little daughter would have been caught in the avalanche, as she had just left the cart. The accident is ascribed to the fact that part of the to bear the strain upon them.

"The company has further given notice that these rates are for towage only, and that all pilotage fees must be paid direct to the pilots.

"With regard to pilotage we are informed that the pilots now reto which they are entitled by statute, with the result that the charge on the ship is greatly in-

creased. "The results of these changes is to impose on a ship a charge two or three times as great as formerly, e. g. a large ship now about to leave the port has had to pay \$1700, whereas before the recent changes she would have been charged \$600 only, which was the maximum charge on ships of be-tween 1600 and 2100 tons regis-

"This increase in expenses should not be overlooked by shipowners when treating for freights from Portland."

The ship referred to is said to be the Crofton Hall. No one can now contend, it would appear, that the effect of the new law will be otherwise than to increase the expense of the port. The idea of those who in good faith contended for the bill, and succeeded in so mystifying the country members that they passed the measure blindly, seems to have been that the Union Pacific could in this way be forced to pay for a better service, and is thoroughly refuted by this paragraph printed in italies in the company's towage tariff sheet.

"Rates named above are for towage only, and do not include either bar or river pilotage; and all pilotage fees, if any, must be paid direct to the pilots. The company does not assume any responsibility sary detention of towboats causes by any fault of the ship or pilo thereof will be charged for at the rate of \$8 per hour in addition to the above rates."

As has been explained before, the Union Pacific has charged the will safely reimburse itself for wha offset the lessened freight tariff in Washington under the Anderson rate law. The Palouse country farmers, therefore, will get about as much for their wheat under the Tacoma-Portland competition as if the pilotage law here had been unhave to pay the increased expenses of the port in lower prices for their wheat than they would otherwise have obtained. For relief they must look to the next Legislature. -[Oregonian Aug. 4.]

The farmers of Eastern Wash-

ington as well as those of the Wil-Ismette Valley and Eastern Gregon should take heed of the conditions concerning terminal charges at the markets of the Northwest, as prices for their products are vitally affected by the conditions ruling in revessels from sea to sea. As stated in the foregoing "the farmers will have to pay the increased expense of the port, in lowering prices for their wheat." Therefore, it is well for the producers of all sections wherever possible, to see that their products are placed in such posiever remain so. aug-25-1t
