### THEIR HEADS TO COME OFF.

Chinese Officers Who Showed Cow-  
ardice Condemned to Death.  
The following advices from the  
Orient have been received by the  
steamer Empress of Japan:  
The situation is becoming more  
complicated since the arrival of  
Viceroy Lui Kun Yih, Li Hung  
Chang's greatest enemy and head  
of the Human faction. The first  
evidence of Lui Kun Yih is the is-  
suing of a decree condemning Ad-  
miral Ting, Kung and Taolai to  
death, and all other officers in com-  
mand of divisions yet alive who  
showed cowardice, before, after, or  
during the battle. By this sweep-  
ing decree none of the admirals or  
generals escape. The decree states  
that as they are responsible for ne-  
cessary fall of Port Arthur death  
must be their penalty.  
Officers have been sent after Ad-  
miral Kung with instructions to  
bring him back alive or leave his  
dead body to the vultures. Kung  
will surely be taken. He is in hid-  
ing at Yan Chow. Kung is a  
brother of the Chinese minister  
to England, and up to a recent  
date under Li Hung Chang was a  
very powerful politician at court.  
Lui has selected Kung for his spe-  
cial revenge on account of his en-  
mity to Li Hung Chang. Lord Li  
another impeached admiral is in  
hiding and is in communication  
with Kung Government spies have  
reported these facts to the author-  
ities so that his capture is certain.  
Admiral Ting is locked up with  
his fleet at Wei Hai Wei. It is  
said if he learns of his fate he will  
cheat the executor as he is extrem-  
ely proud and will not live to sat-  
isfy the hatred of his old enemy  
Lui.

means was used to resuscitate it,  
it could not be revived.—Milton  
Eagle.

Want But One County.  
A remonstrance protesting against  
the passage of an act to divide  
Umatilla county is being generally  
signed, says the Pendleton Tribu-  
ne. It is addressed to the Oregon leg-  
islature and states several explicit  
reasons why the county should not  
be divided. "In the minds of those  
who oppose division, there is no  
necessity of forming another coun-  
ty from one that is traversed by  
railroads, and whose county seat  
is accessible from all directions.  
A population of 14,000 is scarcely  
sufficient to sustain one county, and  
the formation of a second would in-  
crease the burden of taxpayers,  
and be of no general benefit to the  
majority of citizens of this lo-  
cality."

PROPOSED STARCH FACTORY.  
Spargur Ditch Company to Experi-  
ment With Potato Raising.  
Judge J. W. Spargur, of the Spar-  
gur Ditch Company, said to a re-  
porter of the East Oregonian con-  
cerning the canal being construct-  
ed:

"We have already completed  
nearly three miles of the ditch and  
have 60 day yet in which to work  
before stopping for the putting in  
of crops. These three miles repre-  
sent more time and labor than all  
the remainder, as henceforth we  
have only sand to go through and  
can work rapidly. Twenty horses  
and thirteen to fifteen men are  
kept busy every day. Water is di-  
verted at a point 500 feet above  
the mouth of Butter creek in the  
Umatilla river. Upon completion  
of the work to be done this season,  
two months hence, we will have  
2000 acres under water, but when  
finished, the ditch is to cover at  
least 10,000 acres of soil which we  
regard as capable of raising any-  
thing grown in this section. One  
feature of the enterprise will be ex-  
perimental this season. We pro-  
pose to put in 100 acres of potatoes  
and cultivate them carefully, to  
demonstrate if possible the capabil-  
ities of this soil for producing this  
crop. Potatoes are valuable as  
feed for hogs and also for making a  
grade of starch used extensively.  
In case we can successfully raise  
potatoes, it is likely we will put in  
a starch factory such as are in op-  
eration all through the East, fur-  
nishing a good local market for po-  
tatoes at a good price to the pro-  
ducer. This enterprise is conditioned  
wholly on the degree of success we  
meet in raising potatoes. It will  
be a valuable addition to the local  
industries of this county."

Editor Boyd and Councilmen  
Jones discussing the water works  
proposition.

The Town Dwindled.  
The First National bank of An-  
aortes, which closed its doors  
Thursday, was the only bank in  
that city. E. W. Andrews,  
of Seattle, was president; F. W.  
Hawkins cashier. The capital  
stock was \$50,000. E. W. An-  
drews, president of the defunct bank  
and of the Seattle National bank,  
said the cause of the failure was  
the decrease in business and the  
small number of deposits in the  
bank. He said that the population  
of the town had dwindled down to  
a few hundred, and the only time  
there was any business done was  
during the few months following  
harvesting. He stated that the  
bank was just struggling along,  
and the directors thought it best to  
close it up.

"Lick Her into Shape."  
A writer of some repute, Robert  
Hamilton, produced the following:  
"No, sir; I am for peace and al-  
ways hev been. That's my rule to  
hum an' abroad. I left one wom-  
an who would fight, an' another  
run away with a feller from down  
the mountain, but now I hev a  
wife that don't say a word when I  
tell her what's what, and we git a-  
long; but I'd give up a great deal  
for peace, fer I'm that kind of a  
man, an' besides, she hev a terrible  
temper, an' it's better ter give her  
her own way most of the time, for  
she's a good cook. My idee is, set  
if a woman's tryin' to run things  
too much, an' she's too big an' br-  
wary fer ye to lick her into shape,  
ye hed better give up right thar,  
an' clear out an' git another; thar's  
plenty, but I must hev peace."

Little Child Drowned.  
H. S. Brock, living below Milton  
had the misfortune last Saturday  
to lose his one-year-old child by  
drowning. Brock had been at  
work around his home when he  
started across a stream in the im-  
mediate vicinity, his little child  
following unknown to him. A  
small foot plank is the means of  
crossing the stream and the child  
fell from it into the water. The  
child was taken from the water as  
soon as possible, but though every

### THE DEAD BURIED.

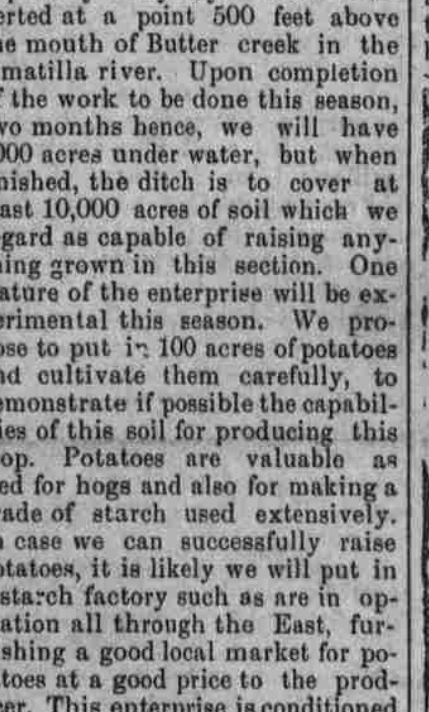

Sad Spectacle at the Funeral of the  
Butte Firemen.  
Never in the history of Montana  
has there been a sadder spectacle  
than that witnessed on January 18,  
when the bodies of 30 victims of  
the terrible disaster of Tuesday  
were consigned to their last resting  
place. All business was suspended  
for the day. The military, with  
muffled drums, the civic societies  
and all the fire departments of the  
state marched in the procession.  
All buildings were draped in  
mourning. Ten thousand people  
followed the dead to the cemetery  
and thousands lined the streets.  
Nine hearses contained the bodies  
of the dead firemen. One hearse  
contained the bits and shreds of  
humanity over which wept the  
widow and orphans of brave Fire  
Marshal Cameron. Behind the  
dead firemen rode James Flannery,  
the sole survivor of the crew. Eight  
unclaimed bodies were buried by  
the relief committee. Several parts  
of bodies were found on that day  
half a mile from the scene of the  
explosion. Hour after hour the  
disaster has been putting on more  
dressing proportions. The real  
weight and extent of the terrible  
calamity will never be known. The  
list of the known dead has swelled  
to 53, and there are at least four in  
the hospitals who cannot recover,  
John Sloan, Charles Ashton, W. L.  
Miles and William Bow. Others  
were fatally injured. To the list of  
missing Charles Hoffbauer has been  
added. A few hours before the ex-  
plosion he was up town and pur-  
chased a new pair of shoes, and on  
his way home he evidently stopped  
at the fire. One of the new shoes  
which he had under his arm, has  
been found a quarter of a mile  
away from the scene of the catas-  
trophe, but not a fragment of Hoff-  
bauer has been found.

LA FAYETTE, IND.  
Fay, living near this city  
to have been cured by the  
Simmons Liver Regulator  
five or six of the best physicians  
had pronounced the case hopeless."  
—Albert A. Wells. Your druggist  
sells it in powder or liquid; the  
powder to be taken dry, or made  
into a tea.

Potato Yeast.  
Peel 7 or 8 large potatoes. Put  
them on in cold water and let them  
boil till nearly done; take them out  
and mash to a paste; pour to them  
3 pints of boiling water and 1 tea-  
cupful of hops and let it boil down  
to 1 quart. Strain and sweeten  
with 1 teacupful of granulated sug-  
ar, and put in 1 tablespoonful of  
yeast while it is milk-warm. Let  
it work about three hours; put back  
the foam and stop your bottle  
tight. It is then fit for use and  
must be kept in a cool place. One  
tablespoonful of yeast must be put  
to one quart of flour. For summer  
a liquid yeast must be made at  
least once a week, unless you use  
yeast cakes, which will keep indefi-  
nitely if properly made and kept  
in a dry airy situation.

An Army Post for Tacoma.  
Congressman Doolittle has sent  
a telegram to the Tacoma Chamber  
of Commerce announcing that he  
has introduced a bill in congress to  
give Tacoma a military post. The  
Tacomans are now looking about  
for 640 acres to donate to the gov-  
ernment for that purpose. Spokane's  
action it is said has set a bad ex-  
ample. Congressman Doolittle's  
bill it is thought will injure Spo-  
kane's chances for a post.

There is good reason for the popu-  
larity of Chamberlain's Cough  
Remedy. Davis & Buzard, of  
West Monterey, Clarion Co. Pa.,  
say: "It has cured people that our  
physicians could do nothing for.  
We persuaded them to try a bottle  
of Chamberlain's Cough Remedy  
and they now recommend it with  
the rest of us." 25 and 50 cent  
bottles for sale by Osburn.

This is the man who claims he  
introduced cartoons in Eastern  
Oregon.

Carlton Cornwell, foreman of the  
Gazette, Middletown, N. J., be-  
lieves that Chamberlain's Cough  
Remedy should be in every home.  
He used it for a cold and it effect-  
ed a speedy cure. He says: "It  
is indeed a grand remedy, I can  
recommend to all. I have also seen  
it used for whooping cough, with  
the best result." 25 and 50 cent bottles  
for sale by Osburn.

FROM FARAWAY HAWAII.  
An Ex-Walla Wallain Has Charge of  
Government Training School.  
Mr. E. L. Brunton, superintendent  
of the county schools, has given  
us a paper entitled, "The Pacific  
Teacher," and published at Hono-  
lulu, Hawaii. Mr. J. L. Dumas is  
editor of this publication. This  
gentleman was at one time a resi-  
dent of Walla Walla, leaving here  
three years ago to go to his present  
field of labor, says the Statesman.  
Besides publishing the educa-  
tional journal, Mr. Dumas has  
charge of the government training  
school for teachers at Honolulu.  
In speaking of his little paper, he  
makes the following statement:  
"The typographical work of this  
paper was done by Kamehameha  
school boys of from ten to fourteen  
years of age. If our printer could  
have had the services of sixth in-

### TEACHERS' SALARIES.

Voluntary Action by the Public School  
Faculty—Ten Per Cent Cut.  
The following communication  
has been sent to the school board  
of District No. 16, Pendleton and  
the action of the teachers, in thus  
voluntarily taking a reduction in  
salaries will reflect credit for un-  
selfishness and concern for the in-  
terests of the schools of that city:  
PENDLETON, Jan. 18, 1895.  
To the Board of Directors of the  
Pendleton Public Schools: We,  
the teachers of the Pendleton pub-  
lic schools, recognizing that the  
time for voting a tax for the main-  
tenance of our schools during the  
coming year is near at hand and  
realizing that there is opposition  
to the tax and that the principal  
argument of the opposition is that  
the teachers are too high for the  
hard times, do hereby request the  
board of directors to cut our salar-  
ies ten per cent during the re-  
maining spring term.  
We consider a ten per cent cut  
more than could be asked of us  
from the fact that we are compelled  
to take warrants in payment of  
our salaries which must be dis-  
counted ten per cent for cash, so  
that it is evident that it amounts  
to about twenty per cent of our  
wages. But we as teachers are  
willing to sacrifice largely for Pen-  
dleton, its children and its schools,  
and shall be willing at all times to  
do our part toward the advance-  
ment of our schools and sincerely  
hope that the patrons of the school  
will do theirs.
