IT IS NOW SETTLED

The Agreement That Gives to
Athena a System
OF WATER WORKS FOR FIRE
Protection and Domestic Purposes—
Work Soon Will Begin.

Work on Athena's water system
will commence in a few days. The
following agreement has received
the signatures of the councilmen
and forwarded to Seattle to be signed
by Chas. Power, the second part-
y to the agreement.

Witnesseth, that the party of the
first part, for and in consideration
of the covenants and agreements
herein contained, and for and in con-
sideration of the payment to be
made to him by the party of the
second part of \$12,000.00 in bonds
of the said City of Athena, said
bonds to be issued in accordance
with the provisions of Ordinance
No. 65 of said City of Athena, does
hereby agree to construct and fur-
nish the party of the second part
with a water works system, put the
same in thorough working order,
furnish all material and labor neces-
sary for so doing, and to do the work
and furnish the material in strict
accordance with the printed speci-
fications, prepared under the direc-
tion of Adams and Gemmel, civil
engineers, (a copy of which speci-
fications is hereto attached and
forms a part of this agreement,) and
in accordance with the plans of
said Adams and Gemmel, sub-
mitted to the City of Athena with
said specifications, the same now
being on file with the Recorder of
said City of Athena, save and ex-
cept with the following alterations
and changes in said specifications,
to-wit:

The pipes shall be of the Mathe-
son or Converse Lock Joint type
and must otherwise conform to the
specifications.
Fifteen hydrants shall be used of
the Watrous fire hydrant type, and
shall be otherwise in conformity
with the specifications, each to have
two 2 1/2-inch hose nozzles.
The mortar to be used for founda-
tions may be made of one part
of the cement described in the spe-
cifications and three instead of two
parts of sand; this change however
is only to be made, provided that
it be authorized, in writing, by the
said Adams and Gemmel.
The pumping plant shall consist
only of the pump as therein speci-
fied, together with its foundations
and the necessary fixtures and con-
nections with steam power, which
steam power shall be furnished by
the party of the second part.
All pipe must be covered with at
least three feet of earth instead of
four.
The painting of the tower shall
be two good coats of mineral paint
mixed with good boiled linseed oil,
instead of the paint mentioned in
the specifications.
And save and except with the
following alterations, changes and
addition to said plans, to-wit:
That the eight-inch pipe extend-
ing South from Main street to the
present well on the City lot shall
be omitted, and the 8-inch gate and
fire hydrant on said pipe line, pro-
vided for on said plans and speci-
fications, shall be located at any
other place on the system where
the party of the second part may
elect.
That the tank site shall be locat-
ed on the North side of Garfield
street between Blocks 10 and 11 of
the R. R. Addition to the City of
Athena.
That the pump shall be located
wherever the party of the second
part may elect and shall be con-
nected with the main system by
six inch pipe from any distance
therefrom not to exceed the dis-
tance from the Athens Flouring
Mill to the corner of Third and
Washington streets in the City of
Athena, as shown on the official
map of said City, the pumping
plant to be changed in accordance
with the changes noted in the
change of specifications.
That the party of the first part
shall dig one square well with a di-
ameter of 10 feet each way and of
a depth of 20 feet, at any place to

be designated by the party of the
second part; that said well shall be
planked or curbed with three-inch
fir planking and cemented from
such a depth as the party of the
second part may elect to a point at
least one foot above the water line,
it being hereby guaranteed by the
party of the first part that no wa-
ter shall pass through said cement-
ing into the well, and said cement-
ing and curbing shall be covered
with a coat of asphaltum.
That said well shall be connect-
ed with the pump by six-inch suc-
tion pipe furnished with the neces-
sary gate valves, foot valves, and
strainers, etc., from a distance not
to require more than 200 feet of
the said six-inch pipe.
It is further agreed by the party
of the first part that he will employ
all the labor required for putting
in said system, with the exception
of two or three skilled workmen,
from among the citizens of Athena,

of the second part.
The party of the first part agrees
to do all the necessary surveying
required in putting in said system
and to furnish a pump and make a
thorough test of the drilled well on
the city lot without extra cost to
the party of the second part, ex-
cept for steam power in making
said test.
And the party of the second part,
for and in consideration of the con-
struction of the hereinbefore speci-
fied water works system, and in
payment therefor, and for the \$18,-
000.00 and accrued interest of the
bonds agreed to be paid by the
party of the first part, does hereby
promise and agree to pay to the
party of the first part, water bonds
of the City of Athena, Umatilla
county state of Oregon, for the sum
of \$12,000 to be issued in accord-
ance with the requirements of Or-
dinance No. 65, of the said City of
Athena, and deliver the same to

The party of the second part fur-
ther agrees to furnish the right of
way for pipe lines and well and
tank sites.
In witness whereof, the parties to
this agreement have hereunto and
to a duplicate hereof, set their
hands and seals. The party of the
first part affixing his private seal,
and the party of the second part
affixing the Municipal Corporation
seal of the City of Athena, Umatilla
County, Oregon, by its duly
authorized officer, W. T. Gilman,
the Recorder of said City of Ath-
ena, this 23rd day of January, 1895.

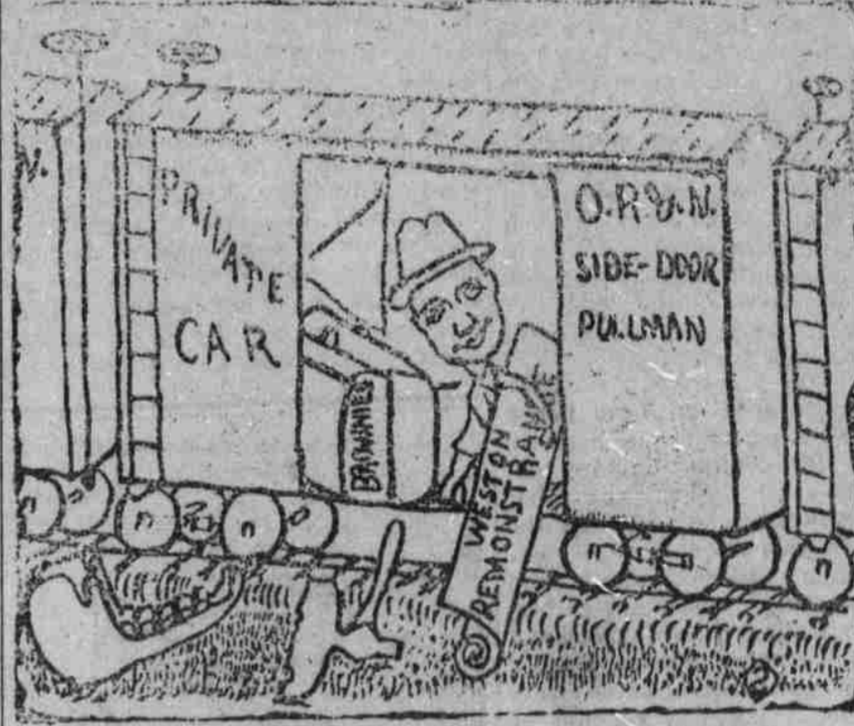

THE NICARAGUA BILL.

Passed the Senate by a Decisive Vote
of 31 to 21.
The bill pledging the faith of the
United States to do the construc-
tion work of the Nicaragua canal
passed the senate Friday night by
the decisive vote of 31 to 21. It
was the termination of a debate
which has lasted since the present
session of congress began. It was
moreover, the first realization in
either branch of congress of the
vast project so long and vigorously
urged for a canal joining the Atlan-
tic and Pacific, with the United
States government standing sponsor
for the execution of the work.
The final vote was not secured un-
til 6:30 Friday night, but notwith-
standing the lateness of the hour,
there was an exceptionally full sen-
ate owing to the interest felt in
the culmination of the long discus-
sion. The Nicaragua minister and
many other diplomats interested
in the project had seats in the dip-
lomatic galleries throughout the
voting on the many amendments
and the final question.
The bill, in brief, directs the is-
sue of \$70,000,000 Nicaragua canal
bonds. Each of these is to bear
the following guarantee:
"The United States of America
guarantees to the lawful holder of
this bond the payment by the Ma-
ritime Canal Company of Nicara-
gua of the principal of said bonds
and the accruing interest thereon,
and as it accrues."
An additional \$30,000,000 of
bonds is to be issued without the
United States guarantee. The total
of \$100,000,000 thus issued is to
be used in constructing the inter-
oceanic canal. The secretary of
the treasury is to have general su-
pervision of the project. A board of
15 directors is to have immediate
charge of the work. The United
States is to receive \$70,000,000 of
the canal company's stock, in re-
turn for guaranteeing the bonds,
and is to hold a mortgage lien on
all the property of the canal com-
pany.

provided said labor can be obtained
at a rate not to exceed \$1.75 per
day for ordinary labor and the cur-
rent rates for skilled labor.
That the said water works sys-
tem shall be completed and in op-
erating order on or before 90 days
after signing this agreement, pro-
viding no unexceptional weather
or unavoidable accident should oc-

cur to prevent or delay the same,
and provided further that this con-
tract with all of its provisions shall
be completed by June 1st,
1895.
That said party of the first part,
in addition to completing said
water works system, shall pay to
the party of the second part the
sum of \$1800.00 and all the ac-

the party of the first part, bonds
equal to 90 per cent. of said esti-
mate, the bonds however being of
the denomination of \$1000.00 each,
the amount to be delivered shall
be that of the next lowest amount
in even thousands below the 90
per cent, and that upon the com-
pletion and acceptance of said wa-
ter works system, according to the
