

MR. SMALLEY'S VIEWS.

As Expressed in the Northwest Magazine.

E. V. Smalley, editor of the Northwest Magazine, after returning to St. Paul, wrote thus of his impression of Umatilla county:

The county of Umatilla, in Eastern Oregon, produces more wheat than any other county in the state, and probably more than any county in Washington, unless it should be Whitman.

The annual yield is said to range from 3,000,000 to 4,000,000 bushels. There are less than 15,000 people in the county and over 5,000 of them live in Pendleton, Athena and other towns, so that the proceeds of this enormous crop is distributed among a farming population of less than 10,000.

If we take out the wool growers and stock raisers we shall bring the number of people who live upon the results of wheat farming down to 8,000. As these people have been raising big crops for ten or fifteen years, in times of good prices, one would suppose that they be in a prosperous condition and able to go through a period of depression without any financial distress.

I was told in Pendleton, however, by the local banker, Mr. Sturgis, and by the editor of the East Oregonian, Mr. Jackson, that nearly all the farmers are heavily mortgaged and that many of them cannot meet the interest on their loans.

The explanation of this unfortunate state of affairs is that the farmers lived carelessly and extravagantly in the good times, buying their food at the grocery stores (instead of raising garden stuff, pigs and poultry and keeping cows) speculating in mines and in Tacoma and Seattle town lots, and got in debt for more land to put in wheat and more machinery to work the land with.

The old tragedy of one crop countries is being repeated on these rich, rolling plains, and there is no remedy except the old fashioned one of economy and industry. The farm loans ought to be re-adjusted at lower rates of interest—nine and ten per cent are much to high figures in these times of low prices for all farm products—the big farms should be divided and more people brought into the country, and then everybody should work more and spend less.

Trials of a Showman. The "Norse Musee," a pretty good show that include among its attractions a mummified giant nine feet tall, which, if not genuine, is a mighty good deception, gave exhibitions here on Tuesday, Wednesday and Thursday evenings, in the Armory hall.

A Wool Item. Oregon stands seventh of the states in the number of her sheep, having 2,456,077. She is fourth in the production of unwashed wool, having 19,648,616 pounds, and fourth in scouring wool, with 6,877,016 pounds.

Your Physical Condition. Needs attention at this time. If you are tired, weak and nervous, it is clear that your blood is impure, and without doubt there has been too much over-work or strain on brain or body.

Don't Crack Barley. The farmers of Eastern Oregon are admonished by the managers of the Pacific Coast Elevator Company to guard against cracking barley, as all such is thereby rendered unfit for brewing purposes.

Walla Walla Gazette. A. C. Cummins, the foreman of the Gazette office, is the first deafmute publisher of the territory and state of Washington.

An Oregon Boy. Percy Olmstead is the only Oregon boy who has gone through the Annapolis naval academy. In the examination, twenty-two cadets will compete for promotion to fill five vacancies, and if the Oregon boy is successful, he will be ad-

vanced to the rank of junior lieutenant; his present rank being cadet ensign and his position that of aide to Admiral Walker on the flagship Philadelphia. Young Olmstead has won the distinguished honor of ranking second in the world with an average of 96 per cent out of a possible 100 points, in the operation of high power guns. During the past two years he has been in South American ports, China, Japan, the islands and many other foreign countries.

He Was Noisy. A young man, or boy rather, indulged "all same Injin" Sunday and was comfortably "full." He created quite a disturbance in the north part of town by cursing and loud talk. He was under the impression that he wanted to fight some one and emphasized his desires in that direction in a voice that could be heard all over town.

Brevities. Meacham creek affords fine fishing. If you want your advertisement read, put it in the Press. Meacham promises to be an attractive "camping" place this summer.

How to Cure Yourself While Using It. The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. Spring Medicine

It is a necessity because the toxic of winter air is gone, and milder weather, increased moisture, accumulated impurities in the blood and debilitated condition of the body, open the way for that tired feeling, nervous troubles, and other ills. The skin, mucous membranes and the various organs strive in vain to relieve the impure current of life. They all welcome

Hood's Sarsaparilla

to assist Nature at this time when she most needs help, to purify the blood, and strengthen the laboring organs and build up the nerves.

"I was not able to wait on myself and could not gain any strength until I began taking Hood's Sarsaparilla about three months ago. Now I am doing my household work. My right lung was badly affected, and in the spring and summer I was very weak, but Hood's Sarsaparilla has done me much good and I have great confidence in it." Mrs. E. R. KNIGHT, Tecumseh, Okla.

Purifies The Blood "I have taken Hood's Sarsaparilla and it has always built up my system, given me a good appetite and changed my blood." THOMAS KNIGER, Tulare, California.

DON'T STOP TOBACCO

Its Injurious to stop Suddenly and don't be imposed upon by buying remedies that require you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACO-CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to absolutely cure the tobacco habit in all its forms, or money returned. Price \$1.00 per box or \$3.00 (30 days treatment and guaranteed cure) \$2.50. For sale by all druggists or will send you a sample box free for \$1.00. Write for Sample Box, Booklets and proofs free. Office of THE PROSENER PRESS Co., C. W. Hornick, Supr., St. Paul, Minn., Sept. 7, 1894.

Eureka Chemical and Mfg Co., La Crosse, Wis. Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keely Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day, I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it. Yours very truly, C. W. HORNICK.
