SICK-HEADACHE

Makes life miserable. All other
ailments are as nothing in com-
parison. Women especially know
its suffering, and few escape its
torment.

THE RELIEF AND CURE IS

**SIMMONS
LIVER
REGULATOR**

Many people take pills, which
gripe and purge, weakening the
body. More take Simmons Liver
Regulator, liquid or powder, be-
cause more pleasant to take, does
not gripe, and is a mild laxative,
that also tones up the system.
The relief is quick. It is Nature's
own remedy, purely vegetable.

"I never found anything to do me any
good until I used Simmons Liver Regu-
lator. It has been three years since I
used it and I have not had Sick Headache
since. I sent my sister (who had from one
to two attacks of Sick Headache every
week) one-half of a package, and she has
not had it since."—C. S. MORAN, Browns-

AN OPEN RIVER.

The Dalles and the Vicinity Will Soon
Enjoy It.

An open river to the sea is of pecu-
liar significance to the people of
the Inland Empire, and The Dalles
and vicinity will soon enjoy this
privilege. At the head of naviga-
tion, with a large region of the in-
terior country to it, an open river
to the sea means that The Dalles
will be an ocean-competitive point
the same as Portland or Astoria,
says The Dalles Times Mountain-
eer.

This long-delayed dream is soon
to be realized, and then this city
will possess facilities for handling
the produce of Eastern Oregon
above any other point east of the
Cascade mountains. A fleet of
boats from Astoria and Portland
will plow the waters of the Colum-
bia, and load and unload their
wealth of exports and imports at
our wharves. Wheat and wool
will seek shipment from this point
to the market of the world, and
The Dalles will no longer be an
interior town, but one of touch and
sympathy with the seaports of the
world. This open river to the sea,
which has been considered a delu-
sive dream, is nearing realization,
and before 1896 if printed on the
calendar the great canal and locks
at the Cascades will be open to the
navigation of the people and the
Columbia will flow unvexed to the
ocean. The Dalles and vicinity
will in less than a year be emanci-
pated from the control of railroads,
and farmers and sheepmen can
float their produce unimpeded in
barges to tide water. An open river
means commercial liberation for
an empire, and The Dalles, being
at the head of navigation, will
reap every advantage to be derived
therefrom.

Oregon Press Association.

The Oregon Press Association
has become of great benefit to the
press of Oregon, and the annual
meetings are looked forward to
with pleasure. The locality that is
fortunate enough to secure the an-
nual meeting is the gainer in many
ways. Recognizing the great value
to this state of an open Columbia
river, the last four sessions have
been held at such places as would
bring that question prominently
before the newspaper fraternity.
This year the importance of the
harbor at Yaquina bay was consid-
ered, and, therefore, some time in
August every member who can
spare a few days from his labor will
journey to Yaquina and endeavor
to make the eight annual meeting
of the Oregon Press Association the
most prosperous one in its history.

I have two little girl children
who are teething this hot summer
weather and are troubled with
bowel complaint. I give them
Chamberlain's Colic Cholera and
Diarrhoea Remedy and it acts like
a charm. I earnestly recommend
it for children with bowel troubles.
I was myself taken with a severe
attack of bloody flux, with cramps
and pains in my stomach, one-
third of a bottle of this remedy
cured me. Within twenty-four
hours I was out of bed and doing
my house work. Mrs. W. L. Dun-
agan, Bon-aqua, Hickman Co.,

Hemlock for Pulp.

A contract for 6,000,000 feet of
hemlock to be used in the manu-
facture of paper, has been let to
parties within the last week, on
Lower Columbia. It is claimed
that hemlock makes a superior
quality of pulp, owing to the whi-
teness of the fiber and freedom from
pitch. As green hemlock is ex-
ceedingly heavy and will, until
seasoned, sink when placed in the
water, this feature will necessitate
all hemlock contracts to be placed
in plenty of time. Hemlock hith-
erto considered worthless for any
purpose will now take rank with
cottonwood or spruce as a pulp
material. Millions of feet of hem-
lock are easily obtained in that
section.

While in Topeka last March, E. T. Barber, a prominent newspaper man of La Cygne, Kan., was taken with cholera morbus very severely. The night clerk at the hotel where he was stopping happened to have a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and gave him three doses which relieved him and he thinks saved his life. Every family should keep this remedy in their home at all times. No one can tell how soon it may be needed. It costs but a trifle and may be the means of saving much suffering and perhaps the life of some member of the family. 25 and 30 cents bottles for sale by Osburn.

New Tariff on Live Stock.

An amendment to the tariff on
live stock between points on the
Washington & Columbia river rail-
way in Eastern Washington, and
Portland, Tacoma, and Seattle, ef-
fective June 17, is announced. The
rates named will apply on live
stock of ordinary valuation, loaded
in cars not exceeding 30 feet in
length, internal measurement, as
follows: Over 30 feet to 42 feet,
109 per cent; 32 feet to 33 feet, 110
per cent; 33 feet to 34 feet, 113 per
cent; 34 feet to 35 feet, 116 per
cent. For each additional foot or
fraction thereof, in length, an ad-
ditional charge of 3 1/4 per cent will
be made.

The Dalles Bicycle Incident.

A few evenings ago a veteran
commercial traveler from San Fran-
cisco was run down by an experi-
enced Dalles bicyclist. "Are you
hurt?" Inquired a sympathetic
bystander. "Hurt?" responded the
drummer in a surprised voice.
"You bet I'm hurt. For twenty
years I've been a resident of cities,
I've driven forty times a day cable
cars, trolley cars, runaways and
locomotives, only to be knocked
over in a lay town by a wobbly
bicycle, ridden by a galoot to clum-
sy to get out of the way of a one-
legged tax collector. Hurt? Well
I should say I am."

Narrow Escape.

On Tuesday the little child of C.
H. Northern at North Powder had
a narrow escape from a frightful
death. The little child was on the
track behind a freight train when
the train commenced backing up
and knocked the child down and
three cars passed over it before the
train could be stopped. When the
train stopped the child crawled out
badly frightened but uninjured.

THE NAME OREGON.

Senator Mitchell Gives a Bit of History
Concerning Its Origin.

United States Senator Mitchell
from Oregon recently gave the Na-
tional Geographical Society the fol-
lowing bit of history about the
name of Oregon:

There are various theories as to
the origin and derivation of the
name "Oregon." Some writers de-
clare that it is derived from the
Spanish, signifying "wild thyme,"
so called because of the abundance
of that herb found by early explor-
ers. Others insist that it is an In-
dian word, in use about the head-
waters of the Columbia, to design-
ate the waters of that river and
meaning the "great river of the
west," and obtained from them by
Jonathan Carver, a native of Con-
necticut, in 1766-68, who spent two
years among the Indians on the
upper waters of the upper Missis-
sippi, now the state of Wisconsin.
Carver's accounts, however, in re-
ferring to many matters, are con-
tradictory and unreliable, though
in referring to this he was quite
likely right. It is more than prob-
able that an article published fifty-
three years ago, in 1842 "Hunt's
Magazine" and reproduced by the
historian Brown in his political
history of Oregon, presents the cor-
rect solution of the question. Speak-
ing of Oregon territory and the dis-
covery of the Columbia river by
Captain Gray, this article says:
"The territory watered by this river
and its tributaries has since"—that
is since the discovery of the river
—"been called the Oregon territory
from a tradition said to have pre-
vailed among the Indians near
Lake Superior, of the existence of
a mighty river rising in that vicinity
and emptying its waters into the
Pacific, and which was supposed to
be the Columbia." Bryant in his
celebrated "Thanatopsis," written
in 1815, refers to the Columbia river
as the Oregon: "Where rolls the
Oregon, and hears no sound
save its own dashing."

Cattlemen vs. Sheepmen.

A special from Wolcott, Colo.,
says advice have been received by
courier from Hayden to the effect
that June 5, 800 armed cattlemen
started for the Elkhead mountain
country with the intention of driv-
ing the sheepmen out. It was
rumored that sheep headers were
accompanied by 150 Pinkertons,
who would resist.

had obtained it of for two more bot-
tles of the same remedy. When you
have a cough or cold give this
preparation a trial and like Mr.
Scriven you will want it when
again in need of such a medicine.
It is a remedy of great worth and
merit. 25 and 50 cent bottles for
sale by Osburn.**

Envious.

"By thunder," said the new
woman as she lighted her cigarette
and started for the office. "I wish
I had the snap Charlie has, with
nothing to do but take care of the
children and the house.—Minneap-
olis Journal.

Ordered on Trial.

OAKLAND, CAL.—"About two
years ago I ordered from J. R.
Gates & Co., San Francisco, a bot-
tle of Simmons Liver Regulator on
trial, and so satisfactory has been
its use in expelling bile from the
system, and regulating the action
of the liver, that from an order
of one at a time the order has risen
to a dozen bottles at once."—B. V.
Lawrence.

Why He Proposed.

"You wish me to be your wife?
Why I've known you only 15 min-
utes."
"That is true, but I wish to give
one lady the opportunity of saying
truthfully, 'this is so sudden.'"
